

# **House Ad Hoc Committee on Arizona Forests Restoration Management**

**PURPOSE:** To collaborate with federal government regarding federal forest management within our borders for the long-term health of Arizona's forests. To examine policies and activities for forest landscape restoration, including post-fire harvest restoration. To support communities affected by federal forest restoration management inaction. To ensure local communities have adequate input and opportunity to mitigate fire damage, as well as participate in ongoing positive economic activities that create jobs and restore our lands.
