Expenditure authority 634,841,200

Administration

In accordance with section 35-142.01, Arizona Revised Statutes, the department of economic security shall remit to the department of administration any monies received as reimbursement from the federal government or any other source for the operation of the department of economic security west building and any other building lease-purchased by the state of Arizona in which the department of economic security occupies space. The department of administration shall deposit these monies in the state general fund.

Aging and community services

All domestic violence shelter fund monies above $2,220,000 received by the department of economic security are appropriated for the domestic violence prevention line item. Before the expenditure of these increased monies, the department of economic security shall report the intended use of monies above $2,220,000 to the joint legislative budget committee.

The department of economic security shall report to the joint legislative budget committee on the amount of state and federal monies available statewide for domestic violence funding by December 15, 2012. The report shall include, at a minimum, the amount of monies available and the state fiscal agent receiving those monies.

Benefits and medical eligibility

The operating lump sum appropriation may be expended on Arizona health care cost containment system eligibility determinations based on the results of the Arizona random moment sampling survey.

Of the amount appropriated for temporary assistance for needy families cash benefits, $500,000 reflects appropriation authority only to ensure sufficient cash flow to administer cash benefits for tribes operating their own welfare programs. The department shall notify the joint legislative budget committee and the governor's office of strategic planning and budgeting staff before the use of any of the $500,000 appropriation authority.

Child support enforcement

All state share of retained earnings, fees and federal incentives above $16,534,900 received by the division of child support enforcement are appropriated for operating expenditures. New full-time equivalent positions may be authorized with the increased funding. Before the expenditure of these increased monies, the department of economic security shall report the intended use of the monies to the joint legislative budget committee.

Children, youth and families

Of the amounts appropriated for children support services, CPS emergency and residential placement and foster care placement, the department may transfer up to ten per cent of the total amount of federal temporary assistance for needy families block grant monies appropriated to the department of economic security to the social services block grant for use in the following line items in the division of children, youth and families:
children support services, CPS emergency and residential placement and foster
care placement. Before transferring federal temporary assistance for needy
families block grant monies to the social services block grant, the
department shall report the proposed amount of the transfer to the director
of the joint legislative budget committee. This report may be in the form of
an expenditure plan that is submitted at the beginning of the fiscal year and
updated, if necessary, throughout the fiscal year.

The department of economic security shall provide training to any new
child protective services FTE positions before assigning to any of these
employees any client caseload duties.

It is the intent of the legislature that the department of economic
security use the funding in the division of children, youth and families to
achieve a one hundred per cent investigation rate.

Developmental disabilities

The department of economic security shall report all new placements
into a state-owned ICF-MR or the Arizona training program at Coolidge campus
in fiscal year 2012-2013 to the president of the senate, the speaker of the
house of representatives, the chairpersons of the senate and house of
representatives appropriations committees and the director of the joint
legislative budget committee and the reason why this placement, rather than a
placement into a privately run facility for the developmentally disabled, was
deemed as the most appropriate placement. The department shall also report
if no new placements were made. This report shall be made available by July
15, 2013.

All monies in the long-term care system fund unexpended and
unencumbered at the end of fiscal year 2012-2013 revert to the state general
fund, subject to approval by the Arizona health care cost containment system
administration.

The department shall report to the joint legislative budget committee
by March 1 of each year on preliminary actuarial estimates of the capitation
rate changes for the following fiscal year along with the reasons for the
estimated changes. For any actuarial estimates that include a range, the
total range from minimum to maximum shall be not more than two per cent.
Before implementation of any changes in capitation rates for the long-term
care program, the department shall report for review the expenditure plan to
the joint legislative budget committee. Before the department implements any
changes in policy affecting the amount, sufficiency, duration and scope of
health care services and who may provide services, the department shall
prepare a fiscal impact analysis on the potential effects of this change on
the following year's capitation rates. If the fiscal analysis demonstrates
that these changes will result in additional state costs of $500,000 or
greater for a given fiscal year, the department shall submit the policy
changes for review by the joint legislative budget committee.

Prior to the implementation of any developmentally disabled or
long-term care statewide provider rate adjustments not already specifically
authorized by the legislature, court mandates or changes to federal law, the
department shall submit a report for review by the joint legislative budget committee. The report shall include, at a minimum, the estimated cost of the provider rate adjustment and the ongoing source of funding for the adjustment, if applicable.

