36-2907.04, 36-2907.10, 36-2907.11 AND 36-2912, ARIZONA REVISED STATUTES;
REPEALING TITLE 36, CHAPTER 29, ARTICLE 4, ARIZONA REVISED STATUTES; AMENDING
SECTION 36-3408, ARIZONA REVISED STATUTES; AMENDING LAWS 2009, THIRD SPECIAL
SESSION, CHAPTER 3, SECTION 2; MAKING APPROPRIATIONS, REVERSIONS AND
TRANSFERS; RELATING TO HEALTH BUDGET RECONCILIATION.

(TEXT OF BILL BEGINS ON NEXT PAGE)
Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 36-2903, Arizona Revised Statutes, is amended to read:

36-2903. Arizona health care cost containment system; administrator; powers and duties of director and administrator; exemption from attorney general representation; definition

A. The Arizona health care cost containment system is established consisting of contracts with contractors for the provision of hospitalization and medical care coverage to members. Except as specifically required by federal law and by section 36-2909, the system is only responsible for providing care on or after the date that the person has been determined eligible for the system, and is only responsible for reimbursing the cost of care rendered on or after the date that the person was determined eligible for the system.

B. An agreement may be entered into with an independent contractor, subject to title 41, chapter 23, to serve as the statewide administrator of the system. The administrator has full operational responsibility, subject to supervision by the director, for the system, which may include any or all of the following:

1. Development of county-by-county implementation and operation plans for the system that include reasonable access to hospitalization and medical care services for members.

2. Contract administration and oversight of contractors, including certification instead of licensure for title XVIII and title XIX purposes.

3. Provision of technical assistance services to contractors and potential contractors.

4. Development of a complete system of accounts and controls for the system including provisions designed to ensure that covered health and medical services provided through the system are not used unnecessarily or unreasonably including but not limited to inpatient behavioral health services provided in a hospital. Periodically the administrator shall compare the scope, utilization rates, utilization control methods and unit prices of major health and medical services provided in this state in comparison with other states' health care services to identify any unnecessary or unreasonable utilization within the system. The administrator shall periodically assess the cost effectiveness and health implications of alternate approaches to the provision of covered health and medical services through the system in order to reduce unnecessary or unreasonable utilization.

5. Establishment of peer review and utilization review functions for all contractors.

6. Assistance in the formation of medical care consortiums to provide covered health and medical services under the system for a county.
7. Development and management of a contract payment system.
8. Establishment and management of a comprehensive system for assuring the quality of care delivered by the system.
9. Establishment and management of a system to prevent fraud by members, subcontracted providers of care, contractors and noncontracting providers.
10. Coordination of benefits provided under this article to any member.
The administrator may require that contractors and noncontracting providers are responsible for the coordination of benefits for services provided under this article. Requirements for coordination of benefits by noncontracting providers under this section are limited to coordination with standard health insurance and disability insurance policies and similar programs for health coverage.
12. Development and management of an enrollment system.
13. Establishment and maintenance of a claims resolution procedure to ensure that ninety per cent of the clean claims shall be paid within thirty days of receipt and ninety-nine per cent of the remaining clean claims shall be paid within ninety days of receipt. For the purposes of this paragraph, "clean claims" has the same meaning as prescribed in section 36-2904, subsection G.
14. Establishment of standards for the coordination of medical care and patient transfers pursuant to section 36-2909, subsection B.
15. Establishment of a system to implement medical child support requirements, as required by federal law. The administration may enter into an intergovernmental agreement with the department of economic security to implement this paragraph.
17. Establishment of an eligibility process to determine whether a medicare low income subsidy is available to persons who want to apply for a subsidy as authorized by title XVIII.
C. If an agreement is not entered into with an independent contractor to serve as statewide administrator of the system pursuant to subsection B of this section, the director shall ensure that the operational responsibilities set forth in subsection B of this section are fulfilled by the administration and other contractors as necessary.
D. If the director determines that the administrator will fulfill some but not all of the responsibilities set forth in subsection B of this section, the director shall ensure that the remaining responsibilities are fulfilled by the administration and other contractors as necessary.
E. The administrator or any direct or indirect subsidiary of the administrator is not eligible to serve as a contractor.
F. Except for reinsurance obtained by contractors, the administrator shall coordinate benefits provided under this article to any eligible person.
who is covered by workers' compensation, disability insurance, a hospital and
medical service corporation, a health care services organization, an
accountable health plan or any other health or medical or disability
insurance plan including coverage made available to persons defined as
eligible by section 36-2901, paragraph 6, subdivisions (b), (c), (d) and (e),
or who receives payments for accident-related injuries, so that any costs for
hospitalization and medical care paid by the system are recovered from any
other available third party payors. The administrator may require that
contractors and noncontracting providers are responsible for the coordination
of benefits for services provided under this article. Requirements for
coordination of benefits by noncontracting providers under this section are
limited to coordination with standard health insurance and disability
insurance policies and similar programs for health coverage. The system
shall act as payor of last resort for persons eligible pursuant to section
36-2901, paragraph 6, subdivision (a) or section 36-2974 or section
36-2981, paragraph 6 unless specifically prohibited by federal law. By
operation of law, eligible persons assign to the system and a county rights
to all types of medical benefits to which the person is entitled, including
first party medical benefits under automobile insurance policies based on the
order of priorities established pursuant to section 36-2915. The state has a
right to subrogation against any other person or firm to enforce the
assignment of medical benefits. The provisions of this subsection are
controlling over the provisions of any insurance policy that provides
benefits to an eligible person if the policy is inconsistent with the
provisions of this subsection.

G. Notwithstanding subsection E of this section, the administrator may
subcontract distinct administrative functions to one or more persons who may
be contractors within the system.

H. The director shall require as a condition of a contract with any
contractor that all records relating to contract compliance are available for
inspection by the administrator and the director subject to subsection I of
this section and that such records be maintained by the contractor for five
years. The director shall also require that these records be made available
by a contractor on request of the secretary of the United States department
of health and human services, or its successor agency.

I. Subject to existing law relating to privilege and protection, the
director shall prescribe by rule the types of information that are
confidential and circumstances under which such information may be used or
released, including requirements for physician-patient confidentiality.
Notwithstanding any other provision of law, such rules shall be designed to
provide for the exchange of necessary information among the counties, the
administration and the department of economic security for the purposes of
eligibility determination under this article. Notwithstanding any law to the
contrary, a member's medical record shall be released without the member's
consent in situations or suspected cases of fraud or abuse relating to the
system to an officer of the state's certified Arizona health care cost
containment system fraud control unit who has submitted a written request for
the medical record.

J. The director shall prescribe rules that specify methods for:

1. The transition of members between system contractors and
noncontracting providers.

2. The transfer of members and persons who have been determined
eligible from hospitals that do not have contracts to care for such persons.

K. The director shall adopt rules that set forth procedures and
standards for use by the system in requesting county long-term care for
members or persons determined eligible.

L. To the extent that services are furnished pursuant to this article,
and unless otherwise required pursuant to this chapter, a contractor is not
subject to the provisions of title 20.

