30 administrative responsibility for the charter schools that it sponsors. In
31 implementing its oversight and administrative responsibilities, the sponsor
32 shall ground its actions in evidence of the charter holder's performance in
33 accordance with the performance framework adopted by the sponsor. The
34 performance framework shall be publicly available, shall be placed on the
35 sponsoring entity's website and shall include:

36 1. The academic performance expectations of the charter school and the

41 or chief administrative officer, are immune from civil liability with respect
42 to all decisions made and actions taken to allow the use of school property,

8 the actual average daily membership, as defined in section 15-901, of the

11 for charter schools, the sponsoring university, the sponsoring community

37 (b) Student capacity multiplied by the appropriate square footage per
38 pupil prescribed by subsection C of this section.

39 3. Consider the total space available in all schools in use in the
40 school district, except that the school facilities board shall allow an
41 exclusion of the square footage for certain schools and the pupils within the
42 schools' boundaries if the school district demonstrates to the board's
43 satisfaction unusual or excessive busing of pupils or unusual attendance
44 boundary changes between schools.

1 4. Compute the gross square footage of all buildings by measuring from
2 exterior wall to exterior wall. Square footage used solely for district
3 administration, storage of vehicles and other nonacademic purposes shall be
4 excluded from the net square footage.

5 5. Include all portable and modular buildings.

6 6. Include in the net square footage new construction funded wholly or
7 partially by the school facilities board based on the square footage funded
8 by the school facilities board. If the new construction is to exceed the
9 square footage funded by the school facilities board, the excess square
10 footage shall not be included in the net square footage if any of the
11 following applies:

12 (a) The excess square footage was constructed before July 1, 2002 or
13 funded by a class B bond, impact aid revenue bond or capital outlay override
14 approved by the voters after August 1, 1998 and before June 30, 2002 or
15 funded from unrestricted capital outlay expended before June 30, 2002.

16 (b) The excess square footage of new school facilities does not exceed
17 twenty-five percent of the minimum square footage requirements pursuant to
18 subsection C of this section.

19 (c) The excess square footage of expansions to school facilities does
20 not exceed twenty-five percent of the minimum square footage requirements
21 pursuant to subsection C of this section.

22 7. Exclude square footage built under a developer agreement according
23 to section 15-342, paragraph 33 until the school facilities board provides
24 funding for the square footage under section 15-2041, subsection 0.

25 8. Include square footage that a school district has leased to another
26 entity, ~~including square footage leased to a charter school that is sponsored~~
27 ~~by a school district pursuant to section 15-183.~~

28 F. The school facilities board shall adopt rules establishing minimum
29 school facility adequacy guidelines. The guidelines shall provide the
30 minimum quality and quantity of school buildings and facilities and equipment
31 necessary and appropriate to enable pupils to achieve the academic standards
32 pursuant to section 15-203, subsection A, paragraphs 12 and 13 and sections
33 15-701 and 15-701.01. At a minimum, the school facilities board shall
34 address all of the following in developing these guidelines:

35 1. School sites.

36 2. Classrooms.

37 3. Libraries and media centers, or both.

38 4. Cafeterias.

39 5. Auditoriums, multipurpose rooms or other multiuse space.

40 6. Technology.

41 7. Transportation.

42 8. Facilities for science, arts and physical education.

43 9. Other facilities and equipment that are necessary and appropriate
44 to achieve the academic standards prescribed pursuant to section 15-203,
45 subsection A, paragraphs 12 and 13 and sections 15-701 and 15-701.01.

1 10. Appropriate combinations of facilities or uses listed in this
2 section.

3 G. The board shall consider the facilities and equipment of the
4 schools with the highest academic productivity scores, as prescribed in
5 section 15-2002, subsection A, paragraph 9, subdivision (d), and the highest
6 parent quality ratings in the establishment of the guidelines.

