that is not cause for dismissal of the administrator or for revocation of the
certificate of the administrator. Disciplinary action may include suspension
without pay for a period of time not to exceed ten school days. Disciplinary
action shall not include suspension with pay or suspension without pay for a period of time longer than ten school days. The governing board may designate a person or persons to act on behalf of the board on these matters. The filing of a timely request for a hearing suspends the imposition of a suspension without pay or a dismissal pending completion of the hearing.

23. Notwithstanding sections 13-3108 and 13-3120, prescribe and enforce policies and procedures that prohibit a person from carrying or possessing a weapon on school grounds unless the person is a peace officer or has obtained specific authorization from the school administrator.

24. Prescribe and enforce policies and procedures relating to the health and safety of all pupils participating in district sponsored practice sessions or games or other interscholastic athletic activities, including:

(a) The provision of water.

(b) Guidelines, information and forms, developed in consultation with a statewide private entity that supervises interscholastic activities, to inform and educate coaches, pupils and parents of the dangers of concussions and head injuries and the risks of continued participation in athletic activity after a concussion. The policies and procedures shall require that, before a pupil participates in an athletic activity, the pupil and the pupil's parent must sign an information form at least once each school year that states that the parent is aware of the nature and risk of concussion. The policies and procedures shall require that a pupil who is suspected of sustaining a concussion in a practice session, game or other interscholastic athletic activity be immediately removed from the athletic activity. A coach from the pupil's team or an official or a licensed health care provider may remove a pupil from play. A team parent may also remove the parent's own child from play. A pupil may return to play on the same day if a health care provider rules out a suspected concussion at the time the pupil is removed from play. On a subsequent day, the pupil may return to play if the pupil has been evaluated by and received written clearance to resume participation in athletic activity from a health care provider who has been trained in the evaluation and management of concussions and head injuries. A health care provider who is a volunteer and who provides clearance to participate in athletic activity on the day of the suspected injury or on a subsequent day is immune from civil liability with respect to all decisions made and actions taken that are based on good faith implementation of the requirements of this subdivision, except in cases of gross negligence or wanton or wilful neglect. A school district, school district employee, team coach, official or team volunteer or a parent or guardian of a team member is not subject to civil liability for any act, omission or policy undertaken in good faith to comply with the requirements of this subdivision or for a decision made or an action
taken by a health care provider. A group or organization that uses property
or facilities owned or operated by a school district for athletic activities
shall comply with the requirements of this subdivision. A school district
and its employees and volunteers are not subject to civil liability for any
other person or organization's failure or alleged failure to comply with the
requirements of this subdivision. This subdivision does not apply to teams
that are based in another state and that participate in an athletic activity
in this state. For the purposes of this subdivision, athletic activity does
not include dance, rhythmic gymnastics, competitions or exhibitions of
academic skills or knowledge or other similar forms of physical noncontact
activities, civic activities or academic activities, whether engaged in for
the purposes of competition or recreation. For the purposes of this
subdivision, "health care provider" means a physician who is licensed
pursuant to title 32, chapter 13 or 17, an athletic trainer who is licensed
pursuant to title 32, chapter 17, a nurse practitioner who is licensed
pursuant to title 32, chapter 15, and a physician assistant who is licensed

shall be adopted in consultation with school district personnel and members
of the community and shall state whether smoking is prohibited in school
buildings. If smoking in school buildings is not prohibited, the policies and
procedures shall clearly state the conditions and circumstances under which
smoking is permitted, those areas in a school building that may be designated
as smoking areas and those areas in a school building that may not be
designated as smoking areas.

26. Establish an assessment, data gathering and reporting system as
prescribed in chapter 7, article 3 of this title.

27. Provide special education programs and related services pursuant
to section 15-764, subsection A to all children with disabilities as defined
in section 15-761.

projects for purposes of general liability, property damage and workers'

projects.

30. Keep on file the resumes of all current and former employees who
provide instruction to pupils at a school. Resumes shall include an
individual's educational and teaching background and experience in a
particular academic content subject area. A school district shall inform
parents and guardians of the availability of the resume information and shall
make the resume information available for inspection on request of parents
and guardians of pupils enrolled at a school. This paragraph shall not be
construed to require any school to release personally identifiable
information in relation to any teacher or employee, including the teacher's or employee's address, salary, social security number or telephone number.

