13 transportation; definitions

14 A. Financial provisions for a charter school that is sponsored by a
15 school district governing board are as follows:

16 1. The charter school shall be included in the district's budget and
17 financial assistance calculations pursuant to paragraph 3 of this subsection
18 and chapter 9 of this title, except for chapter 9, article 4 of this title.
19 The charter of the charter school shall include a description of the methods
20 of funding the charter school by the school district. The school district
21 shall send a copy of the charter and application, including a description of
22 how the school district plans to fund the school, to the state board of
23 education before the start of the first fiscal year of operation of the
24 charter school. The charter or application shall include an estimate of the
25 student count for the charter school for its first fiscal year of operation.
26 This estimate shall be computed pursuant to the requirements of paragraph 3
27 of this subsection.

28 2. A school district is not financially responsible for any charter
29 school that is sponsored by the state board of education, the state board for
30 charter schools, a university under the jurisdiction of the Arizona board of
31 regents, a community college district or a group of community college
32 districts.

33 3. A school district that sponsors a charter school may:

34 (a) Increase its student count as provided in subsection B, paragraph
35 2 of this section during the first year of the charter school's operation to
36 include those charter school pupils who were not previously enrolled in the
37 school district. A charter school sponsored by a school district governing
38 board is eligible for the CHARTER ADDITIONAL assistance prescribed in
39 subsection B, paragraph 4 of this section. The ~~soft-capital~~ DISTRICT
40 ADDITIONAL ASSISTANCE allocation as provided in section ~~15-962~~ 15-961 for the
41 school district sponsoring the charter school shall be increased by the
42 amount of the CHARTER additional assistance. The school district shall
43 include the full amount of the CHARTER additional assistance in the funding
44 provided to the charter school.

1 (b) Compute separate weighted student counts pursuant to section
2 15-943, paragraph 2, subdivision (a) for its noncharter school versus charter
3 school pupils in order to maintain eligibility for small school district
4 support level weights authorized in section 15-943, paragraph 1 for its
5 noncharter school pupils only. The portion of a district's student count
6 that is attributable to charter school pupils is not eligible for small
7 school district support level weights.

8 4. If a school district uses the provisions of paragraph 3 of this
9 subsection, the school district is not eligible to include those pupils in
10 its student count for the purposes of computing an increase in its revenue
11 control limit and district support level as provided in section 15-948.

12 5. A school district that sponsors a charter school is not eligible to
13 include the charter school pupils in its student count for the purpose of
14 computing an increase in its ~~capital outlay revenue limit~~ DISTRICT ADDITIONAL
15 ASSISTANCE as provided in section 15-961, subsection ~~C~~ B, except that if the
16 charter school was previously a school in the district, the district may
17 include in its student count any charter school pupils who were enrolled in
18 the school district in the prior year.

19 6. A school district that sponsors a charter school is not eligible to
20 include the charter school pupils in its student count for the purpose of
21 computing the revenue control limit which is used to determine the maximum
22 budget increase as provided in chapter 4, article 4 of this title unless the
23 charter school is located within the boundaries of the school district.

24 7. If a school district converts one or more of its district public
25 schools to a charter school and receives assistance as prescribed in
26 subsection B, paragraph 4 of this section, and subsequently converts the
27 charter school back to a district public school, the school district shall
28 repay the state the total additional assistance received for the charter
29 school for all years that the charter school was in operation. The repayment
30 shall be in one lump sum and shall be reduced from the school district's
31 current year equalization assistance. The school district's general budget
32 limit shall be reduced by the same lump sum amount in the current year.

33 B. Financial provisions for a charter school that is sponsored by the
34 state board of education, the state board for charter schools, a university,
35 a community college district or a group of community college districts are as
36 follows:

37 1. The charter school shall calculate a base support level as
38 prescribed in section 15-943, except that section 15-941 does not apply to
39 these charter schools.

40 2. Notwithstanding paragraph 1 of this subsection, the student count
41 shall be determined initially using an estimated student count based on
42 actual registration of pupils before the beginning of the school year. After
43 the first one hundred days or two hundred days in session, as applicable, the
44 charter school shall revise the student count to be equal to the actual
45 average daily membership, as defined in section 15-901, of the charter

1 school. Before the one hundredth day or two hundredth day in session, as
2 applicable, the state board of education, the state board for charter
3 schools, the sponsoring university, the sponsoring community college district
4 or the sponsoring group of community college districts may require a charter
5 school to report periodically regarding pupil enrollment and attendance, and
6 the department of education may revise its computation of equalization
7 assistance based on the report. A charter school shall revise its student
8 count, base support level and additional assistance before May 15. A charter
9 school that overestimated its student count shall revise its budget before
10 May 15. A charter school that underestimated its student count may revise
11 its budget before May 15.

12 3. A charter school may utilize section 15-855 for the purposes of
13 this section. The charter school and the department of education shall
14 prescribe procedures for determining average daily membership.