7 H. The school facilities board may consider appropriate combinations
8 of facilities or uses in making assessments of and curing existing
9 deficiencies pursuant to section 15-2002, subsection A, paragraph 1 and in
10 certifying plans for new school facilities pursuant to section 15-2002,
11 subsection A, paragraph 5.

12 I. For the purposes of this section, "student capacity" means the
13 capacity adjusted to include any additions to or deletions of space,
14 including modular or portable buildings at the school. The school facilities
15 board shall determine the student capacity for each school in conjunction
16 with each school district, recognizing each school's allocation of space as
17 of July 1, 1998, to achieve the academic standards prescribed pursuant to
18 section 15-203, subsection A, paragraphs 12 and 13 and sections 15-701 and
19 15-701.01.

20 Sec. 28. Section 15-2032, Arizona Revised Statutes, is amended to
21 read:

22 15-2032. School facilities board building renewal grant fund;
23 definitions

24 A. The building renewal grant fund is established consisting of monies
25 appropriated to the fund by the legislature. The school facilities board
26 shall administer the fund and distribute monies to school districts for the
27 purpose of maintaining the adequacy of existing school facilities. Monies in
28 the fund are exempt from the provisions of section 35-190 relating to lapsing
29 of appropriations.

30 B. The school facilities board shall distribute monies from the fund
31 based on grant requests from school districts to fund primary building
32 renewal projects. Project requests shall be prioritized by the school
33 facilities board, with priority given to school districts that have provided
34 routine preventative maintenance on the facility, and to school districts
35 that can provide a match of monies provided by the fund. The school
36 facilities board shall approve only projects that will be completed within
37 twelve months, unless similar projects on average take longer to complete.

38 C. School districts that receive monies from the fund shall use these
39 monies on projects for buildings or any part of a building in the school
40 facilities board's database for any of the following:

- 41 1. Major renovations and repairs to a building.
- 42 2. Upgrading systems and areas that will maintain or extend the useful
43 life of the building.
- 44 3. Infrastructure costs.

1 D. Monies received from the fund shall not be used for any of the
2 following purposes:

- 3 1. New construction.
- 4 2. Remodeling interior space for aesthetic or preferential reasons.
- 5 3. Exterior beautification.
- 6 4. Demolition.
- 7 5. Routine preventative maintenance.
- 8 6. Any project in a building, or part of a building, that is being
9 leased to another entity, ~~including a charter school that is sponsored by a~~
10 ~~school district pursuant to section 15-183.~~

11 E. Accommodation schools are not eligible for monies from the building
12 renewal grant fund.

13 F. If the school facilities board or a court of competent jurisdiction
14 determines that a school district received monies from the building renewal
15 grant fund that must be reimbursed to the school facilities board due to
16 legal action associated with improper construction by a hired contractor, the
17 school district shall reimburse the school facilities board an agreed-on
18 amount for deposit into the building renewal grant fund.

19 G. For the purposes of this section:

20 1. "Primary building renewal projects" means projects that are
21 necessary for buildings owned by school districts that are required to meet
22 the minimum adequacy standards for student capacity and that fall below the
23 minimum school facility adequacy guidelines, as adopted by the school
24 facilities board pursuant to section 15-2011, for school districts that have
25 provided routine preventative maintenance to the school facility.

26 2. "Routine preventative maintenance" means services that are
27 performed on a regular schedule at intervals ranging from four times a year
28 to once every three years, or on the schedule of services recommended by the
29 manufacturer of the specific building system or equipment, AND that are
30 intended to extend the useful life of a building system and reduce the need
31 for major repairs.

32 3. "Student capacity" has the same meaning prescribed in section
33 15-2011.