M. As a condition of the contract with any contractor, the director
shall require contract terms as necessary in the judgment of the director to
ensure adequate performance and compliance with all applicable federal laws
by the contractor of the provisions of each contract executed pursuant to
this chapter. Contract provisions required by the director shall include at
a minimum the maintenance of deposits, performance bonds, financial reserves
or other financial security. The director may waive requirements for the
posting of bonds or security for contractors that have posted other security,
equal to or greater than that required by the system, with a state agency for
the performance of health service contracts if funds would be available from
such security for the system on default by the contractor. The director may
also adopt rules for the withholding or forfeiture of payments to be made to
a contractor by the system for the failure of the contractor to comply with a
provision of the contractor's contract with the system or with the adopted
rules. The director may also require contract terms allowing the
administration to operate a contractor directly under circumstances specified
in the contract. The administration shall operate the contractor only as
long as it is necessary to assure delivery of uninterrupted care to members
enrolled with the contractor and accomplish the orderly transition of those
members to other system contractors, or until the contractor reorganizes or
otherwise corrects the contract performance failure. The administration
shall not operate a contractor unless, before that action, the administration
delivers notice to the contractor and provides an opportunity for a hearing
in accordance with procedures established by the director. Notwithstanding
the provisions of a contract, if the administration finds that the public
health, safety or welfare requires emergency action, it may operate as the
contractor on notice to the contractor and pending an administrative hearing,
which it shall promptly institute.
N. The administration for the sole purpose of matters concerning and directly related to the Arizona health care cost containment system and the Arizona long-term care system is exempt from section 41-192.

O. Notwithstanding subsection F of this section, if the administration determines that according to federal guidelines it is more cost-effective for a person defined as eligible under section 36-2901, paragraph 6, subdivision (a) to be enrolled in a group health insurance plan in which the person is entitled to be enrolled, the administration may pay all of that person's premiums, deductibles, coinsurance and other cost sharing obligations for services covered under section 36-2907. The person shall apply for enrollment in the group health insurance plan as a condition of eligibility under section 36-2901, paragraph 6, subdivision (a).

P. The total amount of state monies that may be spent in any fiscal year by the administration for health care shall not exceed the amount appropriated or authorized by section 35-173 for all health care purposes. This article does not impose a duty on an officer, agent or employee of this state to discharge a responsibility or to create any right in a person or group if the discharge or right would require an expenditure of state monies in excess of the expenditure authorized by legislative appropriation for that specific purpose.

Q. Notwithstanding section 36-470, a contractor or program contractor may receive laboratory tests from a laboratory or hospital-based laboratory for a system member enrolled with the contractor or program contractor subject to all of the following requirements:

1. The contractor or program contractor shall provide a written request to the laboratory in a format mutually agreed to by the laboratory and the requesting health plan or program contractor. The request shall include the member's name, the member's plan identification number, the specific test results that are being requested and the time periods and the quality improvement activity that prompted the request.

2. The laboratory data may be provided in written or electronic format based on the agreement between the laboratory and the contractor or program contractor. If there is no contract between the laboratory and the contractor or program contractor, the laboratory shall provide the requested data in a format agreed to by the noncontracted laboratory.

3. The laboratory test results provided to the member's contractor or program contractor shall only be used for quality improvement activities authorized by the administration and health care outcome studies required by the administration. The contractors and program contractors shall maintain strict confidentiality about the test results and identity of the member as specified in contractual arrangements with the administration and pursuant to state and federal law.

4. The administration, after collaboration with the department of health services regarding quality improvement activities, may prohibit the
contractors and program contractors from receiving certain test results if
the administration determines that a serious potential exists that the
results may be used for purposes other than those intended for the quality
improvement activities. The department of health services shall consult with
the clinical laboratory licensure advisory committee established by section
36-465 before providing recommendations to the administration on certain test
results and quality improvement activities.

5. The administration shall provide contracted laboratories and the
department of health services with an annual report listing the quality
improvement activities that will require laboratory data. The report shall
be updated and distributed to the contracting laboratories and the department
of health services when laboratory data is needed for new quality improvement
activities.

6. A laboratory that complies with a request from the contractor or
program contractor for laboratory results pursuant to this section is not
subject to civil liability for providing the data to the contractor or
program contractor. The administration, the contractor or a program
contractor that uses data for reasons other than quality improvement
activities is subject to civil liability for this improper use.

R. For the purposes of this section, "quality improvement activities"
means those requirements, including health care outcome studies specified in
federal law or required by the centers for medicare and medicaid services or
the administration, to improve health care outcomes.

Sec. 2. Section 36-2903.01, Arizona Revised Statutes, is amended to
read:

36-2903.01. Additional powers and duties; report
A. The director of the Arizona health care cost containment system
administration may adopt rules that provide that the system may withhold or
forfeit payments to be made to a noncontracting provider by the system if the
noncontracting provider fails to comply with this article, the provider
agreement or rules that are adopted pursuant to this article and that relate
to the specific services rendered for which a claim for payment is made.

B. The director shall:
1. Prescribe uniform forms to be used by all contractors. The rules
shall require a written and signed application by the applicant or an
applicant's authorized representative, or, if the person is incompetent or
incapacitated, a family member or a person acting responsibly for the
applicant may obtain a signature or a reasonable facsimile and file the
application as prescribed by the administration.

2. Enter into an interagency agreement with the department to
establish a streamlined eligibility process to determine the eligibility of
all persons defined pursuant to section 36-2901, paragraph 6,
subdivision (a). At the administration's option, the interagency agreement
may allow the administration to determine the eligibility of certain persons,
3. Enter into an intergovernmental agreement with the department to:
   (a) Establish an expedited eligibility and enrollment process for all persons who are hospitalized at the time of application.
   (b) Establish performance measures and incentives for the department.
   (c) Establish the process for management evaluation reviews that the administration shall perform to evaluate the eligibility determination functions performed by the department.
   (d) Establish eligibility quality control reviews by the administration.
   (e) Require the department to adopt rules, consistent with the rules adopted by the administration for a hearing process, that applicants or members may use for appeals of eligibility determinations or redeterminations.
   (f) Establish the department's responsibility to place sufficient eligibility workers at federally qualified health centers to screen for eligibility and at hospital sites and Level One trauma centers to ensure that persons seeking hospital services are screened on a timely basis for eligibility for the system, including a process to ensure that applications for the system can be accepted on a twenty-four hour basis, seven days a week.
   (g) Withhold payments based on the allowable sanctions for errors in eligibility determinations or redeterminations or failure to meet performance measures required by the intergovernmental agreement.
   (h) Recoup from the department all federal fiscal sanctions that result from the department's inaccurate eligibility determinations. The director may offset all or part of a sanction if the department submits a corrective action plan and a strategy to remedy the error.