15 4. Equalization assistance for the charter school shall be determined
16 by adding the amount of the base support level and CHARTER additional
17 assistance. The amount of the CHARTER additional assistance is one thousand
18 six hundred ~~fifty-four~~ EIGHTY-FOUR dollars ~~forty-one~~ NINETEEN cents per
19 student count in kindergarten programs and grades one through eight and one
20 thousand nine hundred ~~twenty-eight~~ SIXTY-TWO dollars ~~nineteen~~ NINETY cents
21 per student count in grades nine through twelve.

22 5. The state board of education shall apportion state aid from the
23 appropriations made for such purposes to the state treasurer for disbursement
24 to the charter schools in each county in an amount as determined by this
25 paragraph. The apportionments shall be made as prescribed in section 15-973,
26 subsection B.

27 6. The charter school shall not charge tuition for pupils who reside
28 in this state, levy taxes or issue bonds. A charter school may admit pupils
29 who are not residents of this state and shall charge tuition for those pupils
30 in the same manner prescribed in section 15-823.

31 7. Not later than noon on the day preceding each apportionment date
32 established by paragraph 5 of this subsection, the superintendent of public
33 instruction shall furnish to the state treasurer an abstract of the
34 apportionment and shall certify the apportionment to the department of
35 administration, which shall draw its warrant in favor of the charter schools
36 for the amount apportioned.

37 C. If a pupil is enrolled in both a charter school and a public school
38 that is not a charter school, the sum of the daily membership, which includes
39 enrollment as prescribed in section 15-901, subsection A, paragraph 1,
40 subdivisions (a) and (b) and daily attendance as prescribed in section
41 15-901, subsection A, paragraph 5, for that pupil in the school district and
42 the charter school shall not exceed 1.0, except that if the pupil is enrolled
43 in both a charter school and a joint technical education district and resides
44 within the boundaries of a school district participating in the joint
45 technical education district, the sum of the average daily membership for

1 that pupil in the charter school and the joint technical education district
2 shall not exceed 1.25. If a pupil is enrolled in both a charter school and a
3 public school that is not a charter school, the department of education shall
4 direct the average daily membership to the school with the most recent
5 enrollment date. Upon validation of actual enrollment in both a charter
6 school and a public school that is not a charter school and if the sum of the
7 daily membership or daily attendance for that pupil is greater than 1.0, the
8 sum shall be reduced to 1.0 and shall be apportioned between the public
9 school and the charter school based on the percentage of total time that the
10 pupil is enrolled or in attendance in the public school and the charter
11 school, except that if the pupil is enrolled in both a charter school and a
12 joint technical education district and resides within the boundaries of a
13 school district participating in the joint technical education district, the
14 sum of the average daily membership for that pupil in the charter school and
15 the joint technical education district shall be reduced to 1.25 and shall be
16 apportioned between the charter school and the joint technical education
17 district based on the percentage of total time that the pupil is enrolled or
18 in attendance in the charter school and the joint technical education
19 district. The uniform system of financial records shall include guidelines
20 for the apportionment of the pupil enrollment and attendance as provided in
21 this section.

22 D. Charter schools are allowed to accept grants and gifts to
23 supplement their state funding, but it is not the intent of the charter
24 school law to require taxpayers to pay twice to educate the same pupils. The
25 base support level for a charter school or for a school district sponsoring a
26 charter school shall be reduced by an amount equal to the total amount of
27 monies received by a charter school from a federal or state agency if the
28 federal or state monies are intended for the basic maintenance and operations
29 of the school. The superintendent of public instruction shall estimate the
30 amount of the reduction for the budget year and shall revise the reduction to
31 reflect the actual amount before May 15 of the current year. If the
32 reduction results in a negative amount, the negative amount shall be used in
33 computing all budget limits and equalization assistance, except that:

34 1. Equalization assistance shall not be less than zero.

35 2. For a charter school sponsored by the state board of education, the
36 state board for charter schools, a university, a community college district
37 or a group of community college districts, the total of the base support
38 level and the additional assistance shall not be less than zero.

39 3. For a charter school sponsored by a school district, the base
40 support level for the school district shall not be reduced by more than the
41 amount that the charter school increased the district's base support
42 level, ~~capital outlay revenue limit~~ and ~~soft capital~~ DISTRICT ADDITIONAL
43 ASSISTANCE allocation.

1 E. If a charter school was a district public school in the prior year
2 and is now being operated for or by the same school district and sponsored by
3 the state board of education, the state board for charter schools, a
4 university, a community college district, a group of community college
5 districts or a school district governing board, the reduction in subsection D
6 of this section applies. The reduction to the base support level of the
7 charter school or the sponsoring district of the charter school shall equal
8 the sum of the base support level and the additional assistance received in
9 the current year for those pupils who were enrolled in the traditional public
10 school in the prior year and are now enrolled in the charter school in the
11 current year.

12 F. Equalization assistance for charter schools shall be provided as a
13 single amount based on average daily membership without categorical
14 distinctions between maintenance and operations or capital.

15 G. At the request of a charter school, the county school
16 superintendent of the county where the charter school is located may provide
17 the same educational services to the charter school as prescribed in section
18 15-308, subsection A. The county school superintendent may charge a fee to
19 recover costs for providing educational services to charter schools.