31. Report to local law enforcement agencies any suspected crime against a person or property that is a serious offense as defined in section 13-706 or that involves a deadly weapon or dangerous instrument or serious physical injury and any conduct that poses a threat of death or serious physical injury to employees, students or anyone on the property of the school. This paragraph does not limit or preclude the reporting by a school district or an employee of a school district of suspected crimes other than those required to be reported by this paragraph. For the purposes of this paragraph, "dangerous instrument", "deadly weapon" and "serious physical injury" have the same meanings prescribed in section 13-105.

32. In conjunction with local law enforcement agencies and local medical facilities, develop an emergency response plan for each school in the school district in accordance with minimum standards developed jointly by the department of education and the division of emergency management within the department of emergency and military affairs.

33. Provide written notice to the parents or guardians of all students affected in the school district at least ten days prior to a public meeting to discuss closing a school within the school district. The notice shall include the reasons for the proposed closure and the time and place of the meeting. The governing board shall fix a time for a public meeting on the proposed closure no less than ten days before voting in a public meeting to close the school. The school district governing board shall give notice of the time and place of the meeting. At the time and place designated in the notice, the school district governing board shall hear reasons for or against closing the school. The school district governing board is exempt from this paragraph if it is determined by the governing board that the school shall be closed because it poses a danger to the health or safety of the pupils or employees of the school. A governing board may consult with the school facilities board for technical assistance and for information on the impact of closing a school. The information provided from the school facilities board shall not require the governing board to take or not take any action.

34. Incorporate instruction on Native American history into appropriate existing curricula.

35. Prescribe and enforce policies and procedures:
   (a) Allowing pupils who have been diagnosed with anaphylaxis by a health care provider licensed pursuant to title 32, chapter 13, 14, 17 or 25 or by a registered nurse practitioner licensed and certified pursuant to title 32, chapter 15 to carry and self-administer emergency medications, including auto-injectable epinephrine AUTO-INJECTORS, while at school and at school-sponsored activities. The pupil's name on the prescription label on the medication container or on the medication device and annual written documentation from the pupil's parent or guardian to the school that authorizes possession and self-administration is sufficient proof that the
pupil is entitled to the possession and self-administration of the medication. The policies shall require a pupil who uses auto-injectable epinephrine AUTO-INJECTOR while at school and at school-sponsored activities to notify the nurse or the designated school staff person of the use of the medication as soon as practicable. A school district and its employees are immune from civil liability with respect to all decisions made and actions taken that are based on good faith implementation of the requirements of this subdivision, except in cases of wanton or wilful neglect.

(b) For the emergency administration of auto-injectable epinephrine AUTO-INJECTORS by a trained employee of a school district pursuant to section 15-157.

The pupil's name on the prescription label on the medication container or on the handheld inhaler device and annual written documentation from the pupil's parent or guardian to the school that authorizes possession and self-administration shall be sufficient proof that the pupil is entitled to the possession and self-administration of the medication. A school district and its employees are immune from civil liability with respect to all decisions made and actions taken that are based on a good faith implementation of the requirements of this paragraph.

37. Prescribe and enforce policies and procedures to prohibit pupils from harassing, intimidating and bullying other pupils on school grounds, on school property, on school buses, at school bus stops, at school-sponsored events and activities and through the use of electronic technology or electronic communication on school computers, networks, forums and mailing lists that include the following components:

(a) A procedure for pupils, parents and school district employees to confidentially report to school officials incidents of harassment, intimidation or bullying. The school shall make available written forms designed to provide a full and detailed description of the incident and any other relevant information about the incident.

(b) A requirement that school district employees report in writing suspected incidents of harassment, intimidation or bullying to the appropriate school official and a description of appropriate disciplinary procedures for employees who fail to report suspected incidents that are known to the employee.

(c) A requirement that, at the beginning of each school year, school officials provide all pupils with a written copy of the rights, protections and support services available to a pupil who is an alleged victim of an incident reported pursuant to this paragraph.

(d) If an incident is reported pursuant to this paragraph, a requirement that school officials provide a pupil who is an alleged victim of
the incident with a written copy of the rights, protections and support services available to that pupil.

