34 violation; classification; civil relief; statute of
35 limitations

36 A. In addition to the OTHER requirements of ~~section 36-2153~~ THIS
37 CHAPTER, a person shall not knowingly perform an abortion on a pregnant
38 unemancipated minor unless the attending physician has secured the written

1 and notarized consent from one of the minor's parents or the minor's guardian
2 or conservator or unless a judge of the superior court authorizes the
3 physician to perform the abortion pursuant to subsection B of this section.
4 Notwithstanding section 41-319, the notarized statement of parental consent
5 and the description of the document or notarial act recorded in the notary
6 journal are confidential and are not public records.

7 B. A judge of the superior court, on petition or motion, and after an
8 appropriate hearing, shall authorize a physician to perform the abortion if
9 the judge determines that the pregnant minor is mature and capable of giving
10 informed consent to the proposed abortion. If the judge determines that the
11 pregnant minor is not mature or if the pregnant minor does not claim to be
12 mature, the judge shall determine whether the performance of an abortion on
13 her without the consent from one of her parents or her guardian or
14 conservator would be in her best interests and shall authorize a physician to
15 perform the abortion without consent if the judge concludes that the pregnant
16 minor's best interests would be served.

17 C. If the pregnant minor claims to be mature at a proceeding held
18 pursuant to subsection B of this section, the minor must prove by clear and
19 convincing evidence that she is sufficiently mature and capable of giving
20 informed consent without consulting her parent or legal guardian based on her
21 experience level, perspective and judgment. In assessing the pregnant
22 minor's experience level, the court may consider, among other relevant
23 factors, the minor's age and experiences working outside the home, living
24 away from home, traveling on her own, handling personal finances and making
25 other significant decisions. In assessing the pregnant minor's perspective,
26 the court may consider, among other relevant factors, what steps the minor
27 took to explore her options and the extent to which she considered and
28 weighed the potential consequences of each option. In assessing the pregnant
29 minor's judgment, the court may consider, among other relevant factors, the
30 minor's conduct since learning of her pregnancy and her intellectual ability
31 to understand her options and to make an informed decision.

32 D. The pregnant minor may participate in the court proceedings on her
33 own behalf. The court shall appoint a guardian ad litem for her. The court
34 shall advise her that she has the right to court appointed counsel and, on
35 her request, shall provide her with counsel unless she appears through
36 private counsel or she knowingly and intelligently waives her right to
37 counsel.

1 E. Proceedings in the court under this section are confidential and
2 have precedence over other pending matters. Members of the public shall not
3 inspect, obtain copies of or otherwise have access to records of court
4 proceedings under this section unless authorized by law. A judge who
5 conducts proceedings under this section shall make in writing specific
6 factual findings and legal conclusions supporting the decision and shall
7 order a confidential record of the evidence to be maintained, including the
8 judge's own findings and conclusions. The minor may file the petition using
9 a fictitious name. For purposes of this subsection, public does not include
10 judges, clerks, administrators, professionals or other persons employed by or
11 working under the supervision of the court or employees of other public
12 agencies who are authorized by state or federal rule or law to inspect and
13 copy closed court records.

14 F. The court shall hold the hearing and shall issue a ruling within
15 forty-eight hours, excluding weekends and holidays, after the petition is
16 filed. If the court fails to issue a ruling within this time period, the
17 petition is deemed to have been granted and the consent requirement is
18 waived.

19 G. An expedited confidential appeal is available to a pregnant minor
20 for whom the court denies an order authorizing an abortion without parental
21 consent. The appellate court shall hold the hearing and issue a ruling
22 within forty-eight hours, excluding weekends and holidays, after the petition
23 for appellate review is filed. Filing fees are not required of the pregnant
24 minor at either the trial or the appellate level.

25 H. Parental consent or judicial authorization is not required under
26 this section if either:

27 1. The pregnant minor certifies to the attending physician that the
28 pregnancy resulted from sexual conduct with a minor by the minor's parent,
29 stepparent, uncle, grandparent, sibling, adoptive parent, legal guardian or
30 foster parent or by a person who lives in the same household with the minor
31 and the minor's mother. The physician performing the abortion shall report
32 the sexual conduct with a minor to the proper law enforcement officials
33 pursuant to section 13-3620 and shall preserve and forward a sample of the
34 fetal tissue to these officials for use in a criminal investigation.