34 Sec. 29. Section 15-2041, Arizona Revised Statutes, is amended to
35 read:

36 15-2041. New school facilities fund; capital plan; report

37 A. A new school facilities fund is established consisting of monies
38 appropriated by the legislature and monies credited to the fund pursuant to
39 section 37-221. The school facilities board shall administer the fund and
40 distribute monies, as a continuing appropriation, to school districts for the
41 purpose of constructing new school facilities and for contracted expenses
42 pursuant to section 15-2002, subsection B, paragraphs 2, 3 and 4. On June 30
43 of each fiscal year, any unobligated contract monies in the new school
44 facilities fund shall be transferred to the capital reserve fund established
45 by section 15-2003.

1 B. The school facilities board shall prescribe a uniform format for
2 use by the school district governing board in developing and annually
3 updating a capital plan that consists of each of the following:

4 1. Enrollment projections for the next five years for elementary
5 schools and eight years for middle and high schools, including a description
6 of the methods used to make the projections.

7 2. A description of new schools or additions to existing schools
8 needed to meet the building adequacy standards prescribed in section 15-2011.
9 The description shall include:

10 (a) The grade levels and the total number of pupils that the school or
11 addition is intended to serve.

12 (b) The year in which it is necessary for the school or addition to
13 begin operations.

14 (c) A timeline that shows the planning and construction process for
15 the school or addition.

16 3. Long-term projections of the need for land for new schools.

17 4. Any other necessary information required by the school facilities
18 board to evaluate a school district's capital plan.

19 5. If a school district pays tuition for all or a portion of the
20 school district's high school pupils to another school district, the capital
21 plan shall indicate the number of pupils for which the district pays tuition
22 to another district. If a school district accepts pupils from another school
23 district pursuant to section 15-824, subsection A, the school district shall
24 indicate the projections for this population separately. This paragraph does
25 not apply to a small isolated school district as defined in section 15-901.

26 C. If the capital plan indicates a need for a new school or an
27 addition to an existing school within the next four years or a need for land
28 within the next ten years, the school district shall submit its plan to the
29 school facilities board by September 1 and shall request monies from the new
30 school facilities fund for the new construction or land. The school
31 facilities board may require a school district to sell land that was
32 previously purchased entirely with monies provided by the school facilities
33 board if the school facilities board determines that the property is no
34 longer needed within the ~~ten-year~~ TEN-YEAR period specified in this
35 subsection for a new school or no longer needed within that ~~ten-year~~ TEN-YEAR
36 period for an addition to an existing school. Monies provided for land shall
37 be in addition to any monies provided pursuant to subsection D of this
38 section.

39 D. The school facilities board shall distribute monies from the new
40 school facilities fund as follows:

41 1. The school facilities board shall review and evaluate the
42 enrollment projections. On or before March 1, following the submission of
43 the enrollment projections, the school facilities board shall either approve
44 the projections as submitted or revise the projections. In approving or
45 revising the enrollment projections, the school facilities board shall use

1 the most recent average daily membership data available. On request from the
2 school facilities board, the department of education shall make available the
3 most recent average daily membership data for use in revising the enrollment
4 projections. In determining new construction requirements, the school
5 facilities board shall determine the net new growth of pupils that will
6 require additional square footage that exceeds the building adequacy
7 standards prescribed in section 15-2011. If the projected growth and the
8 existing number of pupils exceed three hundred fifty pupils who are served in
9 a school district other than the pupil's resident school district, the school
10 facilities board, the receiving school district and the resident school
11 district shall develop a capital facilities plan on how to best serve those
12 pupils. A small isolated school district as defined in section 15-901 is not
13 required to develop a capital facilities plan pursuant to this paragraph.

14 2. If the approved projections indicate that additional space would
15 not have been needed during the current school year in order to meet the
16 building adequacy standards prescribed in section 15-2011, the request shall
17 be held for consideration by the school facilities board for possible future
18 funding and the school district shall annually submit an updated plan until
19 the additional space is needed.

