**Administration**

In accordance with section 35-142.01, Arizona Revised Statutes, the department of economic security shall remit to the department of administration any monies received as reimbursement from the federal government or any other source for the operation of the department of economic security west building and any other building lease-purchased by the state of Arizona in which the department of economic security occupies space. The department of administration shall deposit these monies in the state general fund.

**Aging and community services**

All domestic violence shelter fund monies above $2,220,000 received by the department of economic security are appropriated for the domestic violence prevention line item. Before the expenditure of these increased monies, the department of economic security shall report the intended use of monies above $2,220,000 to the joint legislative budget committee.

The department of economic security shall report to the joint legislative budget committee on the amount of state and federal monies available statewide for domestic violence funding by December 15, 2012. The report shall include, at a minimum, the amount of monies available and the state fiscal agent receiving those monies.

**Benefits and medical eligibility**

The operating lump sum appropriation may be expended on Arizona health care cost containment system eligibility determinations based on the results of the Arizona random moment sampling survey.
Of the amount appropriated for temporary assistance for needy families cash benefits, $500,000 reflects appropriation authority only to ensure sufficient cash flow to administer cash benefits for tribes operating their own welfare programs. The department shall notify the joint legislative budget committee and the governor's office of strategic planning and budgeting staff before the use of any of the $500,000 appropriation authority.

Child support enforcement
All state share of retained earnings, fees and federal incentives above $16,534,900 received by the division of child support enforcement are appropriated for operating expenditures. New full-time equivalent positions may be authorized with the increased funding. Before the expenditure of these increased monies, the department of economic security shall report the intended use of the monies to the joint legislative budget committee.

Children, youth and families
Of the amounts appropriated for children support services, CPS emergency and residential placement and foster care placement, the department may transfer up to ten per cent of the total amount of federal temporary assistance for needy families block grant monies appropriated to the department of economic security to the social services block grant for use in the following line items in the division of children, youth and families: children support services, CPS emergency and residential placement and foster care placement. Before transferring federal temporary assistance for needy families block grant monies to the social services block grant, the department shall report the proposed amount of the transfer to the director of the joint legislative budget committee. This report may be in the form of an expenditure plan that is submitted at the beginning of the fiscal year and updated, if necessary, throughout the fiscal year.

The department of economic security shall provide training to any new child protective services FTE positions before assigning to any of these employees any client caseload duties.

It is the intent of the legislature that the department of economic security use the funding in the division of children, youth and families to achieve a one hundred per cent investigation rate.

Developmental disabilities
The department of economic security shall report all new placements into a state-owned ICF-MR or the Arizona training program at Coolidge campus in fiscal year 2012-2013 to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee and the reason why this placement, rather than a placement into a privately run facility for the developmentally disabled, was deemed as the most appropriate placement. The department shall also report if no new placements were made. This report shall be made available by July 15, 2013.
All monies in the long-term care system fund unexpended and unencumbered at the end of fiscal year 2012-2013 revert to the state general fund, subject to approval by the Arizona health care cost containment system administration.

The department shall report to the joint legislative budget committee by March 1 of each year on preliminary actuarial estimates of the capitation rate changes for the following fiscal year along with the reasons for the estimated changes. For any actuarial estimates that include a range, the total range from minimum to maximum shall be not more than two per cent. Before implementation of any changes in capitation rates for the long-term care program, the department shall report for review the expenditure plan to the joint legislative budget committee. Before the department implements any changes in policy affecting the amount, sufficiency, duration and scope of health care services and who may provide services, the department shall prepare a fiscal impact analysis on the potential effects of this change on the following year's capitation rates. If the fiscal analysis demonstrates that these changes will result in additional state costs of $500,000 or greater for a given fiscal year, the department shall submit the policy changes for review by the joint legislative budget committee.

Prior to the implementation of any developmentally disabled or long-term care statewide provider rate adjustments not already specifically authorized by the legislature, court mandates or changes to federal law, the department shall submit a report for review by the joint legislative budget committee. The report shall include, at a minimum, the estimated cost of the provider rate adjustment and the ongoing source of funding for the adjustment, if applicable.

It is the intent of the legislature that the department of economic security increase developmental disabilities provider rates by two per cent beginning April 1, 2013.

Employment and rehabilitation services

Of the $121,396,600 appropriated for day care subsidy, plus any funding authorized to be deferred to fiscal year 2013-2014, $115,199,900 is for a program in which the upper income limit is no more than one hundred sixty-five per cent of the federal poverty level.

All federal workforce investment act monies that are received by this state in excess of $56,029,800 are appropriated to the workforce investment act services line item. Before the expenditure of these increased monies, the department of economic security shall report the intended use of monies above $56,029,800 to the joint legislative budget committee.