35 2. The attending physician certifies in the pregnant minor's medical
36 record that, on the basis of the physician's good faith clinical judgment,
37 the pregnant minor has a condition that so complicates her medical condition
38 as to necessitate the immediate abortion of her pregnancy to avert her death

1 or for which a delay will create serious risk of substantial and irreversible
2 impairment of major bodily function.

3 I. A person who performs an abortion in violation of this section is
4 guilty of a class 1 misdemeanor. A person is not subject to any liability
5 under this section if the person establishes by written evidence that the
6 person relied on evidence sufficient to convince a careful and prudent person
7 that the representations of the pregnant minor regarding information
8 necessary to comply with this section are true.

9 J. In addition to other remedies available under the common or
10 statutory law of this state, one or both of the minor's parents or the
11 minor's guardian may bring a civil action in the superior court in the county
12 in which the parents or the guardian resides to obtain appropriate relief for
13 a violation of this section, unless the pregnancy resulted from the criminal
14 conduct of the parent or guardian. The civil action may be based on a claim
15 that failure to obtain consent was a result of simple negligence, gross
16 negligence, wantonness, wilfulness, intention or any other legal standard of
17 care. THE CIVIL ACTION MAY BE BROUGHT AGAINST THE PERSON WHO PERFORMS THE
18 ABORTION IN VIOLATION OF THIS SECTION AND ANY PERSON WHO CAUSES, AIDS OR
19 ASSISTS A MINOR TO OBTAIN AN ABORTION WITHOUT MEETING THE REQUIREMENTS OF
20 THIS SECTION. Relief pursuant to this subsection includes the following:

21 1. Money damages for all psychological, emotional and physical
22 injuries that result from the violation of this section.

23 2. Statutory damages in an amount equal to five thousand dollars or
24 three times the cost of the abortion, whichever is greater.

25 3. Reasonable attorney fees and costs.

26 K. A civil action brought pursuant to this section must be initiated
27 within six years after the violation occurred.

28 L. THE CONSENT REQUIRED BY THIS SECTION MUST BE OBTAINED ON A FORM
29 PRESCRIBED BY THE DEPARTMENT OF HEALTH SERVICES. AT A MINIMUM, THE FORM
30 MUST:

31 1. LIST THE POSSIBLE MEDICAL RISKS THAT MAY OCCUR WITH ANY SURGICAL,
32 MEDICAL OR DIAGNOSTIC PROCEDURE, INCLUDING THE POTENTIAL FOR INFECTION, BLOOD
33 CLOTS, HEMORRHAGE, ALLERGIC REACTIONS AND DEATH.

34 2. LIST THE POSSIBLE MEDICAL RISKS THAT MAY OCCUR WITH A SURGICAL
35 ABORTION, INCLUDING HEMORRHAGE, UTERINE PERFORATION, STERILITY, INJURY TO THE
36 BOWEL OR BLADDER, A POSSIBLE HYSTERECTOMY AS A RESULT OF A COMPLICATION
37 INJURY DURING THE PROCEDURE AND FAILURE TO REMOVE ALL PRODUCTS OF CONCEPTION
38 THAT MAY RESULT IN AN ADDITIONAL PROCEDURE.

1 3. LIST THE POSSIBLE MEDICAL RISKS THAT MAY OCCUR WITH A MEDICATION
2 ABORTION, INCLUDING HEMORRHAGE, INFECTION, FAILURE TO REMOVE ALL PRODUCTS OF
3 CONCEPTION THAT MAY RESULT IN AN ADDITIONAL PROCEDURE, STERILITY AND THE
4 POSSIBLE CONTINUATION OF THE PREGNANCY.

5 4. REQUIRE THE PATIENT'S AND THE PARENT'S INITIALS ON EACH PAGE OF THE
6 FORM AND A FULL SIGNATURE ON THE FINAL PAGE OF THE FORM.

7 5. INCLUDE A SPACE FOR THE NOTARY'S SIGNATURE AND SEAL ON THE FINAL
8 PAGE OF THE FORM.

