Sec. 4. Legislative intent

It is the intent of the legislature that the changes made by this act
to section 32-1974, Arizona Revised Statutes, allow families greater access
to immunizations and vaccinations, maintain and enhance collaboration between
pharmacists and primary care providers and affirm the importance of annual
well-child visits in a medical home during critical developmental ages. This
act recognizes the efficiencies and improved outcomes when care is delivered
through a medical home where a primary care provider working in collaboration
with the family and other providers oversees acute, chronic and preventative
health needs in a coordinated and comprehensive fashion.