(e) A formal process for the documentation of reported incidents of harassment, intimidation or bullying and for the confidentiality, maintenance and disposition of this documentation. School districts shall maintain documentation of all incidents reported pursuant to this paragraph for at least six years. The school shall not use that documentation to impose disciplinary action unless the appropriate school official has investigated and determined that the reported incidents of harassment, intimidation or bullying occurred. If a school provides documentation of reported incidents to persons other than school officials or law enforcement, all individually identifiable information shall be redacted.

(f) A formal process for the investigation by the appropriate school officials of suspected incidents of harassment, intimidation or bullying, including procedures for notifying the alleged victim on completion and disposition of the investigation.

(g) Disciplinary procedures for pupils who have admitted or been found to have committed incidents of harassment, intimidation or bullying.

(h) A procedure that sets forth consequences for submitting false reports of incidents of harassment, intimidation or bullying.

(h) If the land that a school was built on was donated within the past five years, a formal process to notify the entity that donated the land affected by the decision of the governing board.

39. If the state board of education determines that the school district has committed an overexpenditure as defined in section 15-107, provide a copy of the fiscal management report submitted pursuant to section 15-107, subsection H on its website and make copies available to the public on request. The school district shall comply with a request within five business days after receipt.

40. Ensure that the contract for the superintendent is structured in a manner in which up to twenty percent of the total annual salary included for the superintendent in the contract is classified as performance pay. This paragraph shall not be construed to require school districts to increase total compensation for superintendents. Unless the school district governing board votes to implement an alternative procedure at a public meeting called for this purpose, the performance pay portion of the superintendent's total annual compensation shall be determined as follows:

(a) Twenty-five percent of the performance pay shall be determined based on the percentage of academic gain determined by the department of education of pupils who are enrolled in the school district compared to the academic gain achieved by the highest ranking of the fifty largest school districts in this state. For the purposes of this subdivision, the department of education shall determine academic gain by the academic growth achieved by each pupil who has been enrolled at the same school in a school district for at least five consecutive months measured against that pupil's academic results in the 2008-2009 school year. For the purposes of this subdivision, of the fifty largest school districts in this state, the school district with pupils who demonstrate the highest statewide percentage of overall academic gain measured against academic results for the 2008-2009 school year shall be assigned a score of 100 and the school district with pupils who demonstrate the lowest statewide percentage of overall academic gain measured against academic results for the 2008-2009 school year shall be assigned a score of 0.

(b) Twenty-five percent of the performance pay shall be determined by the percentage of parents of pupils who are enrolled at the school district who assign a letter grade of "A" to the school on a survey of parental satisfaction with the school district. The parental satisfaction survey shall be administered and scored by an independent entity that is selected by the governing board and that demonstrates sufficient expertise and experience to accurately measure the results of the survey. The parental satisfaction survey shall use standard random sampling procedures and provide anonymity and confidentiality to each parent who participates in the survey. The letter grade scale used on the parental satisfaction survey shall direct parents to assign one of the following letter grades:

(i) A letter grade of "A" if the school district is excellent.
(ii) A letter grade of "B" if the school district is above average.
(iii) A letter grade of "C" if the school district is average.
(iv) A letter grade of "D" if the school district is below average.
(v) A letter grade of "F" if the school district is a failure.

(c) Twenty-five \text{ percent} \text{ percent} \text{ percent} of the performance pay shall be determined by the percentage of teachers who are employed at the school district and who assign a letter grade of "A" to the school on a survey of teacher satisfaction with the school. The teacher satisfaction survey shall be administered and scored by an independent entity that is selected by the governing board and that demonstrates sufficient expertise and experience to accurately measure the results of the survey. The teacher satisfaction survey shall use standard random sampling procedures and provide anonymity and confidentiality to each teacher who participates in the survey. The letter grade scale used on the teacher satisfaction survey shall direct teachers to assign one of the following letter grades:

  (i) A letter grade of "A" if the school district is excellent.
  (ii) A letter grade of "B" if the school district is above average.
  (iii) A letter grade of "C" if the school district is average.
  (iv) A letter grade of "D" if the school district is below average.
  (v) A letter grade of "F" if the school district is a failure.

(d) Twenty-five \text{ percent} \text{ percent} \text{ percent} of the performance pay shall be determined by other criteria selected by the governing board.