9 M. THE PHYSICIAN MUST MAINTAIN THE FORM IN THE PATIENT'S RECORDS FOR
10 SEVEN YEARS AFTER THE DATE OF THE PROCEDURE OR FIVE YEARS AFTER THE DATE OF
11 THE MINOR'S MATURITY, WHICHEVER IS LONGER.

27 Sec. 9. Findings and purposes

28 A. The legislature finds that:

29 1. Abortion can cause serious both short-term and long-term physical
30 and psychological complications for women, including but not limited to
31 uterine perforation, uterine scarring, cervical perforation or other injury,
32 infection, bleeding, hemorrhage, blood clots, failure to actually terminate
33 the pregnancy, incomplete abortion (retained tissue), pelvic inflammatory
34 disease, endometritis, missed ectopic pregnancy, cardiac arrest, respiratory
35 arrest, renal failure, metabolic disorder, shock, embolism, coma, placenta
36 previa in subsequent pregnancies, preterm delivery in subsequent pregnancies,
37 free fluid in the abdomen, organ damage, adverse reactions to anesthesia and
38 other drugs, psychological or emotional complications such as depression,

1 anxiety or sleeping disorders and death. See, e.g., P.K. Coleman, *Abortion*

15 2. Abortion has a higher medical risk when the procedure is performed
16 later in pregnancy. Compared to an abortion at eight weeks of gestation or
17 earlier, the relative risk increases exponentially at higher gestations.

21 of gestation. J. Pregler & A. DeCherney, *Women's Health: Principles and*
22 *Clinical Practice* 232 (2002).

23 4. The risk of death associated with abortion increases with the
24 length of pregnancy, from one death for every one million abortions at or
25 before eight weeks gestation to one per 29,000 abortions at sixteen to twenty
26 weeks and one per 11,000 abortions at twenty-one or more weeks. L. Bartlett
27 et al., *Risk factors for legal induced abortion-related mortality in the*
28 *United States*, *Obstetrics & Gynecology* 103(4):729-737 (2004). After the
29 first trimester, the risk of hemorrhage from an abortion, in particular, is
30 greater, and the resultant complications may require a hysterectomy, other
31 reparative surgery or a blood transfusion.

32 5. The State of Arizona has a legitimate concern for the public's
33 health and safety. *Williamson v. Lee Optical*, 348 U.S. 483, 486 (1955);
34 *Cohen v. State*, 121 Ariz. 6, 10, 588 P.2d 299, 303 (1978).

35 6. The State of Arizona "has legitimate interests from the outset of
36 pregnancy in protecting the health of women." *Planned Parenthood of*
37 *Southeastern Pennsylvania v. Casey*, 505 U.S. 833, 847 (1992); *Planned*
38 *Parenthood Arizona, Inc. v. American Ass'n of Pro-Life Obstetricians &*

1 *Gynecologists*, 257 P.3d 181, 194 (Ariz. App. Div. 1, 2011). More
2 specifically, Arizona "has a legitimate concern with the health of women who
3 undergo abortions." *Akron v. Akron Ctr. for Reproductive Health, Inc.*, 462
4 U.S. 416, 428-29 (1983).

5 7. There is substantial and well-documented medical evidence that an
6 unborn child by at least twenty weeks of gestation has the capacity to feel
7 pain during an abortion. K. Anand, Pain and its effects in the human neonate
8 and fetus, *New England Journal of Medicine*, 317:1321-29 (1987).

9 8. The United States Food and Drug Administration approved the drug
10 mifepristone, a first-generation (selective) progesterone receptor modulator
11 ([S]PRM), as an abortion-inducing drug with a specific gestation, dosage and
12 administration protocol.

13 9. As approved by the United States Food and Drug Administration, and
14 as outlined in the drug label, an abortion by mifepristone consists of three
15 200 mg tablets of mifepristone taken orally, followed by two 200 mcg tablets
16 of misoprostol taken orally, through forty-nine days LMP (a gestational
17 measurement using the first day of the woman's "last menstrual period" as a
18 marker). The patient is to return for a follow-up visit in order to confirm
19 that a complete termination of pregnancy has occurred. *Mifeprex Prescribing*

24 10. The aforementioned treatment requires three office visits by the
25 patient, and the dosages may only be administered in a clinic, medical office
26 or hospital and under supervision of a physician.