4. By rule establish a procedure and time frames for the intake of grievances and requests for hearings, for the continuation of benefits and services during the appeal process and for a grievance process at the contractor level. Notwithstanding sections 41-1092.02, 41-1092.03 and 41-1092.05, the administration shall develop rules to establish the procedure and time frame for the informal resolution of grievances and appeals. A grievance that is not related to a claim for payment of system covered services shall be filed in writing with and received by the administration or the prepaid capitated provider or program contractor not later than sixty days after the date of the adverse action, decision or policy implementation being grieved. A grievance that is related to a claim for payment of system covered services must be filed in writing and received by the administration or the prepaid capitated provider or program contractor within twelve months after the date of service, within twelve months after the date that eligibility is posted or within sixty days after the date of the denial of a
timely claim submission, whichever is later. A grievance for the denial of a
claim for reimbursement of services may contest the validity of any adverse
action, decision, policy implementation or rule that related to or resulted
in the full or partial denial of the claim. A policy implementation may be
subject to a grievance procedure, but it may not be appealed for a hearing.
The administration is not required to participate in a mandatory settlement
conference if it is not a real party in interest. In any proceeding before
the administration, including a grievance or hearing, persons may represent
themselves or be represented by a duly authorized agent who is not charging a
fee. A legal entity may be represented by an officer, partner or employee
who is specifically authorized by the legal entity to represent it in the
particular proceeding.

5. Apply for and accept federal funds available under title XIX of the
social security act (P.L. 89-97; 79 Stat. 344; 42 United States Code section
1396 (1980)) in support of the system. The application made by the director
pursuant to this paragraph shall be designed to qualify for federal funding
primarily on a prepaid capitated basis. Such funds may be used only for the
support of persons defined as eligible pursuant to title XIX of the social
security act or the approved section 1115 waiver.

6. At least thirty days before the implementation of a policy or a
change to an existing policy relating to reimbursement, provide notice to
interested parties. Parties interested in receiving notification of policy
changes shall submit a written request for notification to the
administration.

7. In addition to the cost sharing requirements specified in
subsection D, paragraph 4 of this section:
   (a) Charge monthly premiums up to the maximum amount allowed by
   federal law to all populations of eligible persons who may be charged.
   (b) Implement this paragraph to the extent permitted under the federal
deficit reduction act of 2005 and other federal laws, subject to the approval
of federal waiver authority and to the extent that any changes in the cost
sharing requirements under this paragraph would permit this state to receive
any enhanced federal matching rate.

C. The director is authorized to apply for any federal funds available
for the support of programs to investigate and prosecute violations arising
from the administration and operation of the system. Available state funds
appropriated for the administration and operation of the system may be used
as matching funds to secure federal funds pursuant to this subsection.

D. The director may adopt rules or procedures to do the following:
   1. Authorize advance payments based on estimated liability to a
contractor or a noncontracting provider after the contractor or
noncontracting provider has submitted a claim for services and before the
claim is ultimately resolved. The rules shall specify that any advance
payment shall be conditioned on the execution before payment of a contract
with the contractor or noncontracting provider that requires the administration to retain a specified percentage, which shall be at least twenty per cent, of the claimed amount as security and that requires repayment to the administration if the administration makes any overpayment.

2. Defer liability, in whole or in part, of contractors for care provided to members who are hospitalized on the date of enrollment or under other circumstances. Payment shall be on a capped fee-for-service basis for services other than hospital services and at the rate established pursuant to subsection G or H of this section for hospital services or at the rate paid by the health plan, whichever is less.

3. Deputize, in writing, any qualified officer or employee in the administration to perform any act that the director by law is empowered to do or charged with the responsibility of doing, including the authority to issue final administrative decisions pursuant to section 41-1092.08.

4. Notwithstanding any other law, require persons eligible pursuant to section 36-2901, paragraph 6, subdivision (a) OR section 36-2931, paragraph 5 and section 36-2981, paragraph 6 to be financially responsible for any cost sharing requirements established in a state plan or a section 1115 waiver and approved by the centers for medicare and medicaid services. Cost sharing requirements may include copayments, coinsurance, deductibles, enrollment fees and monthly premiums for enrolled members, including households with children enrolled in the Arizona long-term care system.

E. The director shall adopt rules that further specify the medical care and hospital services that are covered by the system pursuant to section 36-2907.

F. In addition to the rules otherwise specified in this article, the director may adopt necessary rules pursuant to title 41, chapter 6 to carry out this article. Rules adopted by the director pursuant to this subsection shall consider the differences between rural and urban conditions on the delivery of hospitalization and medical care.

G. For inpatient hospital admissions and all outpatient hospital services before March 1, 1993, the administration shall reimburse a hospital's adjusted billed charges according to the following procedures:

1. The director shall adopt rules that, for services rendered from and after September 30, 1985 until October 1, 1986, define "adjusted billed charges" as that reimbursement level that has the effect of holding constant whichever of the following is applicable:

(a) The schedule of rates and charges for a hospital in effect on April 1, 1984 as filed pursuant to chapter 4, article 3 of this title.

(b) The schedule of rates and charges for a hospital that became effective after May 31, 1984 but before July 2, 1984, if the hospital's previous rate schedule became effective before April 30, 1983.

(c) The schedule of rates and charges for a hospital that became effective after May 31, 1984 but before July 2, 1984, limited to five per
cent over the hospital's previous rate schedule, and if the hospital's
previous rate schedule became effective on or after April 30, 1983 but before
October 1, 1983. For the purposes of this paragraph, "constant" means equal
to or lower than.

2. The director shall adopt rules that, for services rendered from and
after September 30, 1986, define "adjusted billed charges" as that
reimbursement level that has the effect of increasing by four per cent a
hospital's reimbursement level in effect on October 1, 1985 as prescribed in
paragraph 1 of this subsection. Beginning January 1, 1991, the Arizona
health care cost containment system administration shall define "adjusted
billed charges" as the reimbursement level determined pursuant to this
section, increased by two and one-half per cent.

3. In no event shall a hospital's adjusted billed charges exceed the
hospital's schedule of rates and charges filed with the department of health
services and in effect pursuant to chapter 4, article 3 of this title.

4. For services rendered the administration shall not pay a hospital's
adjusted billed charges in excess of the following:

(a) If the hospital's bill is paid within thirty days of the date the
    bill was received, eighty-five per cent of the adjusted billed charges.

(b) If the hospital's bill is paid any time after thirty days but
    within sixty days of the date the bill was received, ninety-five per cent of
    the adjusted billed charges.

(c) If the hospital's bill is paid any time after sixty days of the
    date the bill was received, one hundred per cent of the adjusted billed
    charges.

5. The director shall define by rule the method of determining when a
hospital bill will be considered received and when a hospital's billed
charges will be considered paid. Payment received by a hospital from the
administration pursuant to this subsection or from a contractor either by
contract or pursuant to section 36-2904, subsection I shall be considered
payment of the hospital bill in full, except that a hospital may collect any
unpaid portion of its bill from other third party payors or in situations
covered by title 33, chapter 7, article 3.

