Laws 2001, Chapter 287 provided a number of technical and clarifying changes to statutes, and combined fuel tax statutes for motor vehicle fuel and use fuel into one article. Laws 2002, Chapter 338 provides that businesses that purchase at least \$500,000 worth of tangible personal property annually may obtain a use tax permit and pay use taxes directly to the Department of Revenue. Previously, out-of-state vendors were required to register with the Department of Revenue, and collect the use tax from the purchaser and remit the Department of Revenue. It is estimated that this legislation may have a small positive impact on use tax collections due to increased compliance, however the amount is undetermined. (Effective December 31, 2002)

Laws 2004, Chapter 249 required the Arizona Department of Transportation (ADOT) to deduct a taxpayer's use tax liability from any use fuel tax refund. Currently, if use (diesel) fuel is consumed for a non-highway purpose, it is exempt from the use fuel tax and ADOT refunds the taxes paid. Use fuel that is consumed for a non-highway purpose is subject to the use tax. Under this legislation, ADOT will make sure the use tax is paid before issuing a refund of use fuel taxes. The act is estimated to not have a revenue impact. (Effective January 1, 2005)

Laws 2005, Chapter 196 established a percentage based reporting method for determining use tax payments. Statute authorizes businesses that annually make over \$500,000 in purchases to self-assess and make direct use tax payments to DOR. Prior to enactment of this legislation, calculation of the tax was based on actual purchases. The act authorized businesses to instead make the calculation based on a sampling of purchases. The fiscal impact of this legislation can not be determined. (Effective August 12, 2005)

Laws 2008, Chapter 60 established a use tax exception for the purchase of solar energy devices from a retailer that is registered with the Department of Revenue as a solar energy retailer or as a solar energy contractor. The fiscal impact of this legislation cannot be determined. (Effective December 31, 2006)

Laws 2011, Chapter 128 required the state individual income tax return to include a specific statement of the taxpayer's use tax liability. Any person who stores, uses, or consumes tangible personal property subject to the use tax for non-business purposes is required to declare the annual amount of the use tax due, if not collected by a retailer, on his individual income tax form. Chapter 128 was estimated to increase use tax collections by \$1.8 million in FY 2012. (Effective July 20, 2011)

Laws 2012, Chapter 323 repealed the use tax declaration requirement on the individual income tax return enacted by Laws 2011, Chapter 128. Chapter 323 did not repeal, however, the individual's requirement to pay use tax on out-of-state purchases. The act is estimated to reduce use tax revenues by \$(1.8) million in FY 2013. (Effective retroactively from January 1, 2012)