It is the intent of the legislature that the department of economic security increase developmental disabilities provider rates by two per cent beginning April 1, 2013.

Employment and rehabilitation services

Of the $121,396,600 appropriated for day care subsidy, plus any funding authorized to be deferred to fiscal year 2013-2014, $115,199,900 is for a program in which the upper income limit is no more than one hundred sixty-five per cent of the federal poverty level.

All federal workforce investment act monies that are received by this state in excess of $56,029,800 are appropriated to the workforce investment act services line item. Before the expenditure of these increased monies, the department of economic security shall report the intended use of monies above $56,029,800 to the joint legislative budget committee.

Departmentwide

The above appropriations are in addition to funds granted to the state by the federal government for the same purposes but shall be deemed to include the sums deposited in the state treasury to the credit of the department of economic security pursuant to section 42-5029, Arizona Revised Statutes.

A monthly report comparing total expenditures for the month and year-to-date as compared to prior year totals shall be forwarded to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee by the thirtieth of the following month. The report shall include an estimate of potential shortfalls in entitlement programs and potential federal and other funds, such as the statewide assessment for indirect costs, and any projected surplus in state supported programs that may be available to offset these shortfalls and a plan, if necessary, for eliminating any shortfall without a supplemental appropriation.

Any federal temporary assistance for needy families block grant monies received in fiscal year 2012-2013, including the beginning balance, by the department of economic security in excess of $220,775,800 is appropriated to the department in fiscal year 2012-2013. For every dollar the department of economic security receives in federal temporary assistance for needy families block grant monies in fiscal year 2012-2013 in excess of the $220,775,800 appropriated, there shall be a corresponding dollar reduction in the department's long-term care system fund appropriation. On or before June 30, 2013, the department shall notify the joint legislative budget committee and the governor's office of strategic planning and budgeting of the amount of long-term care system fund monies, if any, that will not be expended under this provision.

**Public health/family health**

The department of health services may use up to four per cent of the amounts appropriated for renal and nonrenal disease management for the administrative costs to implement the program.

Of the $1,125,000 for Alzheimer's disease research, $1,000,000 of that amount is from the tobacco tax and health care fund – health research account.

**Behavioral health**

It is the intent of the legislature that the per cent attributable to administration/profit for the regional behavioral health authority in Maricopa county is nine per cent of the overall capitation rate.

The department of health services shall report to the joint legislative budget committee thirty days after the end of each calendar quarter on the progress the department is making toward settling the *Arnold v. Sarn* lawsuit. The report shall include at a minimum the department's progress towards meeting the exit criteria and whether the department is in compliance with the exit criteria schedule.
The amounts included in the proposition 204 administration and medicaid behavioral health - proposition 204 special line items include all available sources of funding consistent with section 36-2901.01, subsection B, Arizona Revised Statutes.

In addition to the appropriation for the department of health services, earnings on state lands and interest on the investment of the permanent land funds are appropriated to the state hospital in compliance with the enabling act and the Constitution of Arizona.

The department shall report to the joint legislative budget committee by March 1 of each year on preliminary actuarial estimates of the capitation rate changes for the following fiscal year along with the reasons for the estimated changes. For any actuarial estimates that include a range, the total range from minimum to maximum shall be no more than two per cent.

Before implementation of any changes in capitation rates for any behavioral health line items, the department of health services shall report its expenditure plan for review by the joint legislative budget committee. Before the department implements any changes in policy affecting the amount, sufficiency, duration and scope of health care services and who may provide services, the department shall prepare a fiscal impact analysis on the potential effects of this change on the following year's capitation rates. If the fiscal analysis demonstrates that these changes will result in additional state costs of $500,000 or greater for a given fiscal year, the department shall submit the policy changes for review by the joint legislative budget committee.

Departmentwide

A monthly report comparing total expenditures for the month and year-to-date as compared to prior year totals shall be forwarded electronically to the president of the senate, the speaker of the house of representatives, the chairpersons of the senate and house of representatives appropriations committees and the director of the joint legislative budget committee by the thirtieth of the following month. The report shall include an estimate of potential shortfalls in programs, potential federal and other funds, such as the statewide assessment for indirect costs, that may be available to offset these shortfalls, and a plan, if necessary, for eliminating any shortfall without a supplemental appropriation and total expenditure authority of the month and year-to-date for federally matched services.