20 3. If the approved projections indicate that additional space would
21 have been needed during the current school year in order to meet the building
22 adequacy standards prescribed in section 15-2011, the school facilities board
23 shall provide an amount as follows:

24 (a) Determine the number of pupils requiring additional square footage
25 to meet building adequacy standards. This amount for elementary schools
26 shall not be less than the number of new pupils for whom space will be needed
27 in the next year and shall not exceed the number of new pupils for whom space
28 will be needed in the next five years. This amount for middle and high
29 schools shall not be less than the number of new pupils for whom space will
30 be needed in the next four years and shall not exceed the number of new
31 pupils for whom space will be needed in the next eight years.

32 (b) Multiply the number of pupils determined in subdivision (a) of
33 this paragraph by the square footage per pupil. The square footage per pupil
34 is ninety square feet per pupil for preschool children with disabilities,
35 kindergarten programs and grades one through six, one hundred square feet for
36 grades seven and eight, one hundred thirty-four square feet for a school
37 district that provides instruction in grades nine through twelve for fewer
38 than one thousand eight hundred pupils and one hundred twenty-five square
39 feet for a school district that provides instruction in grades nine through
40 twelve for at least one thousand eight hundred pupils. The total number of
41 pupils in grades nine through twelve in the district shall determine the
42 square footage factor to use for net new pupils. The school facilities board
43 may modify the square footage requirements prescribed in this subdivision for
44 particular schools based on any of the following factors:

- 1 (i) The number of pupils served or projected to be served by the
2 school district.
- 3 (ii) Geographic factors.
- 4 (iii) Grade configurations other than those prescribed in this
5 subdivision.
- 6 (iv) Compliance with minimum school facility adequacy requirements
7 established pursuant to section 15-2011.
- 8 (c) Multiply the product obtained in subdivision (b) of this paragraph
9 by the cost per square foot. The cost per square foot is ninety dollars for
10 preschool children with disabilities, kindergarten programs and grades one
11 through six, ninety-five dollars for grades seven and eight and one hundred
12 ten dollars for grades nine through twelve. The cost per square foot shall
13 be adjusted annually for construction market considerations based on an index
14 identified or developed by the joint legislative budget committee as
15 necessary but not less than once each year. The school facilities board
16 shall multiply the cost per square foot by 1.05 for any school district
17 located in a rural area. The school facilities board may only modify the
18 base cost per square foot prescribed in this subdivision for particular
19 schools based on geographic conditions or site conditions. For the purposes
20 of this subdivision, "rural area" means an area outside a ~~thirty-five mile~~
21 THIRTY-FIVE-MILE radius of a boundary of a municipality with a population of
22 more than fifty thousand persons.
- 23 (d) Once the school district governing board obtains approval from the
24 school facilities board for new facility construction ~~funds~~ MONIES,
25 additional portable or modular square footage created for the express purpose
26 of providing temporary space for pupils until the completion of the new
27 facility shall not be included by the school facilities board for the purpose
28 of new construction funding calculations. On completion of the new facility
29 construction project, if the portable or modular facilities continue in use,
30 the portable or modular facilities shall be included as prescribed by this
31 chapter, unless the school facilities board approves their continued use for
32 the purpose of providing temporary space for pupils until the completion of
33 the next new facility that has been approved for funding from the new school
34 facilities fund.
- 35 4. For projects approved after December 31, 2001, and notwithstanding
36 paragraph 3 of this subsection, a unified school district that does not have
37 a high school is not eligible to receive high school space as prescribed by
38 section 15-2011 and this section unless the unified district qualifies for
39 geographic factors prescribed by paragraph 3, subdivision (b), item (ii) of
40 this subsection.
- 41 5. If a joint technical education district leases a building from a
42 school district, that building shall be included in the school district's
43 square footage calculation for the purposes of new construction pursuant to
44 this section.

1 6. If a school district leases a building to another entity, ~~including~~
2 ~~a charter school that is sponsored by a school district pursuant to section~~
3 ~~15-183~~, that building shall be included in the school district's square
4 footage calculation for purposes of new construction pursuant to this
5 section.