20 H. If the sponsor of the charter school determines at a public meeting
21 that the charter school is not in compliance with federal law, with the laws
22 of this state or with its charter, the sponsor of a charter school may submit
23 a request to the department of education to withhold up to ten per cent of
24 the monthly apportionment of state aid that would otherwise be due the
25 charter school. The department of education shall adjust the charter
26 school's apportionment accordingly. The sponsor shall provide written notice
27 to the charter school at least seventy-two hours before the meeting and shall
28 allow the charter school to respond to the allegations of noncompliance at
29 the meeting before the sponsor makes a final determination to notify the
30 department of education of noncompliance. The charter school shall submit a
31 corrective action plan to the sponsor on a date specified by the sponsor at
32 the meeting. The corrective action plan shall be designed to correct
33 deficiencies at the charter school and to ensure that the charter school
34 promptly returns to compliance. When the sponsor determines that the charter
35 school is in compliance, the department of education shall restore the full
36 amount of state aid payments to the charter school.

37 I. In addition to the withholding of state aid payments pursuant to
38 subsection H of this section, the sponsor of a charter school may impose a
39 civil penalty of one thousand dollars per occurrence if a charter school
40 fails to comply with the fingerprinting requirements prescribed in section
41 15-183, subsection C or section 15-512. The sponsor of a charter school
42 shall not impose a civil penalty if it is the first time that a charter
43 school is out of compliance with the fingerprinting requirements and if the
44 charter school provides proof within forty-eight hours of written
45 notification that an application for the appropriate fingerprint check has

1 been received by the department of public safety. The sponsor of the charter
2 school shall obtain proof that the charter school has been notified, and the
3 notification shall identify the date of the deadline and shall be signed by
4 both parties. The sponsor of a charter school shall automatically impose a
5 civil penalty of one thousand dollars per occurrence if the sponsor
6 determines that the charter school subsequently violates the fingerprinting
7 requirements. Civil penalties pursuant to this subsection shall be assessed
8 by requesting the department of education to reduce the amount of state aid
9 that the charter school would otherwise receive by an amount equal to the
10 civil penalty. The amount of state aid withheld shall revert to the state
11 general fund at the end of the fiscal year.

12 J. A charter school may receive and spend monies distributed by the
13 department of education pursuant to section 42-5029, subsection E and section
14 37-521, subsection B.

15 K. If a school district transports or contracts to transport pupils to
16 the Arizona state schools for the deaf and the blind during any fiscal year,
17 the school district may transport or contract with a charter school to
18 transport sensory impaired pupils during that same fiscal year to a charter
19 school if requested by the parent of the pupil and if the distance from the
20 pupil's place of actual residence within the school district to the charter
21 school is less than the distance from the pupil's place of actual residence
22 within the school district to the campus of the Arizona state schools for the
23 deaf and the blind.

24 L. Notwithstanding any other law, a university under the jurisdiction
25 of the Arizona board of regents, a community college district or a group of
26 community college districts shall not include any student in the student
27 count of the university, community college district or group of community
28 college districts for state funding purposes if that student is enrolled in
29 and attending a charter school sponsored by the university, community college
30 district or group of community college districts.

31 M. The governing body of a charter school shall transmit a copy of its
32 proposed budget or the summary of the proposed budget and a notice of the
33 public hearing to the department of education for posting on the department
34 of education's website no later than ten days before the hearing and meeting.
35 If the charter school maintains a website, the charter school governing body
36 shall post on its website a copy of its proposed budget or the summary of the
37 proposed budget and a notice of the public hearing.

38 N. The governing body of a charter school shall collaborate with the
39 private organization that is approved by the state board of education
40 pursuant to section 15-792.02 to provide approved board examination systems
41 for the charter school.

42 O. If permitted by federal law, a charter school may opt out of
43 federal grant opportunities if the charter holder or the appropriate
44 governing body of the charter school determines that the federal requirements
45 impose unduly burdensome reporting requirements.

1 P. For the purposes of this section:

2 1. "Monies intended for the basic maintenance and operations of the
3 school" means monies intended to provide support for the educational program
4 of the school, except that it does not include supplemental assistance for a
5 specific purpose or title VIII of the elementary and secondary education act
6 of 1965 monies. The auditor general shall determine which federal or state
7 monies meet the definition in this paragraph.

8 2. "Operated for or by the same school district" means the charter
9 school is either governed by the same district governing board or operated by
10 the district in the same manner as other traditional schools in the district
11 or is operated by an independent party that has a contract with the school
12 district. The auditor general and the department of education shall
13 determine which charter schools meet the definition in this subsection.

4 subsection A, paragraphs 12 and 13 and sections 15-701 and 15-701.01.

5 10. Appropriate combinations of facilities or uses listed in this
6 section.

7 G. The board shall consider the facilities and equipment of the
8 schools with the highest academic productivity scores, as prescribed in
9 section 15-2002, subsection A, paragraph 9, subdivision (d), and the highest
10 parent quality ratings in the establishment of the guidelines.

