A. The management and control of the joint district are vested in the
joint technical education district governing board, including the content and
quality of the courses offered by the district, the quality of teachers who
provide instruction on behalf of the district, the salaries of teachers who
provide instruction on behalf of the district and the reimbursement of other
entities for the facilities used by the district. Unless the governing
boards of the school districts participating in the formation of the joint
district vote to implement an alternative election system as provided in
subsection B of this section, the joint board shall consist of five members
elected from five single member districts formed within the joint district.
The single member district election system shall be submitted as part of the
plan for the joint district pursuant to section 15-392 and shall be
established in the plan as follows:

1. The governing boards of the school districts participating in the
formation of the joint district shall define the boundaries of the single
member districts so that the single member districts are as nearly equal in
population as is practicable, except that if the joint district lies in part
in each of two or more counties, at least one single member district may be
entirely within each of the counties comprising the joint district if this
district design is consistent with the obligation to equalize the population
among single member districts.

2. The boundaries of each single member district shall follow election
precinct boundary lines, as far as practicable, in order to avoid further
segmentation of the precincts.

3. A person who is a registered voter of this state and who is a

or election for any other governing board if the member is serving in the
last year of a term of office. A member of a governing board shall resign
the member's seat on the governing board before becoming a candidate for
nomination or election to the governing board of any other school district or

is serving in the last year of a term of office.

4. Nominating petitions shall be signed by the number of qualified
electors of the single member district as provided in section 16-322.

B. The governing boards of the school districts participating in the

based on actual registration of pupils as of March 30 scheduled to attend
classes that will be operated by the joint district. The student count for
the district of residence of the pupils registered at the joint district
shall be adjusted. The adjustment shall cause the district of residence to
reduce the student count for the pupil to reflect the courses to be taken at
the joint district. The district of residence shall review and approve the
adjustment of its own student count as provided in this subdivision before
the pupils from the school district can be added to the student count of the
joint district.
   (b) The student count for the new joint district shall be the student

For the purposes of this paragraph, "district of residence" means the district that included the pupil in its average daily membership for the year before the first year of operation of the joint district and that would have included the pupil in its student count for the purposes of computing its base support level for the fiscal year of the first year of operation of the joint district if the pupil had not enrolled in the joint district.

G. paragraph does not apply from and after December 31, 2016.

S. R. A student who is enrolled in an accommodation school as defined
in section 15-101 may be treated as a student of the school district in which
the student physically resides for the purposes of enrollment in a joint
technical education district and shall be included in the calculation of
average daily membership for either the joint technical education district or
the accommodation school, or both.

district or charter school that experiences a reduction in its base support
level funding pursuant to subsection U of this section may use a portion of
joint technical education district monies that it receives pursuant to this
section in order to offset the loss of regular education funding that it
experiences pursuant to subsection U of this section. The amount of joint
technical education monies that the school district or charter school may use
to offset the loss of funding that it experiences pursuant to subsection U of
this section may not exceed the reduction in base support level funding that
it experiences pursuant to subsection U of this section.

Y. U. The governing board of the joint technical education district
may contract with any charter school that is located within the boundaries of
the joint technical education district to allow that charter school to offer