6 7. A school district shall qualify for monies from the new school
7 facilities fund in a fiscal year only if the school facilities board has
8 approved or revised its enrollment projection under paragraph 3 of this
9 subsection on or before March 1 of the prior fiscal year.

10 E. Monies for architectural and engineering fees, project management
11 services and preconstruction services shall be distributed on the completion
12 of the analysis by the school facilities board of the school district's
13 request. After receiving monies pursuant to this subsection, the school
14 district shall submit a design development plan for the school or addition to
15 the school facilities board before any monies for construction are
16 distributed. If the school district's request meets the building adequacy
17 standards, the school facilities board may review and comment on the
18 district's plan with respect to the efficiency and effectiveness of the plan
19 in meeting state square footage and facility standards before distributing
20 the remainder of the monies. If the school facilities board modifies the
21 cost per square foot as prescribed in subsection D, paragraph 3, subdivision
22 (c) of this section, the school facilities board may deduct the cost of
23 project management services and preconstruction services from the required
24 cost per square foot. The school facilities board may decline to fund the
25 project if the square footage is no longer required due to revised enrollment
26 projections.

27 F. The school facilities board shall distribute the monies needed for
28 land for new schools so that land may be purchased at a price that is less
29 than or equal to fair market value and in advance of the construction of the
30 new school. If necessary, the school facilities board may distribute monies
31 for land to be leased for new schools if the duration of the lease exceeds
32 the life expectancy of the school facility by at least fifty ~~per cent~~
33 **PERCENT**. A school district shall not use land purchased or partially
34 purchased with monies provided by the school facilities board for a purpose
35 other than a site for a school facility without obtaining prior written
36 approval from the school facilities board. A school district shall not
37 lease, sell or take any action that would diminish the value of land
38 purchased or partially purchased with monies provided by the school
39 facilities board without obtaining prior written approval from the school
40 facilities board. The proceeds derived through the sale of any land
41 purchased or partially purchased, or the sale of buildings funded or
42 partially funded, with monies provided by the school facilities board shall
43 be returned to the state fund from which it was appropriated and to any other
44 participating entity on a proportional basis. Except as provided in section
45 15-342, paragraph 33, if a school district acquires real property by donation

1 at an appropriate school site approved by the school facilities board, the
2 school facilities board shall distribute an amount equal to twenty ~~per cent~~
3 PERCENT of the fair market value of the donated real property that can be
4 used for academic purposes. The school district shall place the monies in
5 the unrestricted capital outlay fund and increase the unrestricted capital
6 budget limit by the amount of monies placed in the fund. Monies distributed
7 under this subsection shall be distributed from the new school facilities
8 fund. A school district that receives monies from the new school facilities
9 fund for a donation of land pursuant to section 15-342, paragraph 33 shall
10 not receive monies from the school facilities board for the donation of real
11 property pursuant to this subsection. A school district shall not pay a
12 consultant a percentage of the value of any of the following:

13 1. Donations of real property, services or cash from any of the
14 following:

15 (a) Entities that have offered to provide construction services to the
16 school district.

17 (b) Entities that have been contracted to provide construction
18 services to the school district.

19 (c) Entities that build residential units in that school district.

20 (d) Entities that develop land for residential use in that school
21 district.

22 2. Monies received from the school facilities board on behalf of the
23 school district.

24 3. Monies paid by the school facilities board on behalf of the school
25 district.

26 G. In addition to distributions to school districts based on pupil
27 growth projections, a school district may submit an application to the school
28 facilities board for monies from the new school facilities fund if one or
29 more school buildings have outlived their useful life. If the school
30 facilities board determines that the school district needs to build a new
31 school building for these reasons, the school facilities board shall remove
32 the square footage computations that represent the building from the
33 computation of the school district's total square footage for purposes of
34 this section. If the square footage recomputation reflects that the school
35 district no longer meets building adequacy standards, the school district
36 qualifies for a distribution of monies from the new school construction
37 formula in an amount determined pursuant to subsection D of this section.
38 The school facilities board may only modify the base cost per square foot
39 prescribed in this subsection under extraordinary circumstances for
40 geographic factors or site conditions.