11 H. The school facilities board may consider appropriate combinations
12 of facilities or uses in making assessments of and curing existing
13 deficiencies pursuant to section 15-2002, subsection A, paragraph 1 and in
14 certifying plans for new school facilities pursuant to section 15-2002,
15 subsection A, paragraph 5.

16 I. For the purposes of this section, "student capacity" means the
17 capacity adjusted to include any additions to or deletions of space,
18 including modular or portable buildings at the school. The school facilities
19 board shall determine the student capacity for each school in conjunction
20 with each school district, recognizing each school's allocation of space as
21 of July 1, 1998, to achieve the academic standards prescribed pursuant to
22 section 15-203, subsection A, paragraphs 12 and 13 and sections 15-701 and
23 15-701.01.

24 Sec. 14. Repeal

25 Section 15-2031, Arizona Revised Statutes, is repealed.

26 Sec. 15. Section 15-2032, Arizona Revised Statutes, is amended to
27 read:

28 15-2032. School facilities board building renewal grant fund:
29 definitions

30 A. ~~Notwithstanding section 15-2031~~, The building renewal grant fund is
31 established consisting of monies appropriated to the fund by the legislature.
32 The school facilities board shall administer the fund and distribute monies
33 to school districts for the purpose of maintaining the adequacy of existing
34 school facilities. Monies in the fund are exempt from the provisions of
35 section 35-190 relating to lapsing of appropriations.

36 B. The school facilities board shall distribute monies from the fund
37 based on grant requests from school districts to fund primary building
38 renewal projects. Project requests shall be prioritized by the school
39 facilities board, with priority given to school districts that have provided
40 routine preventative maintenance on the facility, and to school districts
41 that can provide a match of monies provided by the fund. The school
42 facilities board shall approve only projects that will be completed within
43 twelve months, unless similar projects on average take longer to complete.

1 C. School districts that receive monies from the fund shall use these
2 monies on projects for buildings or any part of a building in the school
3 facilities board's database for any of the following:

- 4 1. Major renovations and repairs to a building.
- 5 2. Upgrading systems and areas that will maintain or extend the useful
6 life of the building.
- 7 3. Infrastructure costs.

8 D. Monies received from the fund shall not be used for any of the
9 following purposes:

- 10 1. New construction.
- 11 2. Remodeling interior space for aesthetic or preferential reasons.
- 12 3. Exterior beautification.
- 13 4. Demolition.

14 ~~5. The purchase of soft capital items pursuant to section 15-962.~~

15 ~~6.~~ 5. Routine preventative maintenance.

16 ~~7.~~ 6. Any project in a building, or part of a building, that is being
17 leased to another entity, including a charter school that is sponsored by a
18 school district pursuant to section 15-183.

19 E. ACCOMMODATION SCHOOLS ARE NOT ELIGIBLE FOR MONIES FROM THE BUILDING
20 RENEWAL GRANT FUND.

21 ~~E.~~ F. For the purposes of this section:

22 1. "Primary building renewal projects" means projects that are
23 necessary for buildings owned by school districts that are required to meet
24 the minimum adequacy standards for student capacity and that fall below the
25 minimum school facility adequacy guidelines, as adopted by the school
26 facilities board pursuant to section 15-2011, for school districts that have
27 provided routine preventative maintenance to the school facility.

28 2. "Routine preventative maintenance" means services that are
29 performed on a regular schedule at intervals ranging from four times a year
30 to once every three years and that are intended to extend the useful life of
31 a building system and reduce the need for major repairs.

32 3. "Student capacity" has the same meaning prescribed in section
33 15-2011.

34 Sec. 16. Section 15-2041, Arizona Revised Statutes, is amended to
35 read:

36 15-2041. New school facilities fund; capital plan; report

37 A. A new school facilities fund is established consisting of monies
38 appropriated by the legislature and monies credited to the fund pursuant to
39 section 37-221. The school facilities board shall administer the fund and
40 distribute monies, as a continuing appropriation, to school districts for the
41 purpose of constructing new school facilities and for contracted expenses
42 pursuant to section 15-2002, subsection B, paragraphs 2, 3 and 4. On June 30
43 of each fiscal year, any unobligated contract monies in the new school
44 facilities fund shall be transferred to the capital reserve fund established
45 by section 15-2003.

1 B. The school facilities board shall prescribe a uniform format for
2 use by the school district governing board in developing and annually
3 updating a capital plan that consists of each of the following:

4 1. Enrollment projections for the next five years for elementary
5 schools and eight years for middle and high schools, including a description
6 of the methods used to make the projections.

7 2. A description of new schools or additions to existing schools
8 needed to meet the building adequacy standards prescribed in section 15-2011.
9 The description shall include:

10 (a) The grade levels and the total number of pupils that the school or
11 addition is intended to serve.

12 (b) The year in which it is necessary for the school or addition to
13 begin operations.

14 (c) A timeline that shows the planning and construction process for
15 the school or addition.

16 3. Long-term projections of the need for land for new schools.

17 4. Any other necessary information required by the school facilities
18 board to evaluate a school district's capital plan.

