AN ACT

(TEXT OF BILL BEGINS ON NEXT PAGE)
Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 11-861, Arizona Revised Statutes, is amended to read:

11-861. Adoption of codes by reference; limitations; method of adoption; fire sprinklers; fire apparatus access roads or approved routes; intent; state preemption; fire watch requirements; pool barrier gates

A. In any county that has adopted zoning pursuant to this chapter, the board of supervisors may adopt and enforce, for the unincorporated areas of the county so zoned, a building code and other related codes to regulate the quality, type of material and workmanship of all aspects of construction of buildings or structures, except that the board may authorize that areas zoned rural or unclassified may be exempt from the provisions of the code adopted. The codes may be adopted by reference after notice and hearings before the county planning and zoning commission and board of supervisors as provided in this chapter for amendments to the zoning ordinance of the county.

B. The board of supervisors may adopt a fire prevention code in the unincorporated areas of the county in which a fire district has not adopted a nationally recognized fire code pursuant to section 48-805. Any fire code adopted by a board of supervisors pursuant to this subsection shall remain in effect until a fire district is established and adopts a code applicable within the boundaries of the district.

C. For the purpose of this article, codes authorized by subsections A and B of this section shall be limited to the following:

1. Any building, electrical, plumbing or mechanical code that has been adopted by any national organization or association that is organized and conducted for the purpose of developing codes or that has been adopted by the largest city in that county. If the board of supervisors adopts a city code, it shall adopt, within ninety days after receiving a written notification of a change to the city code, the same change or shall terminate the adopted city code.

2. Any fire prevention code that has been adopted by a national organization or association organized or conducted for the purpose of developing fire prevention codes and that is as stringent as the state fire code adopted pursuant to section 41-2146 37-1307.

D. The board of supervisors may adopt a current wildland-urban interface code. The code may be adapted from a model code adopted by a national or international organization or association for mitigating the hazard to life and property. The board must follow written public procedures in the development and adoption of the code and any revisions to the code to provide effective, early and continuous public participation through:

1. The broad dissemination and publicity of the proposed code and any revisions to the code.

2. The opportunity for submission and consideration of written public comments.
3. Open discussions, communications programs and information services.
4. Consultation with federal agencies and state and local officials.

E. The board of supervisors shall not adopt a code or ordinance or part of a uniform code or ordinance that prohibits a person or entity from choosing to install or equip or not install or equip fire sprinklers in a single family detached residence or any residential building that contains not more than two dwelling units. The board of supervisors shall not impose any fine, penalty or other requirement on any person or entity for choosing to install or equip or not install or equip fire sprinklers in such a residence. This subsection does not apply to any code or ordinance that requires fire sprinklers in a residence and that was adopted before December 31, 2009. The provisions of this subsection shall be included on all fire sprinkler permit applications that are for a single family detached residence or any residential building that contains not more than two dwelling units.

F. A fire sprinkler permit application may be in either print or electronic format.

G. A board of supervisors may not adopt any, or part of any, fire code, ordinance, stipulation or other legal requirement for an approved fire apparatus access road or a fire apparatus access road extension, or both, or an approved route or a route extension, or both, that directly or indirectly requires a one or two family residence or a utility or miscellaneous accessory building or structure to install fire sprinklers. A fire code official may increase or extend an approved fire apparatus access road or a fire apparatus access road extension, or both, or an approved route or a route extension, or both, to comply with this subsection. Compliance with this subsection is not grounds to deny or suspend a license or permit. This subsection may be enforced in a private civil action and relief, including an injunction, may be awarded against a county. The court shall award reasonable attorney fees, damages, lost opportunity costs, interest and the cost of the sprinkler system to a party that prevails in an action against a county for a violation of this subsection. The legislature finds and determines that property rights are a matter of statewide concern and a fundamental element of freedom. A property owner's right to use the property owner's property must be protected from unreasonable abridgment by county regulation and enforcement. This subsection supersedes and preempts any regulation adopted by a county regarding an approved fire apparatus access road, fire apparatus access road extension, approved route or route extension. For the purposes of this subsection:

1. "Fire code" includes the international fire code, however denominated.

2. "Utility or miscellaneous accessory building or structure" includes an agricultural building, aircraft hangar, accessory to a residence, barn, carport, fence that is more than six feet high, grain silo, greenhouse,
livestock shelter, private garage, retaining wall, shed, stable, tank or tower.