Of the 136.5 FTE positions, 81 FTE positions represent superior court judges in counties with a population of less than two million persons. One-half of their salaries are provided by state general fund appropriations pursuant to section 12-128, Arizona Revised Statutes. This is not meant to limit the counties' ability to add judges pursuant to section 12-121, Arizona Revised Statutes.

Up to 4.6 per cent of the amounts appropriated for juvenile treatment services and juvenile diversion consequences may be retained and expended by the supreme court to administer the programs established pursuant to section 8-322, Arizona Revised Statutes, and to conduct evaluations as needed. The remaining portion of the juvenile treatment services and juvenile diversion consequences appropriations shall be deposited in the juvenile probation services fund established by section 8-322, Arizona Revised Statutes.
Receipt of state probation monies by the counties is contingent on the county maintenance of fiscal year 2003-2004 expenditure levels for each probation program. State probation monies are not intended to supplant county dollars for probation programs.

By November 1, 2012, the administrative office of the courts shall report to the joint legislative budget committee the fiscal year 2011-2012 actual, fiscal year 2012-2013 estimated and fiscal year 2013-2014 requested amounts for the following:

1. On a county-by-county basis, the number of authorized and filled case carrying probation positions and non-case carrying positions, distinguishing between adult standard, adult intensive, juvenile standard and juvenile intensive. The report shall indicate the level of state probation funding, other state funding, county funding and probation surcharge funding for those positions.

2. Total receipts and expenditures by county and fund source for the adult standard, adult intensive, juvenile standard and juvenile intensive probation line items, including the amount of personal services expended from each revenue source of each account.

3. The amount of monies from the adult standard, adult intensive, juvenile standard and juvenile intensive probation line items that the office does not distribute as direct aid to counties. The report shall delineate how the office expends these monies that are not distributed as direct aid to counties.

Sec. 135. State employee health insurance premium holiday; report

For the purpose of instituting a one-time insurance premium holiday, the department of administration shall not collect premiums for the self-insured state employee health insurance program for sufficient pay periods during fiscal year 2012-2013 to generate $25,000,000 of state general fund savings. The department may determine which pay periods will not have a premium charged. This premium holiday applies to all premiums, including employer, employee and retiree contributions. For entities that pay premiums on a basis other than biweekly, the department shall calculate an equivalent decrease in premiums and reduce their premium collection by that amount. On or before September 1, 2012, the department shall report to the joint legislative budget committee on its plans for implementing the premium holiday.

Sec. 137. **Legislative intent; expenditure reporting**

It is the intent of the legislature that all departments, agencies or budget units receiving appropriations under the terms of this act shall continue to report actual, estimated and requested expenditures by budget programs and budget classes in a format that is similar to the budget programs and budget classes used for budgetary purposes in prior years. A different format may be used if deemed necessary to implement section 35-113, Arizona Revised Statutes, agreed to by the director of the joint legislative budget committee and incorporated into the budget preparation instructions adopted by the governor's office of strategic planning and budgeting pursuant to section 35-112, Arizona Revised Statutes.

Sec. 138. **FTE positions; reporting; definition**

Full-time equivalent (FTE) positions contained in this act are subject to appropriation. The director of the department of administration shall account for the use of all appropriated FTE positions excluding those in the department of economic security, the universities and the department of environmental quality. The director shall submit the fiscal year 2012-2013 report by October 1, 2013 to the director of the joint legislative budget committee. The reports shall compare the level of FTE usage in each fiscal year to the appropriated level. For the purposes of this section, "FTE positions" shall mean the total number of hours worked, including both regular and overtime hours as well as hours taken as leave, divided by the number of hours in a work year. The director of the department of administration shall notify the director of each budget unit if the budget unit has exceeded its number of appropriated FTE positions. The above excluded agencies shall each report to the director of the joint legislative budget committee in a manner comparable to the department of administration reporting.

Sec. 139. **Filled FTE positions; reporting**

By October 1, 2012, each agency, including the judiciary and universities, shall submit a report to the director of the joint legislative budget committee on the number of filled, appropriated FTE positions by fund source. The number of filled, appropriated FTE positions reported shall be as of September 1, 2012.

Sec. 140. **Transfer of spending authority**