19 5. If a school district pays tuition for all or a portion of the
20 school district's high school pupils to another school district, the capital
21 plan shall indicate the number of pupils for which the district pays tuition
22 to another district. If a school district accepts pupils from another school
23 district pursuant to section 15-824, subsection A, the school district shall
24 indicate the projections for this population separately. This paragraph does
25 not apply to a small isolated school district as defined in section 15-901.

26 C. If the capital plan indicates a need for a new school or an
27 addition to an existing school within the next four years or a need for land
28 within the next ten years, the school district shall submit its plan to the
29 school facilities board by September 1 and shall request monies from the new
30 school facilities fund for the new construction or land. The school
31 facilities board may require a school district to sell land that was
32 previously purchased entirely with monies provided by the school facilities
33 board if the school facilities board determines that the property is no
34 longer needed within the ten year period specified in this subsection for a
35 new school or no longer needed within that ten year period for an addition to
36 an existing school. Monies provided for land shall be in addition to any
37 monies provided pursuant to subsection D of this section.

38 D. The school facilities board shall distribute monies from the new
39 school facilities fund as follows:

40 1. The school facilities board shall review and evaluate the
41 enrollment projections. ~~and~~ ON OR BEFORE MARCH 1, FOLLOWING THE SUBMISSION
42 OF THE ENROLLMENT PROJECTIONS, THE SCHOOL FACILITIES BOARD SHALL either
43 approve the projections as submitted or revise the projections. In
44 determining new construction requirements, the school facilities board shall
45 determine the net new growth of pupils that will require additional square

footage that exceeds the building adequacy standards prescribed in section 15-2011. If the projected growth and the existing number of pupils exceed three hundred fifty pupils who are served in a school district other than the pupil's resident school district, the school facilities board, the receiving school district and the resident school district shall develop a capital facilities plan on how to best serve those pupils. A small isolated school district as defined in section 15-901 is not required to develop a capital facilities plan pursuant to this paragraph.

2. If the approved projections indicate that additional space ~~will not be needed within the next two years for elementary schools or three years for middle or high schools~~ **WOULD NOT HAVE BEEN NEEDED DURING THE CURRENT SCHOOL YEAR** in order to meet the building adequacy standards prescribed in section 15-2011, the request shall be held for consideration by the school facilities board for possible future funding and the school district shall annually submit an updated plan until the additional space is needed.

3. If the approved projections indicate that additional space ~~will be needed within the next two years for elementary schools or three years for middle or high schools~~ **WOULD HAVE BEEN NEEDED DURING THE CURRENT SCHOOL YEAR** in order to meet the building adequacy standards prescribed in section 15-2011, the school facilities board shall provide an amount as follows:

(a) Determine the number of pupils requiring additional square footage to meet building adequacy standards. This amount for elementary schools shall not be less than the number of new pupils for whom space will be needed in the next year and shall not exceed the number of new pupils for whom space will be needed in the next five years. This amount for middle and high schools shall not be less than the number of new pupils for whom space will be needed in the next four years and shall not exceed the number of new pupils for whom space will be needed in the next eight years.

(b) Multiply the number of pupils determined in subdivision (a) of this paragraph by the square footage per pupil. The square footage per pupil is ninety square feet per pupil for preschool children with disabilities, kindergarten programs and grades one through six, one hundred square feet for grades seven and eight, one hundred thirty-four square feet for a school district that provides instruction in grades nine through twelve for fewer than one thousand eight hundred pupils and one hundred twenty-five square feet for a school district that provides instruction in grades nine through twelve for at least one thousand eight hundred pupils. The total number of pupils in grades nine through twelve in the district shall determine the square footage factor to use for net new pupils. The school facilities board may modify the square footage requirements prescribed in this subdivision for particular schools based on any of the following factors:

(i) The number of pupils served or projected to be served by the school district.

(ii) Geographic factors.

1 (iii) Grade configurations other than those prescribed in this
2 subdivision.

3 (iv) Compliance with minimum school facility adequacy requirements
4 established pursuant to section 15-2011.

5 (c) Multiply the product obtained in subdivision (b) of this paragraph
6 by the cost per square foot. The cost per square foot is ninety dollars for
7 preschool children with disabilities, kindergarten programs and grades one
8 through six, ninety-five dollars for grades seven and eight and one hundred
9 ten dollars for grades nine through twelve. The cost per square foot shall
10 be adjusted annually for construction market considerations based on an index
11 identified or developed by the joint legislative budget committee as
12 necessary but not less than once each year. The school facilities board
13 shall multiply the cost per square foot by 1.05 for any school district
14 located in a rural area. The school facilities board may only modify the
15 base cost per square foot prescribed in this subdivision for particular
16 schools based on geographic conditions or site conditions. For the purposes
17 of this subdivision, "rural area" means an area outside a thirty-five mile
18 radius of a boundary of a municipality with a population of more than fifty
19 thousand persons.

