6 A. The management and control of the joint district are vested in the
7 joint technological education district governing board, including the content
8 and quality of the courses offered by the district, the quality of teachers
9 who provide instruction on behalf of the district, the salaries of teachers
10 who provide instruction on behalf of the district and the reimbursement of
11 other entities for the facilities used by the district. Unless the governing
12 boards of the school districts participating in the formation of the joint
13 district vote to implement an alternative election system as provided in
14 subsection B of this section, the joint board shall consist of five members
15 elected from five single member districts formed within the joint
16 district. The single member district election system shall be submitted as
17 part of the plan for the joint district pursuant to section 15-392 and shall
18 be established in the plan as follows:

19 1. The governing boards of the school districts participating in the
20 formation of the joint district shall define the boundaries of the single
21 member districts so that the single member districts are as nearly equal in
22 population as is practicable, except that if the joint district lies in part
23 in each of two or more counties, at least one single member district may be
24 entirely within each of the counties comprising the joint district if this
25 district design is consistent with the obligation to equalize the population
26 among single member districts.

1 2. The boundaries of each single member district shall follow election
2 precinct boundary lines, as far as practicable, in order to avoid further
3 segmentation of the precincts.

4 3. A person who is a registered voter of this state and who is a
5 resident of the single member district is eligible for election to the office
6 of joint board member from the single member district. The terms of office

8 subsection B. An employee of a joint technological education district or the
9 spouse of an employee shall not hold membership on a governing board of a
10 joint technological education district by which the employee is employed. A
11 member of one school district governing board or joint technological
12 education district governing board is ineligible to be a candidate for
13 nomination or election to or serve simultaneously as a member of any other
14 governing board, except that a member of a governing board may be a candidate
15 for nomination or election for any other governing board if the member is
16 serving in the last year of a term of office. A member of a governing board
17 shall resign the member's seat on the governing board before becoming a
18 candidate for nomination or election to the governing board of any other
19 school district or joint technological education district, unless the member
20 of the governing board is serving in the last year of a term of office.

21 4. Nominating petitions shall be signed by the number of qualified
22 electors of the single member district as provided in section 16-322.

23 B. The governing boards of the school districts participating in the
24 formation of the joint district may vote to implement any other alternative
25 election system for the election of joint district board members. If an
26 alternative election system is selected, it shall be submitted as part of the
27 plan for the joint district pursuant to section 15-392, and the
28 implementation of the system shall be as approved by the United States
29 justice department.

16 D. Notwithstanding subsection C of this section, the following apply
17 to a joint technological education district:

18 1. A joint district may issue bonds for the purposes specified in
19 section 15-1021 and in chapter 4, article 5 of this title to an amount in the
20 aggregate, including the existing indebtedness, not exceeding one per cent of
21 the taxable property used for secondary tax purposes, as determined pursuant
22 to title 42, chapter 15, article 1, within the joint technological education
23 district as ascertained by the last property tax assessment previous to
24 issuing the bonds.

25 2. The number of governing board members for a joint district shall be
26 as prescribed in subsection A of this section.

27 3. If a career and technical education and vocational education course

6 that pupil between the school district and the joint district.

7 4. The student count for the first year of operation of a joint
8 technological education district as provided in this article shall be
9 determined as follows:

10 (a) Determine the estimated student count for joint district classes
11 that will operate in the first year of operation. This estimate shall be
12 based on actual registration of pupils as of March 30 scheduled to attend
13 classes that will be operated by the joint district. The student count for
14 the district of residence of the pupils registered at the joint district
15 shall be adjusted. The adjustment shall cause the district of residence to
16 reduce the student count for the pupil to reflect the courses to be taken at
17 the joint district. The district of residence shall review and approve the
18 adjustment of its own student count as provided in this subdivision before
19 the pupils from the school district can be added to the student count of the
20 joint district.

21 (b) The student count for the new joint district shall be the student
22 count as determined in subdivision (a) of this paragraph.

23 (c) After the first one hundred days or two hundred days in session,
24 as applicable, for the first year of operation, the joint district shall
25 revise the student count to the actual student count for students attending
26 classes in the joint district. A joint district shall revise its student
27 count, the base support level as provided in section 15-943.02, the revenue
28 control limit as provided in section 15-944.01, the capital outlay revenue

31 revise its budget prior to May 15. A joint district that underestimated its
32 student count may revise its budget prior to May 15.

1 (d) After the first one hundred days or two hundred days in session,

4 taken at the joint district. The district of residence shall revise its

14 eligible for adjustment pursuant to section 15-948.

15 (f) The procedures for implementing this paragraph shall be as
16 prescribed in the uniform system of financial records.

17 (g) If the district of residence utilizes section 15-942 to determine

19 this paragraph by subtracting the appropriate count from the student count
20 determined as provided in section 15-942.

21 For the purposes of this paragraph, "district of residence" means the
22 district that included the pupil in its average daily membership for the year
23 before the first year of operation of the joint district and that would have

26 joint district if the pupil had not enrolled in the joint district.

27 5. A student includes any person enrolled in the joint district
28 without regard to the person's age or high school graduation status, except
29 that:

21 monies received pursuant to this article to supplement and not supplant base
22 year career and technical education and vocational education courses, and
23 directly related equipment and facilities, except that a school district that
24 is part of a joint technological education district and that has used monies
25 received pursuant to this article to supplant career and technological
26 education and vocational education courses that were offered before the first
27 year that the school district participated in the joint district or the first
28 year that the school district used monies received pursuant to this article