H. If a fire code adopted by a board of supervisors requires the use of a fire watch, an employee who works at the building in which a fire watch is required may serve as the fire watch. A person who is designated as a fire watch shall be equipped with means to contact the local fire department, and the person's only duty while keeping watch for fires shall be to perform constant patrols of the protected premises. The county shall provide the fire watch with printed instructions from the state fire marshal and may provide a free training session before the person's deployment as the fire watch begins. For the purposes of this subsection, "fire watch" means a person who is stationed in a building or in a place relative to a building to observe the building and its openings when the fire protection system for the building is temporarily nonoperational or absent.

I. From and after December 31, 2014, a code or ordinance or part of a uniform code or ordinance that is adopted by the board of supervisors applies to locking devices for pool barrier gates used for means of ingress or egress for semipublic swimming pools. Any new construction or major renovation of a semipublic swimming pool from and after December 31, 2014 must meet the requirements of the code or ordinance or part of the uniform code or ordinance that is adopted by the board of supervisors. This subsection does not apply to a locking device for a pool barrier gate used for means of ingress or egress for a semipublic swimming pool that was installed before January 1, 2015, if the locking device meets the requirements prescribed in section 36-1681, subsection B, paragraph 3.

The response shall be sent to the address identified in the notice.

D. Within ten business days after receipt of the certified mail containing the response from the member, the association shall respond to the member with a written explanation regarding the notice that shall provide at least the following information unless previously provided in the notice of violation:

2. The date of the violation or the date the violation was observed.
3. The first and last name of the person or persons who observed the violation.

constructed in compliance with applicable building, plumbing, electrical, fire prevention and mechanical codes adopted by the city, town, county or fire district in which the building is located. The owner of the public building is subject to the same fees required of other persons. Public buildings are subject to inspection during construction pursuant to these codes to determine compliance.

B. If a public building is built in an area that has not adopted local codes, the building shall be designed or constructed according to the state fire code adopted by the state fire marshal and the building, plumbing, electrical, fire prevention and mechanical codes that apply in the largest city in the county in which the building is located.

C. Public buildings are subject to those codes that apply and are in effect when the building is designed or constructed and to the currently adopted codes when a building is found to be structurally unsafe, without adequate egress or a fire hazard or is otherwise dangerous to human life.

D. Subsections A and B of this section do not apply to state owned buildings except for the application of the fire code in effect where a state owned building is located. In complying with the applicable codes pursuant to subsections A and B of this section, the permitting process and fees do not apply to a public school district owned building in a county with a population of more than seven hundred fifty thousand persons but less than two million persons except for the application of the design and permitting process and any fee required of a fire code in effect where such a public school district owned building is located. F. This section does not preclude a public school district in a county with a population of more than seven hundred fifty thousand persons but less than two million persons from submitting, at its discretion, to the building design or construction permitting process of the appropriate local government entity for any given project. A public school district making such a decision is subject to subsections A and B of this section and the permit and code compliance requirements of the local government entity, including inspections and fee payments that may be required, for the duration of the project that the district submitted to the local government entity.

G. Public school districts in a county with a population of more than seven hundred fifty thousand persons but less than two million persons shall adopt policies to provide requirements to be followed by licensed or
registered contractors or employees in order to ensure THAT construction
projects are in compliance with the applicable codes pursuant to subsections
A and B of this section and that records required by code or law for a given
project are completed and maintained by the applicable district. At a

section.

4. Notwithstanding the limitations in paragraph 3 of this subsection, monies that were previously obligated but not used for a declared emergency or disaster may be reallocated to an outstanding obligation for another declared emergency or disaster and shall remain available for expenditure for the outstanding obligation. Sec. 45. Section 37-1303, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

37-1303. **Suppression of wildfires; powers and duties of state forester; entry on private lands**

A. The state forester shall have authority to prevent and suppress any wildfires on state and private lands located outside incorporated municipalities and, if subject to cooperative agreements, on other lands located in this state or in other states, Mexico or Canada. If there is no cooperative agreement, the state forester may furnish wildfire suppression services on any lands in this state if the state forester determines that
suppression services are in the best interests of this state and are immediately necessary to protect state lands.

B. In exercising the authority to prevent wildfires, if the state forester declares a prohibition on fire causing activities and fireworks, the state forester shall post a notice of the action in the office of the secretary of state and shall notify the news media. The notice shall clearly state which types of activities are prohibited, where they are prohibited and whether permits that are issued by other governmental entities are affected by the action.