H. For inpatient hospital admissions and outpatient hospital services
on and after March 1, 1993 the administration shall adopt rules for the
reimbursement of hospitals according to the following procedures:

1. For inpatient hospital stays, the administration shall use a
   prospective tiered per diem methodology, using hospital peer groups if
   analysis shows that cost differences can be attributed to independently
definable features that hospitals within a peer group share. In peer
grouping the administration may consider such factors as length of stay
differences and labor market variations. If there are no cost differences,
the administration shall implement a stop loss-stop gain or similar
mechanism. Any stop loss-stop gain or similar mechanism shall ensure that
the tiered per diem rates assigned to a hospital do not represent less than
ninety per cent of its 1990 base year costs or more than one hundred ten per
cent of its 1990 base year costs, adjusted by an audit factor, during the
period of March 1, 1993 through September 30, 1994. The tiered per diem
rates set for hospitals shall represent no less than eighty-seven and
one-half per cent or more than one hundred twelve and one-half per cent of
its 1990 base year costs, adjusted by an audit factor, from October 1, 1994
through September 30, 1995 and no less than eighty-five per cent or more than
one hundred fifteen per cent of its 1990 base year costs, adjusted by an
audit factor, from October 1, 1995 through September 30, 1996. For the
periods after September 30, 1996 no stop loss-stop gain or similar mechanisms
shall be in effect. An adjustment in the stop loss-stop gain percentage may
be made to ensure that total payments do not increase as a result of this
provision. If peer groups are used the administration shall establish
initial peer group designations for each hospital before implementation of
the per diem system. The administration may also use a negotiated rate
methodology. The tiered per diem methodology may include separate
consideration for specialty hospitals that limit their provision of services
to specific patient populations, such as rehabilitative patients or children.
The initial per diem rates shall be based on hospital claims and encounter
data for dates of service November 1, 1990 through October 31, 1991 and
processed through May of 1992.

2. For rates effective on October 1, 1994, and annually thereafter,
the administration shall adjust tiered per diem payments for inpatient
hospital care by the data resources incorporated market basket index for
prospective payment system hospitals. For rates effective beginning on
October 1, 1999, the administration shall adjust payments to reflect changes
in length of stay for the maternity and nursery tiers.

3. Through June 30, 2004, for outpatient hospital services, the
administration shall reimburse a hospital by applying a hospital specific
outpatient cost-to-charge ratio to the covered charges. Beginning on July 1,
2004 through June 30, 2005, the administration shall reimburse a hospital by
applying a hospital specific outpatient cost-to-charge ratio to covered
charges. If the hospital increases its charges for outpatient services filed
with the Arizona department of health services pursuant to chapter 4, article
3 of this title, by more than 4.7 per cent for dates of service effective on
or after July 1, 2004, the hospital specific cost-to-charge ratio will be
reduced by the amount that it exceeds 4.7 per cent. If charges exceed 4.7
per cent, the effective date of the increased charges will be the effective
date of the adjusted Arizona health care cost containment system
cost-to-charge ratio. The administration shall develop the methodology for a
capped fee-for-service schedule and a statewide cost-to-charge ratio. Any
covered outpatient service not included in the capped fee-for-service
schedule shall be reimbursed by applying the statewide cost-to-charge ratio
that is based on the services not included in the capped fee-for-service schedule. Beginning on July 1, 2005, the administration shall reimburse clean claims with dates of service on or after July 1, 2005, based on the capped fee-for-service schedule or the statewide cost-to-charge ratio established pursuant to this paragraph. The administration may make additional adjustments to the outpatient hospital rates established pursuant to this section based on other factors, including the number of beds in the hospital, specialty services available to patients and the geographic location of the hospital.

4. Except if submitted under an electronic claims submission system, a hospital bill is considered received for purposes of this paragraph on initial receipt of the legible, error-free claim form by the administration if the claim includes the following error-free documentation in legible form:
   (a) An admission face sheet.
   (b) An itemized statement.
   (c) An admission history and physical.
   (d) A discharge summary or an interim summary if the claim is split.
   (e) An emergency record, if admission was through the emergency room.
   (f) Operative reports, if applicable.
   (g) A labor and delivery room report, if applicable.

Payment received by a hospital from the administration pursuant to this subsection or from a contractor either by contract or pursuant to section 36-2904, subsection I is considered payment by the administration or the contractor of the administration's or contractor's liability for the hospital bill. A hospital may collect any unpaid portion of its bill from other third party payors or in situations covered by title 33, chapter 7, article 3.

5. For services rendered on and after October 1, 1997, the administration shall pay a hospital's rate established according to this section subject to the following:
   (a) If the hospital's bill is paid within thirty days of the date the bill was received, the administration shall pay ninety-nine per cent of the rate.
   (b) If the hospital's bill is paid after thirty days but within sixty days of the date the bill was received, the administration shall pay one hundred per cent of the rate.
   (c) If the hospital's bill is paid any time after sixty days of the date the bill was received, the administration shall pay one hundred per cent of the rate plus a fee of one per cent per month for each month or portion of a month following the sixtieth day of receipt of the bill until the date of payment.

6. In developing the reimbursement methodology, if a review of the reports filed by a hospital pursuant to section 36-125.04 indicates that further investigation is considered necessary to verify the accuracy of the information in the reports, the administration may examine the hospital's
records and accounts related to the reporting requirements of section 36-125.04. The administration shall bear the cost incurred in connection with this examination unless the administration finds that the records examined are significantly deficient or incorrect, in which case the administration may charge the cost of the investigation to the hospital examined.

7. Except for privileged medical information, the administration shall make available for public inspection the cost and charge data and the calculations used by the administration to determine payments under the tiered per diem system, provided that individual hospitals are not identified by name. The administration shall make the data and calculations available for public inspection during regular business hours and shall provide copies of the data and calculations to individuals requesting such copies within thirty days of receipt of a written request. The administration may charge a reasonable fee for the provision of the data or information.

8. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the prospective payment of inpatient hospital capital related costs. The capital payment shall include hospital specific and statewide average amounts. For tiered per diem rates beginning on October 1, 1999, the capital related cost component is frozen at the blended rate of forty per cent of the hospital specific capital cost and sixty per cent of the statewide average capital cost in effect as of January 1, 1999 and as further adjusted by the calculation of tier rates for maternity and nursery as prescribed by law. The administration shall adjust the capital related cost component by the data resources incorporated market basket index for prospective payment system hospitals.

9. For graduate medical education programs:
   (a) Beginning September 30, 1997, the administration shall establish a separate graduate medical education program to reimburse hospitals that had graduate medical education programs that were approved by the administration as of October 1, 1999. The administration shall separately account for monies for the graduate medical education program based on the total reimbursement for graduate medical education reimbursed to hospitals by the system in federal fiscal year 1995-1996 pursuant to the tiered per diem methodology specified in this section. The graduate medical education program reimbursement shall be adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Subject to legislative appropriation, on an annual basis, each qualified hospital shall receive a single payment from the graduate medical education program that is equal to the same percentage of graduate medical education reimbursement that was paid by the system in federal fiscal year 1995-1996. Any reimbursement for graduate medical education made by the administration shall not be subject to future settlements or appeals by the hospitals to the administration. The monies
available under this subdivision shall not exceed the fiscal year 2005-2006 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement, except for monies distributed for expansions pursuant to subdivision (b) of this paragraph.

(b) The monies available for graduate medical education programs pursuant to this subdivision shall not exceed the fiscal year 2006-2007 appropriation adjusted annually by the increase or decrease in the index published by the global insight hospital market basket index for prospective hospital reimbursement. Graduate medical education programs eligible for such reimbursement are not precluded from receiving reimbursement for funding under subdivision (c) of this paragraph. Beginning July 1, 2006, the administration shall distribute any monies appropriated for graduate medical education above the amount prescribed in subdivision (a) of this paragraph in the following order or priority:

(i) For the direct costs to support the expansion of graduate medical education programs established before July 1, 2006 at hospitals that do not receive payments pursuant to subdivision (a) of this paragraph. These programs must be approved by the administration.

