(Reference to House engrossed bill)

1 Strike everything after the enacting clause and insert:

2 "Section 1. Section 48-3609, Arizona Revised Statutes, is amended to
3 read:

4 48-3609. Floodplain delineation; regulation of use; federal
5 requirements and definitions

6 A. Except as provided in section 48-3610, the board within its area of
7 jurisdiction shall delineate or may by rule require developers of land to
8 delineate for areas where development is ongoing or imminent, and thereafter
9 as development becomes imminent, floodplains consistent with the criteria
10 developed by the director of water resources.

11 B. Except as provided in section 48-3610, the board shall adopt and
12 enforce regulations governing floodplains and floodplain management in its
13 area of jurisdiction which shall include the following:

14 1. Regulations for all development of land, construction of
15 residential, commercial or industrial structures or uses of any kind which
16 may divert, retard or obstruct floodwater and threaten public health or
17 safety or the general welfare.

18 2. Regulations which establish minimum flood protection elevations and
19 flood damage prevention requirements for uses, structures and facilities
20 which are vulnerable to flood damage. Regulations adopted under this section
21 shall comply with state and local land use plans and ordinances, if any.

22 3. Regulations which provide for coordination by the district with all
23 other interested and affected political subdivisions and state agencies.

24 4. Regulations that require any residential structure built in a
25 floodplain to be constructed so as to place the lowest floor elevation of the

1 structure at or above the regulatory flood elevation, that require commercial
2 or industrial structures to be flood proofed or elevated to or above the
3 regulatory flood elevation and that prohibit any activity in a designated
4 floodway, including fill, that would increase the water surface elevation
5 during a base flood.

6 5. EXCEPT AS PROVIDED IN SUBSECTION C OF THIS SECTION, regulations to
7 allow a mobile home located in a floodplain on August 3, 1984 to be replaced
8 by another mobile home if:

9 (a) The mobile home to be replaced was not damaged by a flood to more
10 than fifty ~~per cent~~ PERCENT of its value before the flood.

11 (b) The replacement mobile home is elevated so that the bottom of the
12 structural frame or the lowest point of any attached appliances, whichever is
13 lower, is at or above the regulatory flood elevation.

14 6. Regulations that require all new placement of mobile homes to be
15 anchored to prevent flotation, collapse or movement.

16 7. Variance procedures to permit variances from the regulations that
17 do not result in danger or damage to persons or property in floodplains in
18 the area of jurisdiction. Variances may be granted only if special
19 circumstances, such as size, shape, topography, location or surroundings of
20 the property, would cause the strict application of the regulations to
21 deprive the property of privileges enjoyed by similar property in the
22 floodplain. A variance is subject to conditions to ensure that the variance
23 does not constitute a grant of special privileges inconsistent with the
24 limitations on similar property in the floodplain.

25 C. A CITY OR TOWN WITH A POPULATION OF LESS THAN ONE THOUSAND FIVE
26 HUNDRED PERSONS THAT IS LOCATED IN A COUNTY WITH A POPULATION OF LESS THAN
27 SEVENTY THOUSAND PERSONS AND THAT HAS ASSUMED THE POWERS AND DUTIES FOR

30 SECTION A REGULATION THAT ALLOWS A MOBILE HOME THAT QUALIFIES UNDER THIS
31 SUBSECTION TO BE REPLACED WITH A MOBILE HOME THAT EITHER IS ELEVATED SO THAT
32 THE BOTTOM OF THE STRUCTURAL FRAME OR THE LOWEST POINT OF ANY ATTACHED

1 APPLIANCES, WHICHEVER IS LOWER, IS AT OR ABOVE THE BASE FLOOD ELEVATION OR
2 HAS A CHASSIS SUPPORTED BY REINFORCED PIERS OR OTHER FOUNDATION ELEMENTS OF
3 EQUIVALENT STRENGTH THAT ARE NOT LESS THAN THIRTY-SIX INCHES IN HEIGHT ABOVE
4 GRADE AND THAT ARE SECURELY ANCHORED TO AN ADEQUATELY ANCHORED FOUNDATION
5 SYSTEM TO RESIST FLOTATION, COLLAPSE AND LATERAL MOVEMENT. A MOBILE HOME
6 QUALIFIES UNDER THIS SUBSECTION IF BOTH OF THE FOLLOWING APPLY:

7 1. THE MOBILE HOME WAS LOCATED IN A MOBILE HOME PARK OR SUBDIVISION ON
8 AUGUST 3, 1984 OR BEFORE THE EFFECTIVE DATE OF THE CITY'S OR TOWN'S INITIAL
9 FLOODPLAIN MANAGEMENT REGULATIONS, WHICHEVER DATE IS EARLIER.