C. The state forester shall have responsibility to prevent and suppress wildfires only on lands covered by cooperative fire agreements.

D. The state forester may request the governor to declare a wild land fire emergency pursuant to section 35-192. If liabilities are authorized under both sections 35-192 and 37-623.02 37-1305, the authorization under section 37-623.02 37-1305 must be exhausted before any liabilities may be incurred under section 35-192.

E. The state forester shall cooperate and coordinate with the state fire marshal in the administration of the state fire code in the prevention of fires on rural lands and wild lands.

F. The state forester may enter into cooperative agreements with other state and federal agencies, departments and political subdivisions and any person for:
   1. Prevention and suppression of wildfires.
   2. Assistance with fire and nonfire national and state emergencies and multiagency logistical support in this state and other states.
   3. Activities pursuant to the wildfire suppression assistance act (P.L. 101-11; 103 Stat. 15; 42 United States Code sections 1856m through 1856o) in Mexico and Canada.

G. The state forester may enter private lands in performing the duties under this section.

H. The state forester may enter into agreements to utilize private landowners' equipment and personnel if the fire is on or adjacent to such private landowners' property.

Sec. 46. Section 37-1305, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

37-1305. Emergencies; prohibiting fireworks; liabilities and expenses; fire suppression revolving fund

A. On request of the state forester, the governor may authorize the state forester to incur liabilities for suppressing wildland fires and responding to other unplanned all risk activities from unrestricted monies in the state general fund whether or not the legislature is in session.

B. The state forester has the authority to prohibit the use of fireworks during times of high fire potential in the unincorporated areas of the state.
C. The state forester or the state forester's designee shall review all liabilities incurred and expenditures made under this section and shall report the expenditures to the department of administration for audit according to department of administration rules. The state forester shall transmit a copy of the report to the state emergency council.

D. Liabilities incurred under this section are subject to the following limitations:

1. Wildland fire suppression or other unplanned all risk emergency liabilities shall not exceed three million dollars of state general fund monies pursuant to subsection A of this section in a fiscal year for costs associated with suppressing wildland fires, supporting other unplanned all risk activities such as fire, flood, earthquake, wind and hazardous material responses and preparing for periods of extreme fire danger and pre-position equipment and other fire suppression resources to provide for enhanced initial attack on wildland fires. The state forester shall not incur nonreimbursable liabilities for support of nonfire all risk activities. The governor shall determine when periods of extreme fire danger exist and must approve any expenditure for pre-positioning activities.

2. If the funding authorization in paragraph 1 of this subsection is exhausted, or if the nonreimbursable liabilities incurred exceed the cash balance of the fire suppression revolving fund, the state forester shall not incur additional liabilities without the consent of a majority of the state emergency council as authorized by section 35-192.

E. The state forester shall process and pay claims for reimbursement for wildland fire suppression services as follows:

1. Except as provided by paragraph 2 of this subsection, within thirty days after receiving a complete and correct claim for wildland fire suppression services, the state forester shall pay the claim from available monies that have not been committed to the payment of other wildfire expenses.

2. Within thirty days after receiving a complete and correct claim for wildland fire suppression services on federal lands, the state forester shall complete the processing of the claim and forward the claim to the appropriate federal agency.

3. For any valid claim other than for federal reimbursement, if there is insufficient funding in the fire suppression revolving fund, the holder of the unpaid claim shall be issued a certificate pursuant to section 35-189.

F. Monies received for suppressing wildland fires, pre-positioning equipment and firefighting resources and other unplanned all risk activities may be used for the purposes of section 37-622 37-1303 and this section.

G. The state forester shall adopt rules for administering the wildland fire suppression monies authorized under this section, subject to approval of the governor.

H. The state forester may require reimbursement from cities and other political subdivisions of this state and state and federal agencies for costs
incurred in the suppression of wildland fires, pre-suppression or unplanned all risk activities. Reimbursement shall be based on the terms and conditions in cooperative agreements, land ownership or negligence. The state forester may require reimbursement from individuals or businesses only for costs incurred in the suppression of wildland fires or unplanned all risk activities caused by their negligence or criminal acts.