(ii) For the direct costs to support the expansion of graduate medical education programs established on or before October 1, 1999. These programs must be approved by the administration.

(c) The administration shall distribute to hospitals any monies appropriated for graduate medical education above the amount prescribed in subdivisions (a) and (b) of this paragraph for the following purposes:

(i) For the direct costs of graduate medical education programs established or expanded on or after July 1, 2006. These programs must be approved by the administration.

(ii) For a portion of additional indirect graduate medical education costs for programs that are located in a county with a population of less than five hundred thousand persons at the time the residency position was created or for a residency position that includes a rotation in a county with a population of less than five hundred thousand persons at the time the residency position was established. These programs must be approved by the administration.

(d) The administration shall develop, by rule, the formula by which the monies are distributed.

(e) Each graduate medical education program that receives funding pursuant to subdivision (b) or (c) of this paragraph shall identify and report to the administration the number of new residency positions created by the funding provided in this paragraph, including positions in rural areas. The program shall also report information related to the number of funded residency positions that resulted in physicians locating their practice in this state. The administration shall report to the joint legislative budget
committee by February 1 of each year on the number of new residency positions as reported by the graduate medical education programs.

(f) Beginning July 1, 2007, local, county and tribal governments may provide monies in addition to any state general fund monies appropriated for graduate medical education in order to qualify for additional matching federal monies for programs or positions in a specific locality and costs incurred pursuant to a specific contract between the administration and providers or other entities to provide graduate medical education services as an administrative activity. These programs, positions and administrative graduate medical education services must be approved by the administration and the centers for medicare and medicaid services. The administration shall report to the president of the senate, the speaker of the house of representatives and the director of the joint legislative budget committee on or before July 1 of each year on the amount of money contributed and number of residency positions funded by local, county and tribal governments, including the amount of federal matching monies used.

(g) Any funds appropriated but not allocated by the administration for subdivision (b) or (c) of this paragraph may be reallocated if funding for either subdivision is insufficient to cover appropriate graduate medical education costs.

(h) For the purposes of this paragraph, "graduate medical education program" means a program, including an approved fellowship, that prepares a physician for the independent practice of medicine by providing didactic and clinical education in a medical discipline to a medical student who has completed a recognized undergraduate medical education program.

10. The prospective tiered per diem payment methodology for inpatient hospital services shall include a mechanism for the payment of claims with extraordinary operating costs per day. For tiered per diem rates effective beginning on October 1, 1999, outlier cost thresholds are frozen at the levels in effect on January 1, 1999 and adjusted annually by the administration by the global insight hospital market basket index for prospective payment system hospitals. Beginning with dates of service on or after October 1, 2007, the administration shall phase in the use of the most recent statewide urban and statewide rural average medicare cost-to-charge ratios or centers for medicare and medicaid services approved cost-to-charge ratios to qualify and pay extraordinary operating costs. Cost-to-charge ratios shall be updated annually. Routine maternity charges are not eligible for outlier reimbursement. The administration shall complete full implementation of the phase-in on or before October 1, 2009.

11. Notwithstanding section 41-1005, subsection A, paragraph 9, the administration shall adopt rules pursuant to title 41, chapter 6 establishing the methodology for determining the prospective tiered per diem payments.

I. The director may adopt rules that specify enrollment procedures, including notice to contractors of enrollment. The rules may provide for
varying time limits for enrollment in different situations. The administration shall specify in contract when a person who has been determined eligible will be enrolled with that contractor and the date on which the contractor will be financially responsible for health and medical services to the person.

J. The administration may make direct payments to hospitals for hospitalization and medical care provided to a member in accordance with this article and rules. The director may adopt rules to establish the procedures by which the administration shall pay hospitals pursuant to this subsection if a contractor fails to make timely payment to a hospital. Such payment shall be at a level determined pursuant to section 36-2904, subsection H or I. The director may withhold payment due to a contractor in the amount of any payment made directly to a hospital by the administration on behalf of a contractor pursuant to this subsection.

K. The director shall establish a special unit within the administration for the purpose of monitoring the third party payment collections required by contractors and noncontracting providers pursuant to section 36-2903, subsection B, paragraph 10 and subsection F and section 36-2915, subsection E. The director shall determine by rule:

1. The type of third party payments to be monitored pursuant to this subsection.
2. The percentage of third party payments that is collected by a contractor or noncontracting provider and that the contractor or noncontracting provider may keep and the percentage of such payments that the contractor or noncontracting provider may be required to pay to the administration. Contractors and noncontracting providers must pay to the administration one hundred per cent of all third party payments that are collected and that duplicate administration fee-for-service payments. A contractor that contracts with the administration pursuant to section 36-2904, subsection A may be entitled to retain a percentage of third party payments if the payments collected and retained by a contractor are reflected in reduced capitation rates. A contractor may be required to pay the administration a percentage of third party payments that are collected by a contractor and that are not reflected in reduced capitation rates.

L. The administration shall establish procedures to apply to the following if a provider that has a contract with a contractor or noncontracting provider seeks to collect from an individual or financially responsible relative or representative a claim that exceeds the amount that is reimbursed or should be reimbursed by the system:

1. On written notice from the administration or oral or written notice from a member that a claim for covered services may be in violation of this section, the provider that has a contract with a contractor or noncontracting provider shall investigate the inquiry and verify whether the person was eligible for services at the time that covered services were provided. If
the claim was paid or should have been paid by the system, the provider that
has a contract with a contractor or noncontracting provider shall not
continue billing the member.
2. If the claim was paid or should have been paid by the system and
the disputed claim has been referred for collection to a collection agency or
referred to a credit reporting bureau, the provider that has a contract with
a contractor or noncontracting provider shall:
   (a) Notify the collection agency and request that all attempts to
collect this specific charge be terminated immediately.
   (b) Advise all credit reporting bureaus that the reported delinquency
was in error and request that the affected credit report be corrected to
remove any notation about this specific delinquency.
   (c) Notify the administration and the member that the request for
payment was in error and that the collection agency and credit reporting
bureaus have been notified.
3. If the administration determines that a provider that has a
contract with a contractor or noncontracting provider has billed a member for
charges that were paid or should have been paid by the administration, the
administration shall send written notification by certified mail or other
service with proof of delivery to the provider that has a contract with a
contractor or noncontracting provider stating that this billing is in
violation of federal and state law. If, twenty-one days or more after
receiving the notification, a provider that has a contract with a contractor
or noncontracting provider knowingly continues billing a member for charges
that were paid or should have been paid by the system, the administration may
assess a civil penalty in an amount equal to three times the amount of the
billing and reduce payment to the provider that has a contract with a
contractor or noncontracting provider accordingly. Receipt of delivery
signed by the addressee or the addressee’s employee is prima facie evidence
of knowledge. Civil penalties collected pursuant to this subsection shall be
deposited in the state general fund. Section 36-2918, subsections C, D and
F, relating to the imposition, collection and enforcement of civil penalties,
apply to civil penalties imposed pursuant to this paragraph.
M. The administration may conduct postpayment review of all claims
paid by the administration and may recoup any monies erroneously paid. The
director may adopt rules that specify procedures for conducting postpayment
review. A contractor may conduct a postpayment review of all claims paid by
the contractor and may recoup monies that are erroneously paid.
N. The director or the director’s designee may employ and supervise
personnel necessary to assist the director in performing the functions of the
administration.
O. The administration may contract with contractors for obstetrical
care who are eligible to provide services under title XIX of the social
security act.
P. Notwithstanding any other law, on federal approval the administration may make disproportionate share payments to private hospitals, county operated hospitals, including hospitals owned or leased by a special health care district, and state operated institutions for mental disease beginning October 1, 1991 in accordance with federal law and subject to legislative appropriation. If at any time the administration receives written notification from federal authorities of any change or difference in the actual or estimated amount of federal funds available for disproportionate share payments from the amount reflected in the legislative appropriation for such purposes, the administration shall provide written notification of such change or difference to the president and the minority leader of the senate, the speaker and the minority leader of the house of representatives, the director of the joint legislative budget committee, the legislative committee of reference and any hospital trade association within this state, within three working days not including weekends after receipt of the notice of the change or difference. In calculating disproportionate share payments as prescribed in this section, the administration may use either a methodology based on claims and encounter data that is submitted to the administration from contractors or a methodology based on data that is reported to the administration by private hospitals and state operated institutions for mental disease. The selected methodology applies to all private hospitals and state operated institutions for mental disease qualifying for disproportionate share payments.