41 H. School districts that receive monies from the new school facilities
42 fund shall establish a district new school facilities fund and shall use the
43 monies in the district new school facilities fund only for the purposes
44 prescribed in this section. By October 15 of each year, each school district
45 shall report to the school facilities board the projects funded at each

1 school in the previous fiscal year with monies from the district new school
2 facilities fund and shall provide an accounting of the monies remaining in
3 the new school facilities fund at the end of the previous fiscal year.

4 I. If a school district has surplus monies received from the new
5 school facilities fund, the school district may use the surplus monies only
6 for capital purposes for the project for up to one year after completion of
7 the project. If the school district possesses surplus monies from the new
8 school construction project that have not been expended within one year of
9 the completion of the project, the school district shall return the surplus
10 monies to the school facilities board for deposit in the new school
11 facilities fund.

12 J. The board's consideration of any application filed after
13 December 31 of the year in which the property becomes territory in the
14 vicinity of a military airport or ancillary military facility as defined in
15 section 28-8461 for monies to fund the construction of new school facilities
16 proposed to be located in territory in the vicinity of a military airport or
17 ancillary military facility shall include, if after notice is transmitted to
18 the military airport pursuant to section 15-2002 and before the public
19 hearing the military airport provides comments and an analysis concerning
20 compatibility of the proposed school facilities with the high noise or
21 accident potential generated by military airport or ancillary military
22 facility operations that may have an adverse effect on public health and
23 safety, consideration and analysis of the comments and analysis provided by
24 the military airport before making a final determination.

25 K. If a school district uses its own project manager for new school
26 construction, the members of the school district governing board and the
27 project manager shall sign an affidavit stating that the members and the
28 project manager understand and will follow the minimum adequacy requirements
29 prescribed in section 15-2011.

30 L. The school facilities board shall establish a separate account in
31 the new school facilities fund designated as the litigation account to pay
32 attorney fees, expert witness fees and other costs associated with litigation
33 in which the school facilities board pursues the recovery of damages for
34 deficiencies correction that resulted from alleged construction defects or
35 design defects that the school facilities board believes caused or
36 contributed to a failure of the school building to conform to the building
37 adequacy requirements prescribed in section 15-2011. Attorney fees paid
38 pursuant to this subsection shall not exceed the market rate for similar
39 types of litigation. On or before December 1 of each year, the school
40 facilities board shall report to the joint committee on capital review the
41 costs associated with current and potential litigation that may be paid from
42 the litigation account.

43 M. Until the state board of education and the auditor general adopt
44 rules pursuant to section 15-213, subsection I, the school facilities board
45 may allow school districts to contract for construction services and

1 materials through the qualified select bidders list method of project
2 delivery for new school facilities pursuant to this section.

3 N. The school facilities board shall submit electronically a report on
4 project management services and preconstruction services to the governor, the
5 president of the senate and the speaker of the house of representatives by
6 December 31 of each year. The report shall compare projects that use project
7 management and preconstruction services with those that do not. The report
8 shall address cost, schedule and other measurable components of a
9 construction project. School districts, construction manager at risk firms
10 and project management firms that participate in a school facilities board
11 funded project shall provide the information required by the school
12 facilities board in relation to this report.