41. Maintain and store permanent public records of the school district as required by law. Notwithstanding section 39-101, the standards adopted by the Arizona state library, archives and public records for the maintenance and storage of school district public records shall allow school districts to elect to satisfy the requirements of this paragraph by maintaining and storing these records either on paper or in an electronic format, or a combination of a paper and electronic format.

42. Adopt in a public meeting and implement by school year 2013-2014 policies for principal evaluations. Before the adoption of principal evaluation policies, the school district governing board shall provide opportunities for public discussion on the proposed policies. The policies shall describe:

  (a) The principal evaluation instrument, including the four performance classifications adopted by the governing board pursuant to section 15-203, subsection A, paragraph 38.
  (b) Alignment of professional development opportunities to the principal evaluations.
  (c) Incentives for principals in one of the two highest performance classifications pursuant to section 15-203, subsection A, paragraph 38, which may include:
    (i) Multiyear contracts pursuant to section 15-503.
    (ii) Incentives to work at schools that are assigned a letter grade of D or F pursuant to section 15-241.
(d) Transfer and contract processes for principals designated in the lowest performance classification pursuant to section 15-203, subsection A, paragraph 38.

43. PRESCRIBE AND ENFORCE POLICIES AND PROCEDURES FOR THE EMERGENCY ADMINISTRATION OF NALOXONE HYDROCHLORIDE OR ANY OTHER OPIOID ANTAGONIST APPROVED BY THE UNITED STATES FOOD AND DRUG ADMINISTRATION BY AN EMPLOYEE OF A SCHOOL DISTRICT PURSUANT TO SECTION 36-2267.

B. Notwithstanding subsection A, paragraphs 7, 9 and 11 of this section, the county school superintendent may construct, improve and furnish school buildings or purchase or sell school sites in the conduct of an accommodation school.

C. If any school district acquires real or personal property, whether by purchase, exchange, condemnation, gift or otherwise, the governing board shall pay to the county treasurer any taxes on the property that were unpaid as of the date of acquisition, including penalties and interest. The lien for unpaid delinquent taxes, penalties and interest on property acquired by a school district:

1. Is not abated, extinguished, discharged or merged in the title to the property.

2. Is enforceable in the same manner as other delinquent tax liens.

D. The governing board may not locate a school on property that is less than one-fourth mile from agricultural land regulated pursuant to section 3-365, except that the owner of the agricultural land may agree to comply with the buffer zone requirements of section 3-365. If the owner agrees in writing to comply with the buffer zone requirements and records the agreement in the office of the county recorder as a restrictive covenant running with the title to the land, the school district may locate a school within the affected buffer zone. The agreement may include any stipulations regarding the school, including conditions for future expansion of the school and changes in the operational status of the school that will result in a breach of the agreement.

E. A school district, its governing board members, its school council members and its employees are immune from civil liability for the consequences of adoption and implementation of policies and procedures pursuant to subsection A of this section and section 15-342. This waiver does not apply if the school district, its governing board members, its school council members or its employees are guilty of gross negligence or intentional misconduct.

F. A governing board may delegate in writing to a superintendent, principal or head teacher the authority to prescribe procedures that are consistent with the governing board's policies.

G. Notwithstanding any other provision of this title, a school district governing board shall not take any action that would result in a reduction of pupil square footage unless the governing board notifies the school facilities board established by section 15-2001 of the proposed action
and receives written approval from the school facilities board to take the action. A reduction includes an increase in administrative space that results in a reduction of pupil square footage or sale of school sites or buildings, or both. A reduction includes a reconfiguration of grades that results in a reduction of pupil square footage of any grade level. This subsection does not apply to temporary reconfiguration of grades to accommodate new school construction if the temporary reconfiguration does not exceed one year. The sale of equipment that results in a reduction that falls below the equipment requirements prescribed in section 15-2011, subsection B is subject to commensurate withholding of school district additional assistance monies pursuant to the direction of the school facilities board. Except as provided in section 15-342, paragraph 10, proceeds from the sale of school sites, buildings or other equipment shall be deposited in the school plant fund as provided in section 15-1102.

H. Subsections C through G of this section apply to a county board of supervisors and a county school superintendent when operating and administering an accommodation school.