I. The fire suppression revolving fund is established consisting of civil penalties collected pursuant to section 36-1610 and monies received by the state forester for wildland fire suppression and pre-positioning equipment and resources and for payment for activities related to combating wildland fires and supporting other unplanned all risk activities such as fire, flood, earthquake, wind and hazardous material responses. The state forester shall not incur nonreimbursable liabilities for support of nonfire all risk activities. The state forester shall administer the fund, and all monies received for these activities shall be deposited, pursuant to sections 35-146 and 35-147, in the fund. Monies in the fire suppression revolving fund are continuously appropriated to the state forester, except that if the unobligated balance of the fund exceeds two million dollars at the end of any calendar year, the excess shall be transferred to the state general fund. Monies in the fire suppression revolving fund are otherwise exempt from the provisions of section 35-190 relating to lapsing of appropriations.

Sec. 54. Section 37-1402, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

37-1402. Test method and performance standard; civil penalty; reports

A. Except as provided in subsection I of this section, cigarettes may not be sold or offered for sale in this state or offered for sale or sold to persons located in this state unless both of the following occur:

1. The cigarettes are tested pursuant to the test method prescribed in this section and meet the performance standard prescribed in this section.

2. The manufacturer files a written certification with the state fire marshal pursuant to section 41-2170.02 and marks the cigarettes pursuant to section 41-2170.03.

B. The tests prescribed in subsection A, paragraph 1 of this section shall conform to the following standards:

1. Testing of cigarettes shall be conducted pursuant to the American society of testing and materials standard E2187-04, "standard test method for measuring the ignition strength of cigarettes".

2. Testing shall be conducted on ten layers of filter paper.

3. Not more than twenty-five percent of the cigarettes tested in a test trial pursuant to this section shall exhibit full-length burns. Forty replicate tests comprise a complete test trial for each cigarette tested.

4. The performance standard required by this subsection is applied only to a complete test trial.

5. Written certifications shall be based on testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the international organization for standardization or other comparable accreditation standard required by the state fire marshal.

6. Laboratories conducting testing pursuant to this subsection shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results. The repeatability value shall not be greater than 0.19.

7. Additional testing is not required if cigarettes are tested consistent with this article for any other purpose.

8. Testing performed or sponsored by the state fire marshal to determine a cigarette's compliance with the performance standard required by this subsection shall be conducted pursuant to this subsection.

C. Each cigarette listed in a certification submitted pursuant to section 41-2170.02 that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standard
prescribed in this section shall have at least two nominally identical bands on the paper surrounding the tobacco column. At least one complete band shall be located at least fifteen millimeters from the lighting end of the cigarette. For cigarettes on which the bands are positioned by design, there shall be at least two bands fully located at least fifteen millimeters from the lighting end and ten millimeters from the filter end of the tobacco column or ten millimeters from the labeled end of the tobacco column for nonfiltered cigarettes.

D. A manufacturer of a cigarette that the state fire marshal determines cannot be tested pursuant to the test method prescribed in subsection B, paragraph 1 of this section shall propose a test method and performance standard for the cigarette to the state fire marshal. On approval of the proposed test method and a determination by the state fire marshal that the performance standard proposed by the manufacturer is equivalent to the performance standard prescribed in subsection B, paragraph 3 of this section, the manufacturer may employ that test method and performance standard to certify the cigarette pursuant to section 41-2170.02 37-1403. If the state fire marshal determines that another state has enacted reduced cigarette ignition propensity standards that include a test method and performance standard that are the same as those prescribed in this article, and the state fire marshal finds that the officials responsible for implementing those requirements have approved the proposed alternative test method and performance standard for a particular cigarette proposed by a manufacturer as meeting the fire safety standards of that state's law or regulation under a legal provision comparable to this section, the state fire marshal shall authorize that manufacturer to employ the alternative test method and performance standard to certify that cigarette for sale in this state, unless the state fire marshal demonstrates a reasonable basis why the alternative test should not be accepted pursuant to this article. All other applicable requirements of this section apply to the manufacturer.

E. Each manufacturer shall maintain copies of the reports of all tests conducted on all cigarettes offered for sale for three years and shall make copies of these reports available to the state fire marshal and the attorney general on written request. Any manufacturer who fails to make copies of these reports available within sixty days after receiving a written request is subject to a civil penalty of not to exceed ten thousand dollars for each day after the sixtieth day that the manufacturer does not make the copies available.

F. The state fire marshal may adopt a subsequent American society of testing and materials standard test method for measuring the ignition strength of cigarettes on a finding that the subsequent method does not result in a change in the percentage of full-length burns exhibited by any tested cigarette if compared to the percentage of full-length burns the same cigarette would exhibit if it were tested pursuant to the American society of
testing and materials standard E2187-04 and the performance standard
prescribed in subsection B, paragraph 3 of this section.