Q. Notwithstanding any law to the contrary, the administration may receive confidential adoption information to determine whether an adopted child should be terminated from the system.

R. The adoption agency or the adoption attorney shall notify the administration within thirty days after an eligible person receiving services has placed that person's child for adoption.

S. If the administration implements an electronic claims submission system, it may adopt procedures pursuant to subsection H of this section requiring documentation different than prescribed under subsection H, paragraph 4 of this section.

Sec. 3. Section 36-2905, Arizona Revised Statutes, is amended to read:

36-2905. Removal of medicaid special exemption for payments to contractors; civil penalty

A. Notwithstanding any other law, beginning on October 1, 2003, each contractor shall pay to the director of the department of insurance a tax equal to two per cent of the total capitation, including reinsurance, and any other reimbursement paid to the contractor by the administration for persons eligible pursuant to section 36-2901, paragraph 6, subdivisions (a) and (g) and article 4 of this chapter. The tax shall be paid in four payments pursuant to subsection C of this section and deposited in the state general fund pursuant to sections 35-146 and 35-147.
B. The contractor shall not deduct any disallowance or penalty imposed by the administration pursuant to this chapter from the financial information submitted to the director of the department of insurance.

C. Each contractor shall file the estimated tax and documentation with the director of the department of insurance on a form prescribed by the director of the department of insurance to pay the estimated tax. A contractor shall make estimated tax payments to the director of the department of insurance for deposit in the state general fund pursuant to sections 35-146 and 35-147. The tax payments are due on or before September 15, December 15, March 15 and June 15 of each year. The amount of the payments shall be an estimate of the tax due for the quarter that ends in the month that payment is due.

D. On or before April 1, 2004 and annually on or before April 1 thereafter, the director of the department of insurance shall use data provided by the administration to reconcile the amount paid by each contractor pursuant to this section with the actual amount of title XIX and title XXI reimbursement made by the administration to the contractor in the preceding calendar year. If there is a discrepancy in the two amounts, the director of the department of insurance shall notify the contractor of the difference, provide a notice of right of appeal and bill the contractor for the unpaid amount of the premium tax or, if there is an overpayment, the director of the department of insurance shall either refund the amount of the overpayment to the contractor or issue a credit for the amount of the overpayment that the contractor can apply against future tax obligations prescribed by this section.

E. A contractor who fails to file an estimated payment or pay an unpaid premium tax as prescribed by this section is subject to a civil penalty equal to the greater of twenty-five dollars or five per cent of the amount due and is subject to interest on the amount due at the rate of one per cent per month from the date the amount was due.

Sec. 4. Section 36-2905.08, Arizona Revised Statutes, is amended to read:

36-2905.08. Nicotine replacement therapies; tobacco use medications

A. Notwithstanding section 36-2989, for contract years beginning October 1, 2008, the administration may expend monies to provide nicotine replacement therapies and tobacco use medications to members eligible pursuant to this article or article 2 or 3 of this chapter.

B. The administration shall not use monies from the state general fund for the purposes of this section.
Sec. 5. Section 36-2907, Arizona Revised Statutes, is amended to read:

36-2907. Covered health and medical services; modifications; related delivery of service requirements

A. Unless modified pursuant to this section SUBJECT TO THE LIMITATIONS AND EXCLUSIONS SPECIFIED IN THIS SECTION, contractors shall provide the following medically necessary health and medical services:

1. Inpatient hospital services that are ordinarily furnished by a hospital for the care and treatment of inpatients and that are provided under the direction of a physician or a primary care practitioner. For the purposes of this section, inpatient hospital services exclude services in an institution for tuberculosis or mental diseases unless authorized under an approved section 1115 waiver.

2. Outpatient health services that are ordinarily provided in hospitals, clinics, offices and other health care facilities by licensed health care providers. Outpatient health services include services provided by or under the direction of a physician or a primary care practitioner but do not include occupational therapy, or speech therapy for eligible persons who are twenty-one years of age or older.

3. Other laboratory and x-ray services ordered by a physician or a primary care practitioner.

5. Emergency dental care and extractions for persons who are at least twenty-one years of age.

6. Medical supplies, DURABLE MEDICAL equipment and prosthetic devices, not including hearing aids or dentures, ordered by a physician or a primary care practitioner. 8. Early and periodic health screening and diagnostic services as required by section 1905(r) of title XIX of the social security act for members who are under twenty-one years of age.

9. Family planning services that do not include abortion or abortion counseling. If a contractor elects not to provide family planning
services, this election does not disqualify the contractor from delivering all other covered health and medical services under this chapter. In that event, the administration may contract directly with another contractor, including an outpatient surgical center or a noncontracting provider, to deliver family planning services to a member who is enrolled with the contractor that elects not to provide family planning services.

9.  Podiatry services performed by a podiatrist licensed pursuant to title 32, chapter 7 and ordered by a primary care physician or primary care practitioner.

11.  Ambulance and nonambulance transportation, EXCEPT AS PROVIDED IN SUBSECTION G OF THIS SECTION.

E. The director shall make available home health services in lieu of hospitalization pursuant to contracts awarded under this article. For the purposes of this subsection, "home health services" means the provision of nursing services, home health aide services or medical supplies, equipment and appliances, which are provided on a part-time or intermittent basis by a licensed home health agency within a member's residence based on the orders of a physician or a primary care practitioner. The division of behavioral health in the department of health services shall establish a diagnostic and evaluation program to which other state agencies shall refer children who are not already enrolled pursuant to this chapter and who may be in need of behavioral health services. In addition to an evaluation, the division of behavioral health shall also identify children who may be eligible under section 36-2901, paragraph 6, subdivision (a) or section 36-2931, paragraph 5 and shall refer the children to the appropriate agency responsible for making the final eligibility determination.