20 (d) Once the school district governing board obtains approval from the
21 school facilities board for new facility construction funds, additional
22 portable or modular square footage created for the express purpose of
23 providing temporary space for pupils until the completion of the new facility
24 shall not be included by the school facilities board for the purpose of new
25 construction funding calculations. On completion of the new facility
26 construction project, if the portable or modular facilities continue in use,
27 the portable or modular facilities shall be included as prescribed by this
28 chapter, unless the school facilities board approves their continued use for
29 the purpose of providing temporary space for pupils until the completion of
30 the next new facility that has been approved for funding from the new school
31 facilities fund.

32 4. For projects approved after December 31, 2001, and notwithstanding
33 paragraph 3 of this subsection, a unified school district that does not have
34 a high school is not eligible to receive high school space as prescribed by
35 section 15-2011 and this section unless the unified district qualifies for
36 geographic factors prescribed by paragraph 3, subdivision (b), item (ii) of
37 this subsection.

38 5. If a joint technical education district leases a building from a
39 school district, that building shall be included in the school district's
40 square footage calculation for the purposes of new construction pursuant to
41 this section.

42 6. If a school district leases a building to another entity, including
43 a charter school that is sponsored by a school district pursuant to section
44 15-183, that building shall be included in the school district's square

footage calculation for purposes of new construction pursuant to this section.

E. Monies for architectural and engineering fees, project management services and preconstruction services shall be distributed on the completion of the analysis by the school facilities board of the school district's request. After receiving monies pursuant to this subsection, the school district shall submit a design development plan for the school or addition to the school facilities board before any monies for construction are distributed. If the school district's request meets the building adequacy standards, the school facilities board may review and comment on the district's plan with respect to the efficiency and effectiveness of the plan in meeting state square footage and facility standards before distributing the remainder of the monies. If the school facilities board modifies the cost per square foot as prescribed in subsection D, paragraph 3, subdivision (c) of this section, the school facilities board may deduct the cost of project management services and preconstruction services from the required cost per square foot. The school facilities board may decline to fund the project if the square footage is no longer required due to revised enrollment projections.

F. The school facilities board shall distribute the monies needed for land for new schools so that land may be purchased at a price that is less than or equal to fair market value and in advance of the construction of the new school. If necessary, the school facilities board may distribute monies for land to be leased for new schools if the duration of the lease exceeds the life expectancy of the school facility by at least fifty per cent. A school district shall not use land purchased or partially purchased with monies provided by the school facilities board for a purpose other than a site for a school facility without obtaining prior written approval from the school facilities board. A school district shall not lease, sell or take any action that would diminish the value of land purchased or partially purchased with monies provided by the school facilities board without obtaining prior written approval from the school facilities board. The proceeds derived through the sale of any land purchased or partially purchased, or the sale of buildings funded or partially funded, with monies provided by the school facilities board shall be returned to the state fund from which it was appropriated and to any other participating entity on a proportional basis. Except as provided in section 15-342, paragraph 33, if a school district acquires real property by donation at an appropriate school site approved by the school facilities board, the school facilities board shall distribute an amount equal to twenty per cent of the fair market value of the donated real property that can be used for academic purposes. The school district shall place the monies in the unrestricted capital outlay fund and increase the unrestricted capital budget limit by the amount of monies placed in the fund. Monies distributed under this subsection shall be distributed from the new school facilities fund. A school district that receives monies from the new

1 school facilities fund for a donation of land pursuant to section 15-342,
2 paragraph 33 shall not receive monies from the school facilities board for
3 the donation of real property pursuant to this subsection. A school district
4 shall not pay a consultant a percentage of the value of any of the following:

5 1. Donations of real property, services or cash from any of the
6 following:

7 (a) Entities that have offered to provide construction services to the
8 school district.

9 (b) Entities that have been contracted to provide construction
10 services to the school district.

11 (c) Entities that build residential units in that school district.

12 (d) Entities that develop land for residential use in that school
13 district.

14 2. Monies received from the school facilities board on behalf of the
15 school district.

16 3. Monies paid by the school facilities board on behalf of the school
17 district.

18 G. In addition to distributions to school districts based on pupil
19 growth projections, a school district may submit an application to the school
20 facilities board for monies from the new school facilities fund if one or
21 more school buildings have outlived their useful life. If the school
22 facilities board determines that the school district needs to build a new
23 school building for these reasons, the school facilities board shall remove
24 the square footage computations that represent the building from the
25 computation of the school district's total square footage for purposes of
26 this section. If the square footage recomputation reflects that the school
27 district no longer meets building adequacy standards, the school district
28 qualifies for a distribution of monies from the new school construction
29 formula in an amount determined pursuant to subsection D of this section.
30 ~~Buildings removed from a school district's total square footage pursuant to~~
31 ~~this subsection shall not be included in the computation of monies from the~~
32 ~~building renewal fund established by section 15-2031.~~ The school facilities
33 board may only modify the base cost per square foot prescribed in this
34 subsection under extraordinary circumstances for geographic factors or site
35 conditions.