27 11. Court testimony demonstrates that some abortion providers fail to
28 follow the mifepristone protocol as tested and approved by the United States
29 Food and Drug Administration, and as outlined in the drug label. See, e.g.,
30 *Planned Parenthood v. Goddard*, CV2009-029110, Declaration of Beth Otterstein
31 at 3 (Sept. 10, 2009); *Planned Parenthood v. Horne*, CV2010-030230,
32 Declaration of Paul D. Blumenthal, M.D., M.P.H. (June 29, 2011); and *Planned*
33 *Parenthood Cincinnati Region v. Taft*, 459 F. Supp. 2d 626, 630 n. 7 (S.D. Oh.
34 2006).

35 12. The use of mifepristone presents significant medical risks to
36 women, including but not limited to *C. sordellii* bacterial infection, septic
37 shock, toxic shock syndrome, adult respiratory distress syndrome from sepsis,
38 *Escheria coli* sepsis, group B *Streptococcus* septicemia, disseminated

1 intravascular coagulopathy (DIC) with hepatic and renal failure, severe pelvic
2 infection and massive hemorrhage.

3 13. Abortion-inducing drugs are associated with an increased risk of
4 complications relative to surgical abortion. The risk of complications
5 increases with increasing gestational age, and, in the instance of
6 mifepristone, with failure to complete the two-step dosage process.

7 14. Medical studies have indicated that 1 to 2 out of every 1,000
8 women who undergo mifepristone abortions will require emergency blood
9 transfusion for massive hemorrhage. By April 30, 2011, the United States
10 Food and Drug Administration reported that at least 339 women required blood
11 transfusions for massive bleeding after mifepristone abortions. A total of
12 612 United States women have been hospitalized due to complications, and
13 fourteen women in the United States have died following administration of
14 mifepristone. The majority of reported deaths in the United States were from
15 fatal infection. Mifepristone U.S. Postmarketing Adverse Events Summary

18 [PatientsandProviders/UCM263353.pdf](http://www.fda.gov/downloads/Drugs/DrugSafety/PostmarketDrugSafetyInformationforPatientsandProviders/UCM263353.pdf). This infection is atypical to the usual
19 presentation of sepsis and may occur without the typical signs of infection,
20 such as fever and tenderness. This atypical presentation requires that
21 mifepristone be dispensed only in a closely supervised clinical setting under
22 the direction of a licensed physician who has the direct ability to counsel
23 the patient regarding the risks, and also to examine the patient prior to and
24 after administration of mifepristone.

25 15. The absence of proper follow-up care after mifepristone
26 abortions has resulted in at least 58 women having undetected
27 ectopic pregnancies, including two deaths from ectopic rupture.

32 B. For these reasons, the legislature's purposes in promulgating this
33 act include to:

34 1. Prohibit abortions at or after twenty weeks of gestation, except in
35 cases of a medical emergency, based on the documented risks to women's health
36 and the strong medical evidence that unborn children feel pain during an
37 abortion at that gestational age.

1 2. Protect women from the dangerous and potentially deadly off-label
2 use of abortion-inducing drugs, such as, for example, mifepristone.

3 3. Ensure that physicians abide by the protocol tested and approved by
4 the United States Food and Drug Administration for such abortion-inducing
5 drugs, as outlined in the drug labels.

6 Sec. 10. Exemption from rule making

7 For the purposes of this act, the department of health services is
8 exempt from the rule making requirements of title 41, chapter 6, Arizona
9 Revised Statutes, for two years after the effective date of this act.

10 Sec. 11. Construction

11 This act does not establish or recognize a right to an abortion and
12 does not make lawful an abortion that is currently unlawful.

13 Sec. 12. Severability

14 If a provision of this act or its application to any person or
15 circumstance is held invalid, the invalidity does not affect other provisions
16 or applications of the act that can be given effect without the invalid
17 provision or application, and to this end the provisions of this act are
18 severable."