G. The state fire marshal shall review the effectiveness of this
section and report every three years to the legislature on the state fire
marshal's findings and any recommendations for legislation to improve the
effectiveness of this section. The state fire marshal shall submit the
report and legislative recommendations on or before July 1 of each three-year
period.

H. The state fire marshal shall notify the governor, the speaker of
the house of representatives and the president of the senate in writing
immediately after a federal reduced cigarette ignition propensity standard
that preempts the standard prescribed in this article becomes effective.

I. This section does not prohibit either of the following:
1. Wholesalers or retailers from selling their existing inventory of
cigarettes on or after August 1, 2009 if the wholesaler or retailer can
establish that state tax stamps were affixed to the cigarettes before August
1, 2009 and the wholesaler or retailer can establish that the inventory was
purchased before August 1, 2009 in comparable quantity to the inventory
purchased during the same period of the prior year.
2. The sale of cigarettes solely for the purpose of consumer testing.
For the purposes of this paragraph, "consumer testing" means an assessment of
cigarettes that is conducted by a manufacturer, or under the control and
direction of a manufacturer, for the purpose of evaluating consumer
acceptance of the cigarettes, using only the quantity of cigarettes that is
reasonably necessary for such an assessment.

Any altered cigarette that does not meet the performance standard prescribed in section 41-2170.01 may not be sold in this state.

F. The state fire marshal may adopt rules requiring each manufacturer to pay to the state fire marshal a fee of two hundred fifty dollars per brand family of cigarettes certified in compliance with this section. The fee applies to all cigarettes within the brand family certified and includes any new cigarette brand style within the brand family during the three-year certification period.

On its own motion, the board may revise or repeal any exception.

Sec. 74. Section 41-4021, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

The purpose of the office of administration within the ARIZONA department of fire, building and life safety HOUSING is to provide the administrative services necessary to facilitate the operation of the office of manufactured housing and the office of state fire marshal, including procedures to ensure compliance with laws and rules relating to those offices.

Sec. 75. Section 41-4023, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

Sec. 76. Section 41-4026, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4026. Issuance of a license

A. Upon receipt by the deputy director of the nonrefundable fee required by this article and an application furnishing complete information
as required by the deputy director and upon the applicant taking and passing the applicable examination required by section 41-2175, the deputy director shall issue a license to the applicant, pending completion of the background analysis, permitting the applicant to engage in business pursuant to this article for one year.

B. Pursuant to the agreement for conditional license, the applicant shall agree to a revocation of the conditional license if it appears, on review of the background analysis, that the applicant has misrepresented its background. The applicant shall also agree to waive any right the applicant may have to a stay of the effectiveness of any order of revocation of the conditional license, the right to notice of hearing and the right to a hearing before the revocation of the license.

C. The agreement for conditional license does not prohibit the applicant from making a written demand for a hearing on the order of revocation pursuant to chapter 6, article 10 of this title. Pending the hearing, the applicant shall not continue to transact business under the conditional license.

D. On completion of the background analysis, the director may issue either a permanent or a probationary license, depending on the results of the background analysis.

E. Licenses issued pursuant to this article and any annual renewals shall be signed by the deputy director or the deputy director's designated representative and by the licensee. The license is nontransferable and satisfactory evidence of the possession shall be exhibited by the licensee upon demand. The license held by the licensee shall be posted in a conspicuous place on the premises where any business is being performed. A license card shall be carried by the person doing the work away from the premises where the license is posted. The license number shall be written on any contract entered into by the licensee.

F. If an application for a license is denied or if the applicant fails to supply complete and correct required information within ninety days or fails to pass the required written examination within ninety days after filing or if an application for renewal is not completed by the expiration date or if any applicant requiring examination after having been notified by letter of the date to appear fails to appear for the examination within ninety days from the date of filing the application, the fee paid by the applicant filing the application is forfeited and the application is terminated. A reapplication for a license shall be accompanied by the fee prescribed by the deputy director.

G. If, before the issuance of the license, information brought to the attention of the deputy director concerning the qualifications of the applicant is such that in the deputy director's discretion it may be proper to deny the license, the deputy director may notify the applicant that the license is denied and that the applicant may request in writing a hearing if the applicant so desires.
H. The licensee may not engage in the sale of units, either new or used, unless the licensee maintains an office where the records are available for inspection and the location is listed on the license application as the principal place of business.