10 2. NO MOBILE HOME THAT IS LOCATED IN THAT MOBILE HOME PARK OR
11 SUBDIVISION HAS BEEN DAMAGED BY A FLOOD TO MORE THAN FIFTY PERCENT OF ITS
12 VALUE BEFORE THE FLOOD.

13 ~~D.~~ D. Waste disposal systems shall not be installed wholly or
14 partially in a regulatory floodway.

15 ~~E.~~ E. Water supply, water treatment and sewage collection and
16 disposal systems built in a regulatory floodplain shall be designed to
17 prevent or minimize floodwater infiltrating the systems and to prevent or
18 minimize floodwater contamination during the base flood.

19 ~~F.~~ F. Floodplain regulations enacted pursuant to this article may
20 only be adopted after a public hearing at which parties in interest and other
21 citizens have an opportunity to be heard. At least thirty days before the
22 hearing, a notice of the time and place of the hearing shall be published in
23 a newspaper of general circulation within the county or, if no newspaper of
24 general circulation is regularly published, in a newspaper of general
25 circulation nearest the area of jurisdiction. A notice of any hearing
26 accompanied by a copy of each of the proposed regulations shall be furnished
27 to the director at least thirty days before the date of the hearing. A copy

32 commercial or industrial structures or future development within delineated

1 floodplain areas is prohibited unless floodplain regulations have been

5 permit authorizing construction or development if the board finds that
6 construction or development is not a danger to persons or property.

7 ~~H.~~ I. Unless expressly provided, this article and any regulations
8 adopted pursuant to this article do not affect:

9 1. Existing legal uses of property or the right to continuation of
10 such legal use. However, if a nonconforming use of land or a building or

19 result in increasing its flood damage potential by fifty ~~per-cent~~ PERCENT or
20 more shall be either flood proofed or elevated to or above the regulatory
21 flood elevation.

22 3. Reasonable repair of structures constructed with the written
23 authorization required by section 48-3613.

24 4. Facilities constructed or installed pursuant to a certificate of
25 environmental compatibility issued pursuant to title 40, chapter 2,

27 ~~I.~~ J. Within one hundred twenty days after completion of construction
28 of any flood control protective works which changes the rate of flow during
29 the flood or the configuration of the floodplain upstream or downstream from
30 or adjacent to the project, the person or agency responsible for installation
31 of the project shall provide to the governing bodies of all jurisdictions
32 affected by the project a new delineation of all floodplains affected by the

1 project. The new delineation shall be done according to the criteria adopted
2 by the director of water resources.

3 ~~J.~~ K. A flood control district or appropriate public agency which has
4 failed to adopt or enforce floodplain regulations required by this section
5 shall not be eligible for disaster relief identified by section 35-192,
6 subsection D, paragraphs 3 and 5. The director of water resources shall

11 authorization has been issued during business hours or in the case of an
12 emergency, at any time, to enter and inspect any development on real property
13 that is located in a floodplain in order to determine whether an owner is in
14 violation of this chapter. This subsection does not authorize the inspection
15 of any records or files on a site or the interior of any building. A
16 district shall attempt to provide written notice to the owner at least
17 forty-eight hours in advance that the real property is to be inspected and
18 that the owner or the owner's agent may accompany the district inspector on
19 the inspection. A district inspector shall comply with any safety

 - 15 (c) Copies of any analysis performed on samples taken during the
16 inspection.
- 17 6. Inform each person whose conversation with the district inspector
18 or regulator during the inspection is tape recorded that the conversation is

6 shall determine if the regulated person is in substantial compliance and
7 notify the regulated person whether or not the regulated person is in
8 substantial compliance, unless it is not possible due to conditions of normal
9 operations at the premises. If the regulated person fails to correct the
10 deficiencies or the district determines the deficiencies have not been
11 corrected within a reasonable period of time, the district may take any