Departmentwide

The above appropriations are in addition to funds granted to the state by the federal government for the same purposes but shall be deemed to include the sums deposited in the state treasury to the credit of the department of economic security pursuant to section 42-5029, Arizona Revised Statutes.
A monthly report comparing total expenditures for the month and year-to-date as compared to prior year totals shall be forwarded to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee by the thirtieth of the following month. The report shall include an estimate of potential shortfalls in entitlement programs and potential federal and other funds, such as the statewide assessment for indirect costs, and any projected surplus in state supported programs that may be available to offset these shortfalls and a plan, if necessary, for eliminating any shortfall without a supplemental appropriation.

Any federal temporary assistance for needy families block grant monies received in fiscal year 2012-2013, including the beginning balance, by the department of economic security in excess of $220,775,800 is appropriated to the department in fiscal year 2012-2013. For every dollar the department of economic security receives in federal temporary assistance for needy families block grant monies in fiscal year 2012-2013 in excess of the $220,775,800 appropriated, there shall be a corresponding dollar reduction in the department’s long-term care system fund appropriation. On or before June 30, 2013, the department shall notify the joint legislative budget committee and the governor’s office of strategic planning and budgeting of the amount of long-term care system fund monies, if any, that will not be expended under this provision.

It is the intent of the legislature that the per cent attributable to administration/profit for the regional behavioral health authority in Maricopa county is nine per cent of the overall capitation rate.
The department of health services shall report to the joint legislative budget committee thirty days after the end of each calendar quarter on the progress the department is making toward settling the *Arnold v. Sarn* lawsuit. The report shall include at a minimum the department's progress towards meeting the exit criteria and whether the department is in compliance with the exit criteria schedule.

For any actuarial estimates that include a range, the total range from minimum to maximum shall be no more than two per cent. Before implementation of any changes in capitation rates for any behavioral health line items, the department of health services shall report its expenditure plan for review by the joint legislative budget committee. Before the department implements any changes in policy affecting the amount, sufficiency, duration and scope of health care services and who may provide services, the department shall prepare a fiscal impact analysis on the potential effects of this change on the following year's capitation rates. If the fiscal analysis demonstrates that these changes will result in additional state costs of $500,000 or greater for a given fiscal year, the department shall submit the policy changes for review by the joint legislative budget committee.

Departmentwide

A monthly report comparing total expenditures for the month and year-to-date as compared to prior year totals shall be forwarded electronically to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee by the thirtieth of the following month. Of the 134.8 FTE positions for fiscal year 2012-2013, 98.3 FTE positions are for Division I and 36.5 FTE positions are for Division II.

Of the 136.5 FTE positions, 81 FTE positions represent superior court judges in counties with a population of less than two million persons. One-half of their salaries are provided by state general fund appropriations pursuant to section 12-128, Arizona Revised Statutes. This is not meant to limit the counties’ ability to add judges pursuant to section 12-121, Arizona Revised Statutes.

Up to 4.6 per cent of the amounts appropriated for juvenile treatment services and juvenile diversion consequences may be retained and expended by the supreme court to administer the programs established pursuant to section 8-322, Arizona Revised Statutes, and to conduct evaluations as needed. The remaining portion of the juvenile treatment services and juvenile diversion consequences appropriations shall be deposited in the juvenile probation services fund established by section 8-322, Arizona Revised Statutes.
Receipt of state probation monies by the counties is contingent on the county maintenance of fiscal year 2003-2004 expenditure levels for each probation program. State probation monies are not intended to supplant county dollars for probation programs.

By November 1, 2012, the administrative office of the courts shall report to the joint legislative budget committee the fiscal year 2011-2012 actual, fiscal year 2012-2013 estimated and fiscal year 2013-2014 requested amounts for the following:

1. On a county-by-county basis, the number of authorized and filled case carrying probation positions and non-case carrying positions, distinguishing between adult standard, adult intensive, juvenile standard and juvenile intensive. The report shall indicate the level of state probation funding, other state funding, county funding and probation surcharge funding for those positions.

2. Total receipts and expenditures by county and fund source for the adult standard, adult intensive, juvenile standard and juvenile intensive probation line items, including the amount of personal services expended from each revenue source of each account.

3. The amount of monies from the adult standard, adult intensive, juvenile standard and juvenile intensive probation line items that the office does not distribute as direct aid to counties. The report shall delineate how the office expends these monies that are not distributed as direct aid to counties.

For entities that pay premiums on a basis other than biweekly, the department shall calculate an equivalent decrease in premiums and reduce their premium collection by that amount. On or before September 1, 2012, the department shall report to the joint legislative budget committee on its plans for implementing the premium holiday.