H. The director may adopt rules to allow the administration, at the
director's discretion, to use a second opinion procedure under which surgery
may not be eligible for coverage pursuant to this chapter without
documentation as to need by at least two physicians or primary care
practitioners.

I. If the director does not receive bids within the amounts budgeted
or if at any time the amount remaining in the Arizona health care cost
containment system fund is insufficient to pay for full contract services for
the remainder of the contract term, the administration, on notification to
system contractors at least thirty days in advance, may modify the list of
services required under subsection A of this section for persons defined as
eligible other than those persons defined pursuant to section 36-2901,
paragraph 6, subdivision (a). The director may also suspend services or may
limit categories of expense for services defined as optional pursuant to
title XIX of the social security act (P.L. 89-97; 79 Stat. 344; 42 United
States Code section 1396 (1980)) for persons defined pursuant to section

section 36-2908.

2. That the director may permit the delivery of health and medical
services in other than the geographic service area in this state or in an
adjoining state if the director determines that medical practice patterns
justify the delivery of services or a net reduction in transportation costs
can reasonably be expected. Notwithstanding the definition of physician as
prescribed in section 36-2901, if services are procured from a physician or
primary care practitioner in an adjoining state, the physician or primary
care practitioner shall be licensed to practice in that state pursuant to
licensing statutes in that state similar to title 32, chapter 13, 15, 17 or
25 and shall complete a provider agreement for this state.

L. Covered outpatient services shall be subcontracted by a primary
care physician or primary care practitioner to other licensed health care
providers to the extent practicable for purposes including, but not limited
to, making health care services available to underserved areas, reducing
costs of providing medical care and reducing transportation costs.

M. The director shall adopt rules that prescribe the coordination of
medical care for persons who are eligible for system services. The rules
shall include provisions for the transfer of patients, the transfer of medical records and the initiation of medical care.

Sec. 6. Section 36-2907.04, Arizona Revised Statutes, is amended to read:

36-2907.04. Family planning services

A woman whose eligibility under section 36-2901, paragraph 6, subdivision (a), item (ii) ended no earlier than March 1, 1995 and who is not otherwise enrolled in the system is eligible to receive voluntary family planning services for two years, if approval of the waiver requesting family planning services pursuant to this section is approved by the United States department of health and human services. This two year period begins on the first day following the end of that woman’s sixty day federal eligibility period that begins on the last day of her pregnancy. Family planning services under this section are limited to those available pursuant to section 36-2907, subsection A, paragraph 9.

Sec. 7. Section 36-2907.10, Arizona Revised Statutes, is amended to read:

36-2907.10. Transplants; extended eligibility

A. If during a redetermination process for eligibility pursuant to this article a person who is enrolled and who is eligible pursuant to this article for a medically necessary and appropriate transplant pursuant to section 36-2907, subsection A, paragraph 10 is determined ineligible for coverage pursuant to section 36-2901.04 due to excess income or ineligible for coverage pursuant to section 36-2901, paragraph 6, subdivision (a), item (i), (ii) or (iii) and that person has not yet received the transplant, the person may extend the person's eligibility based on the total spend down requirement for the household divided by the number of persons in the household.

B. In order to extend eligibility the person shall enter into a contractual agreement with a hospital to pay the amount of excess income determined pursuant to this section. The hospital shall only be reimbursed by the administration at the contracted rate of the transplantation surgery, including up to one hundred days of posttransplantation care. The administration shall deduct the amount of excess income that the person agrees to pay the hospital before payment is made to the hospital for transplant services authorized by this section. The amount of excess income shall not be changed once the extended period of eligibility begins. The administration is not responsible to pay any of the spend down amount if the person does not pay the hospital. The contracting hospital shall submit a copy of the person's contractual agreement with the hospital to the administration.

C. The administration shall authorize extended eligibility services only for transplant candidates.
D. Extended eligibility pursuant to this section is for one twelve-month continuous period of time and is funded only pursuant to section 36-2907.12.

E. This section does not prohibit a person from applying for eligibility pursuant to any other applicable law.

F. If the administration and a hospital that performed a transplant surgery on a person who is eligible pursuant to this section do not have a contracted rate, the administration shall not reimburse the hospital more than the contracted rate established by the administration.

G. A person who has extended eligibility pursuant to section 36-2907.11 is not eligible for services pursuant to this section.

H. The extended eligibility of a person who is determined to be no longer medically eligible for a transplant terminates at the end of the month in which it is determined the person is not medically eligible for the transplant unless the person is otherwise eligible for services pursuant to section 36-2901, paragraph 6, subdivision (a).

Sec. 8. Section 36-2907.11, Arizona Revised Statutes, is amended to read:

36-2907.11. Retaining transplant status
A. If during a redetermination process for eligibility pursuant to this article a person who is eligible for a medically necessary and appropriate transplant as determined by the administration pursuant to section 36-2907, subsection A, paragraph 11 is determined ineligible for coverage pursuant to section 36-2901.04 due to excess income or ineligible for coverage pursuant to section 36-2901, paragraph 6, subdivision (a), item (i), (ii) or (iii) and that person has not yet received the transplant, the person may enter into a contract with a hospital to pay the amount of excess income. For purposes of this section, the administration shall compute excess income based on the total spend down requirement for the household divided by the number of persons in the household. The administration shall recompute excess income pursuant to this section at the time the transplant becomes available.

B. If the hospital enters into the contractual agreement with the person, the hospital shall allow the person to retain the person's transplant candidacy status as long as the person is medically eligible but the person is not eligible for services pursuant to this article unless that person is determined eligible pursuant to subsection D of this section.

C. A person who has extended eligibility pursuant to section 36-2907.10 is not eligible for services pursuant to this section.

D. Once a transplant is scheduled or performed the person shall reapply for eligibility pursuant to section 36-2901, paragraph 6, subdivision (a) and, if a spend down of excess income is necessary in order to be eligible for services pursuant to this article, the administration shall compute this income pursuant to the process specified in subsection A of this
section. If the transplant is performed within thirty days before the date
of the eligibility determination, the administration shall pay the hospital
on a retroactive basis at the contracted rate for costs of the transplant
surgery, including up to one hundred days of posttransplantation care. The
administration shall deduct the amount of excess income that the person has
agreed to pay the hospital before payment is made to the hospital for
transplant services pursuant to this section. The amount of excess income
shall not be recomputed after the date the person becomes eligible pursuant
to this section. The administration is not responsible for paying any spend
down amount if the person does not pay the hospital. The contracting
hospital shall submit a copy of the person's contractual agreement with the
hospital to the administration.

E. Eligibility pursuant to this section shall be funded only pursuant
to section 36-2907.12.

F. This section does not prohibit a person from applying for
eligibility pursuant to any other applicable law.

G. If the administration and a hospital that performed a transplant
surgery on a person eligible pursuant to this section do not have a
contracted rate, the administration shall not reimburse the hospital more
than the contracted rate established by the administration.

allow willing contractors to deliver health care services to persons defined
as eligible pursuant to section 36-2901, paragraph 6, subdivisions (b), (c),
(d) and (e). In counties with a population of less than five hundred
thousand persons, the administration may contract directly with any health
care provider or entity. The administration may enter into a contract with
another entity to provide administrative functions for the healthcare group
program.