13 O. If a school district constructs new square footage according to
14 section 15-342, paragraph 33, the school facilities board shall review the
15 design plans and location of any new school facility submitted by school
16 districts and another party to determine whether the design plans comply with
17 the adequacy standards prescribed in section 15-2011 and the square footage
18 per pupil requirements pursuant to subsection D, paragraph 3, subdivision (b)
19 of this section. When the school district qualifies for a distribution of
20 monies from the new school facilities fund according to this section, the
21 school facilities board shall distribute monies to the school district from
22 the new school facilities fund for the square footage constructed under
23 section 15-342, paragraph 33 at the same cost per square foot established by
24 this section that was in effect at the time of the beginning of the
25 construction of the school facility. Before the school facilities board
26 distributes any monies pursuant to this subsection, the school district shall
27 demonstrate to the school facilities board that the facilities to be funded
28 pursuant to this section meet the minimum adequacy standards prescribed in
29 section 15-2011. The agreement entered into pursuant to section 15-342,
30 paragraph 33 shall set forth the procedures for the allocation of these funds
31 to the parties that participated in the agreement.

32 P. Accommodation schools are not eligible for monies from the new
33 school facilities fund.

34 Sec. 30. Laws 2014, chapter 16, section 5 is amended to read:

35 Sec. 5. School district charter schools; adjustments

36 A. Notwithstanding any other law, for fiscal year 2015-2016, the
37 department of education shall compute K-12 equalization formula funding for
38 students who in fiscal year 2014-2015 attended school district charter
39 schools that converted to charter school status or that began operating as
40 new schools under charter school status in fiscal year 2013-2014 as if those
41 students had attended school district non-charter schools in fiscal year
42 2014-2015 and shall adjust student counts and budget limits for fiscal year
43 2015-2016 accordingly, EXCEPT THAT ANY ADJUSTMENT IN STUDENT COUNTS THAT IS
44 MADE PURSUANT TO THIS SUBSECTION DOES NOT MAKE A SCHOOL DISTRICT ELIGIBLE FOR

1 DISTRICT ADDITIONAL ASSISTANCE GROWTH FUNDING PURSUANT TO SECTION 15-961,
2 SUBSECTION B, PARAGRAPH 3, ARIZONA REVISED STATUTES.

3 B. NOTWITHSTANDING ANY OTHER LAW, FOR FISCAL YEAR 2016-2017, THE
4 DEPARTMENT OF EDUCATION SHALL COMPUTE DISTRICT ADDITIONAL ASSISTANCE FUNDING
5 FOR STUDENTS WHO ATTENDED SCHOOL DISTRICT CHARTER SCHOOLS IN FISCAL YEAR
6 2015-2016 AS IF THOSE STUDENTS HAD ATTENDED SCHOOL DISTRICT NON-CHARTER
7 SCHOOLS IN FISCAL YEAR 2015-2016 AND SHALL ADJUST STUDENT COUNTS AND BUDGET
8 LIMITS PERTAINING TO DISTRICT ADDITIONAL ASSISTANCE FOR FISCAL YEAR 2016-2017
9 ACCORDINGLY, EXCEPT THAT ANY ADJUSTMENT IN STUDENT COUNTS THAT IS MADE
10 PURSUANT TO THIS SUBSECTION DOES NOT MAKE A SCHOOL DISTRICT ELIGIBLE FOR
11 DISTRICT ADDITIONAL ASSISTANCE GROWTH FUNDING PURSUANT TO SECTION 15-961,

13 It is the intent of the legislature that school districts that operated
14 district-sponsored charter schools in fiscal year 2015-2016 receive

16 for former district-sponsored charter school pupils that those school
17 districts received in fiscal year 2015-2016 for district-sponsored charter
18 school pupils. For the purposes of this section, "incremental monies" means
19 the additional funding that a district-sponsored charter school receives per

22 Sec. 42. New school facilities funding; fiscal years 2016-2017
23 and 2017-2018

28 board, the school district may use any legally available monies to pay for
29 the project approved by the school facilities board and may reimburse the
30 fund from which the monies were used in subsequent years with the remaining
31 legislative appropriations when made available by this state.

32 B. Subsection A of this section applies only to monies appropriated to
33 the school facilities board for new school facilities during fiscal years