36 H. School districts that receive monies from the new school facilities
37 fund shall establish a district new school facilities fund and shall use the
38 monies in the district new school facilities fund only for the purposes
39 prescribed in this section. By October 15 of each year, each school district
40 shall report to the school facilities board the projects funded at each
41 school in the previous fiscal year with monies from the district new school
42 facilities fund and shall provide an accounting of the monies remaining in
43 the new school facilities fund at the end of the previous fiscal year.

1 I. If a school district has surplus monies received from the new
2 school facilities fund, the school district may use the surplus monies only
3 for capital purposes for the project for up to one year after completion of
4 the project. If the school district possesses surplus monies from the new
5 school construction project that have not been expended within one year of
6 the completion of the project, the school district shall return the surplus
7 monies to the school facilities board for deposit in the new school
8 facilities fund.

9 J. The board's consideration of any application filed after December
10 31 of the year in which the property becomes territory in the vicinity of a
11 military airport or ancillary military facility as defined in section 28-8461
12 for monies to fund the construction of new school facilities proposed to be
13 located in territory in the vicinity of a military airport or ancillary
14 military facility shall include, if after notice is transmitted to the
15 military airport pursuant to section 15-2002 and before the public hearing
16 the military airport provides comments and an analysis concerning
17 compatibility of the proposed school facilities with the high noise or
18 accident potential generated by military airport or ancillary military
19 facility operations that may have an adverse effect on public health and
20 safety, consideration and analysis of the comments and analysis provided by
21 the military airport before making a final determination.

22 K. If a school district uses its own project manager for new school
23 construction, the members of the school district governing board and the
24 project manager shall sign an affidavit stating that the members and the
25 project manager understand and will follow the minimum adequacy requirements
26 prescribed in section 15-2011.

27 L. The school facilities board shall establish a separate account in
28 the new school facilities fund designated as the litigation account to pay
29 attorney fees, expert witness fees and other costs associated with litigation
30 in which the school facilities board pursues the recovery of damages for
31 deficiencies correction that resulted from alleged construction defects or
32 design defects that the school facilities board believes caused or
33 contributed to a failure of the school building to conform to the building
34 adequacy requirements prescribed in section 15-2011. Attorney fees paid
35 pursuant to this subsection shall not exceed the market rate for similar
36 types of litigation. On or before December 1 of each year, the school
37 facilities board shall report to the joint committee on capital review the
38 costs associated with current and potential litigation that may be paid from
39 the litigation account.

40 M. Until the state board of education and the auditor general adopt
41 rules pursuant to section 15-213, subsection I, the school facilities board
42 may allow school districts to contract for construction services and
43 materials through the qualified select bidders list method of project
44 delivery for new school facilities pursuant to this section.

1 N. The school facilities board shall submit electronically a report on
2 project management services and preconstruction services to the governor, the
3 president of the senate and the speaker of the house of representatives by
4 December 31 of each year. The report shall compare projects that use project
5 management and preconstruction services with those that do not. The report
6 shall address cost, schedule and other measurable components of a
7 construction project. School districts, construction manager at risk firms
8 and project management firms that participate in a school facilities board
9 funded project shall provide the information required by the school
10 facilities board in relation to this report.

11 O. If a school district constructs new square footage according to
12 section 15-342, paragraph 33, the school facilities board shall review the
13 design plans and location of any new school facility submitted by school
14 districts and another party to determine whether the design plans comply with
15 the adequacy standards prescribed in section 15-2011 and the square footage
16 per pupil requirements pursuant to subsection D, paragraph 3, subdivision (b)
17 of this section. When the school district qualifies for a distribution of
18 monies from the new school facilities fund according to this section, the
19 school facilities board shall distribute monies to the school district from
20 the new school facilities fund for the square footage constructed under
21 section 15-342, paragraph 33 at the same cost per square foot established by
22 this section that was in effect at the time of the beginning of the
23 construction of the school facility. Before the school facilities board
24 distributes any monies pursuant to this subsection, the school district shall
25 demonstrate to the school facilities board that the facilities to be funded
26 pursuant to this section meet the minimum adequacy standards prescribed in
27 section 15-2011. The agreement entered into pursuant to section 15-342,
28 paragraph 33 shall set forth the procedures for the allocation of these funds
29 to the parties that participated in the agreement.

30 P. ACCOMMODATION SCHOOLS ARE NOT ELIGIBLE FOR MONIES FROM THE NEW
31 SCHOOL FACILITIES FUND.

32 Sec. 17. Repeal

33 Laws 2011, second special session, chapter 1, section 135, is repealed.

34 Sec. 18. Joint technical education district equalization
35 funding; fiscal year 2013-2014

36 Notwithstanding section 15-393, Arizona Revised Statutes, or any other
37 law, the department of education shall fund state aid for joint technical
38 education districts with a student count of more than two thousand students
39 for fiscal year 2013-2014 at ninety-one per cent of the amount that otherwise
40 would be provided by law.