B. Employers with two eligible employees or up to an average of fifty
eligible employees under section 36-2901, paragraph 6, subdivision (d):
1. May contract with the administration to be the exclusive health
benefit plan if the employer has five or fewer eligible employees and enrolls
one hundred per cent of these employees into the health benefit plan.
2. May contract with the administration for coverage available
pursuant to this section if the employer has six or more eligible employees
and enrolls eighty per cent of these employees into the healthcare group
program.
3. Shall have a minimum of two and a maximum of fifty eligible
employees at the effective date of their first contract with the
administration.
C. The administration shall not enroll an employer group in healthcare

group sooner than ninety days after the date that the employer's health

insurance coverage under an accountable health plan is discontinued.

Enrollment in healthcare group is effective on the first day of the month

after the ninety day period. This subsection does not apply to an employer

group if the employer's accountable health plan discontinues offering the

health plan of which the employer is a member.

D. Employees with proof of other existing health care coverage who

elect not to participate in the healthcare group program shall not be

considered when determining the percentage of enrollment requirements under

subsection B of this section if either:

1. Group health coverage is provided through a spouse, parent or legal

   guardian, or insured through individual insurance or another employer.

2. Medical assistance is provided by a government subsidized health

   care program.

3. Medical assistance is provided pursuant to section 36-2982, subsection I.

E. An employer shall not offer coverage made available pursuant to

this section to persons defined as eligible pursuant to section 36-2901,

paragraph 6, subdivision (b), (c), (d) or (e) as a substitute for a federally

designated plan.

F. An employee or dependent defined as eligible pursuant to section

36-2901, paragraph 6, subdivision (b), (c), (d) or (e) may participate in

healthcare group on a voluntary basis only.

G. Notwithstanding subsection B, paragraph 2 of this section, the

administration shall adopt rules to allow a business that offers healthcare

group coverage pursuant to this section to continue coverage if it expands

its employment to include more than fifty employees.

H. The administration shall provide eligible employees with disclosure

information about the health benefit plan.

I. The director shall:

1. Require that any contractor that provides covered services to

   persons defined as eligible pursuant to section 36-2901, paragraph 6,

   subdivision (a) provide separate audited reports on the assets, liabilities

   and financial status of any corporate activity involving providing coverage

   pursuant to this section to persons defined as eligible pursuant to section

   36-2901, paragraph 6, subdivision (b), (c), (d) or (e).

2. Prohibit the administration and program contractors from

   reimbursing a noncontracting hospital for services provided to a member at a

   noncontracting hospital except for services for an emergency medical

   condition.

   administration or an accountable health plan negotiate reimbursement rates.
The reimbursement rate for an emergency medical condition for a noncontracting hospital is:

(b) In counties with a population of less than five hundred thousand persons, one hundred twenty-five per cent of the reimbursement rates established pursuant to section 36-2903.01, subsection H. The hospital shall notify the contractor when a member is stabilized.

4. Use monies from the healthcare group fund established by section 36-2912.01 for the administration's costs of operating the healthcare group program.

5. Ensure that the contractors are required to meet contract terms as are necessary in the judgment of the director to ensure adequate performance by the contractor. Contract provisions shall include, at a minimum, the maintenance of deposits, performance bonds, financial reserves or other financial security. The director may waive requirements for the posting of bonds or security for contractors that have posted other security, equal to or greater than that required for the healthcare group program, with the administration or the department of insurance for the performance of health service contracts if funds would be available to the administration from the other security on the contractor's default. In waiving, or approving waivers of, any requirements established pursuant to this section, the director shall ensure that the administration has taken into account all the obligations to which a contractor's security is associated. The director may also adopt rules that provide for the withholding or forfeiture of payments to be made to a contractor for the failure of the contractor to comply with provisions of its contract or with provisions of adopted rules.

6. Adopt rules.

7. Provide reinsurance to the contractors for clean claims based on thresholds established by the administration. For the purposes of this paragraph, "clean claims" has the same meaning prescribed in section 36-2904.

All small employers qualify for this guaranteed offer of coverage. The administration shall offer to all small employers the available health benefit plan and shall accept any small employer that applies and meets the eligibility requirements. In addition to the requirements prescribed in this
section, for any offering of any health benefit plan to a small employer, as part of the administration's solicitation and sales materials, the administration shall make a reasonable disclosure to the employer of the availability of the information described in this subsection and, on request of the employer, shall provide that information to the employer. The administration shall provide information concerning the following:

1. Provisions of coverage relating to the following, if applicable:
   (a) The administration's right to establish premiums and to change premium rates and the factors that may affect changes in premium rates.

This requirement is satisfied if the administration provides the following information:

Before changing premiums, the administration must give sixty days' written notice to the employer. For each contract period the administration shall set premiums that in the aggregate cover projected medical and administrative costs for that contract period and that are determined pursuant to generally accepted actuarial principles and practices by an independent actuary.

P. The administration shall consider age, sex, health status-related factors, group size, geographic area and community rating when it establishes premiums for the healthcare group program.
Q. Except as provided in subsection R of this section, a health benefit plan may not deny, limit or condition the coverage or benefits based on a person's health status-related factors or a lack of evidence of insurability. A health benefit plan shall not provide or offer any service, benefit or coverage that is not part of the health benefit plan contract.

R. A health benefit plan shall not exclude coverage for preexisting conditions, except that:

1. A health benefit plan may exclude coverage for preexisting conditions for a period of not more than twelve months or, in the case of a late enrollee, eighteen months. S. The contractor shall calculate creditable coverage according to the following:

1. The contractor shall give an individual credit for each portion of each month the individual was covered by creditable coverage.

3. The contractor shall give credit in the calculation of creditable coverage for any period that an individual is in a waiting period for any health coverage.

T. The contractor shall not count a period of creditable coverage with respect to enrollment of an individual if, after the most recent period of creditable coverage and before the enrollment date, sixty-three consecutive days lapse during all of which the individual was not covered under any creditable coverage. The contractor shall not include in the determination of the period of continuous coverage described in this section any period that an individual is in a waiting period for health insurance coverage offered by a health care insurer or is in a waiting period for benefits under a health benefit plan offered by a contractor. In determining the extent to which an individual has satisfied any portion of any applicable preexisting condition period the contractor shall count a period of creditable coverage without regard to the specific benefits covered during that period. A contractor shall not impose any preexisting condition exclusion in the case of an individual who is covered under creditable coverage thirty-one days after the individual's date of birth. A contractor shall not impose any preexisting condition exclusion in the case of a child who is adopted or...
placed for adoption before age eighteen and who is covered under creditable coverage thirty-one days after the adoption or placement for adoption.

Z. On or before June 15 and November 15 of each year, the director shall submit a report to the joint legislative budget committee regarding the number and type of businesses participating in healthcare group and that includes updated information on healthcare group marketing activities. The director, within thirty days of implementation, shall notify the joint legislative budget committee of any changes in healthcare group benefits or cost sharing arrangements.