41 Sec. 19. School facilities board; new construction moratorium

42 A. Notwithstanding sections 15-2011 and 15-2041, Arizona Revised
43 Statutes, as amended by this act, for fiscal year 2013-2014, the school
44 facilities board shall not authorize or award funding for the design or
45 construction of any new school facility and shall not authorize or award

1 funding for school site acquisitions. This subsection does not apply to a
2 facility that is to be constructed for a unified school district that has
3 received final approval from the school facilities board before January 1,
4 2013, that had an average daily membership of fewer than one thousand five
5 hundred pupils in fiscal year 2011-2012 and that is located in a county with
6 a population of fewer than one hundred fifty thousand persons.

7 B. During fiscal year 2013-2014, school districts shall submit capital
8 plans according to section 15-2041, subsection C, Arizona Revised Statutes.
9 The school facilities board may review and award new school facilities as
10 outlined in section 15-2041, Arizona Revised Statutes, subject to future
11 appropriations.

12 C. This section does not apply to lease-to-own transactions entered
13 into by the school facilities board pursuant to Laws 2009, third special
14 session, chapter 12, section 75, as amended by Laws 2010, seventh special
15 session, chapter 8, section 6.

16 D. This section does not prevent the school facilities board from
17 distributing monies for construction projects that began construction before
18 fiscal year 2008-2009.

19 E. It is the intent of the legislature to evaluate long-term funding
20 for new school facilities on review of additional demographic data and other
21 information as submitted by school districts during the capital review
22 process specified in subsection B of this section.

23 Sec. 20. Deposits in the education learning and accountability
24 fund

25 On or before December 31, 2013, each community college district shall
26 transmit six dollars per full-time student equivalent according to the most
27 recent audit and each university under the jurisdiction of the Arizona board
28 of regents shall transmit six dollars per actual university full-time
29 equivalent student to the department of education for deposit in the
30 education learning and accountability fund established by section 15-249.02,
31 Arizona Revised Statutes.

32 Sec. 21. School facilities board; refinancing or refunding
33 agreement

34 A. Notwithstanding section 15-2004, subsection M, section 15-2005,
35 subsection M and section 15-2006, Arizona Revised Statutes, the school
36 facilities board may enter into a refinancing or refunding agreement in
37 fiscal year 2013-2014 that will reduce the school facilities board's fiscal
38 year 2013-2014 and fiscal year 2014-2015 lease-purchase payments by a
39 combined total of at least \$4,000,000 but that will not increase or decrease
40 the total amount of the school facilities board's lease-purchase payments in
41 any other fiscal year by more than \$100,000.

42 B. Before the school facilities board enters into a refinancing or
43 refunding agreement pursuant to subsection A of this section, the agreement's
44 proposed terms shall be submitted for review by the joint committee on
45 capital review.

1 C. The school facilities board shall revert any unexpended monies
2 appropriated to the new school facilities debt service special line item in
3 fiscal year 2013-2014 to the state general fund on or before June 30, 2014.

4 Sec. 22. Limitation on amount of bonded indebtedness; intent

5 A. Notwithstanding section 15-1021, subsection B, Arizona Revised
6 Statutes, from the effective date of this section until July 1, 2016, a
7 school district may issue class B bonds for the purposes specified in section
8 15-1021, Arizona Revised Statutes, and title 15, chapter 4, article 5,
9 Arizona Revised Statutes, to an amount in the aggregate, including the
10 existing class B indebtedness, not exceeding ten per cent of the taxable
11 property used for secondary property tax purposes, as determined pursuant to
12 title 42, chapter 15, article 1, Arizona Revised Statutes, within a school
13 district as ascertained by the last assessment of state and county taxes
14 previous to issuing the bonds, or one thousand five hundred dollars per
15 student count pursuant to section 15-901, subsection A, paragraph 13, Arizona
16 Revised Statutes, whichever amount is greater. A school district shall not
17 issue class B bonds pursuant to this subsection until the proceeds of any
18 class A bonds issued by the school district have been obligated in contract.
19 The total amount of class A and class B bonds issued by a school district
20 shall not exceed the debt limitations prescribed in article IX, section 8,
21 Constitution of Arizona.

22 B. Notwithstanding section 15-1021, subsection D, Arizona Revised
23 Statutes, from the effective date of this section until July 1, 2016, a
24 unified school district as prescribed by article IX, section 8.1,
25 Constitution of Arizona, may issue class B bonds for the purposes specified
26 in section 15-1021, Arizona Revised Statutes, and title 15, chapter 4,
27 article 5, Arizona Revised Statutes, to an amount in the aggregate, including
28 the existing class B indebtedness, not exceeding twenty per cent of the
29 taxable property used for secondary tax purposes, as determined pursuant to
30 title 42, chapter 15, article 1, Arizona Revised Statutes, within a school
31 district as ascertained by the last assessment of state and county taxes
32 previous to issuing the bonds, or one thousand five hundred dollars per
33 student count pursuant to section 15-901, subsection A, paragraph 13, Arizona
34 Revised Statutes, whichever amount is greater. A unified school district
35 shall not issue class B bonds pursuant to this subsection until the proceeds
36 of any class A bonds issued by the unified school district have been
37 obligated in contract. The total amount of class A and class B bonds issued
38 by a unified school district shall not exceed the debt limitations prescribed