Sec. 77. Section 41-4027, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4027. Renewal of licenses; license status

A. Licenses issued under this article shall expire one year after the date of issuance. An application for renewal of any current license with evidence of a valid bond or cash deposit when accompanied by the required fee and received by the deputy director before the expiration date shall authorize the licensee to operate until actual issuance of the renewal license for the ensuing year.

B. A license which expires may be reactivated and renewed within one year of its expiration by filing the required renewal application, signed by the licensee or qualifying party for a business licensee, evidence of a valid bond and payment of a fee of one hundred twenty-five percent of the amount required for that license class. When a license has been expired for more than one year for failure to renew, a new application for license shall be made and a new license issued pursuant to this article. If the license has been expired for more than one year, the fee required shall be two hundred percent of the fee required for that license class.

C. An applicant for renewal of a license issued pursuant to this article shall not be required to take a written examination.

D. A license is not transferable. Any change in the legal entity of a licensee that includes any change in the ownership of a sole proprietorship or a partner of a partnership or in the creation of a new corporate entity requires a new license.

E. A license may be cancelled on the written request of the owner of a sole proprietorship, a partner of a partnership or, in the case of a corporation, any person with written evidence of his authority to request the cancellation. A salesperson's license may be cancelled on the written request of the salesperson. The director may refuse to accept voluntary cancellation of a license if good cause may exist for disciplinary action.

F. If possible, the licensee shall notify the director in writing of the disassociation of a qualifying party before the action, and in any event no later than five business days after the action. The licensee shall also notify the director as to who will be temporarily responsible for the operation of the business. The absence of a written designated qualifying party for sixty days is grounds for suspension of the license. If a person ceases to be the qualifying party for a licensee, the person shall notify the office within five days.

G. An application for a new qualifying party shall include the completion of the prescribed forms, fingerprints and testing, if applicable, in accordance with sections 41-2175 41-4025 and 41-2176 41-4026.
H. A licensee may request the deputy director, on forms prescribed by the deputy director, to inactivate the licensee's current license for a period of not more than two years. In the absence of any disciplinary proceeding or disciplinary suspension and on payment of reasonable fees determined by the board the deputy director may issue an inactive license certificate to the licensee if the licensee has turned in his license. The inactive license certificate may consist of an endorsement on the licensee's license stating that the license is inactive. The deputy director may not refund any of the license renewal fee which a licensee paid before requesting inactive status. A licensee's license which is not suspended or revoked and is inactive shall be reactivated as an active license on payment of the current year's renewal fee and thirty days' written notice to the deputy director. No examination may be required to reactivate an inactive license. If the license is not reactivated within two years, a new application for licensing must be made and the new license issued pursuant to this chapter. No licensee may inactivate the license more than once. The holder of an inactive license shall not work as a licensee until his license is reactivated as an active license. The inactive status of a licensee's license does not bar any disciplinary action by the deputy director against a licensee for any of the grounds stated in this chapter.

Sec. 78. Section 41-4031, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4031. Complaints; citation; failure to respond; hearing
A. The office shall issue a citation upon failure to respond or upon the verified written complaint of a purchaser pursuant to section 41-2153 41-4004, subsection B, paragraph 9 and shall issue a citation directing the licensee, within ten days after service of the citation upon the licensee, to appear by filing with the office a verified answer to the complaint showing cause why the license should not be revoked or suspended. The deputy director, after conducting an investigation pursuant to section 41-2186 41-4039, may issue a citation on the deputy director's own initiative.
B. Failure of the licensee to answer shall be deemed an admission by the licensee of the cited complaint or failure to respond as charged in the citation, and the office may suspend or revoke such license without a hearing.
C. A person served with a citation or with a cease and desist order by the state fire marshal may request a hearing pursuant to chapter 6, article 10 of this title.

Sec. 79. Section 41-4032, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4032. Cosmetic complaints; process; walk-through; definition
A. Notwithstanding sections 41-2153 41-4004 and 41-2181 41-4031, a purchaser of a new manufactured home shall file a complaint concerning cosmetic, superficial or minor matters relating to the manufactured home no
more than one hundred twenty days after the date of installation or the
designated cosmetic complaint date prescribed in section 41-2182.01 41-4033.

B. The deputy director shall not process or verify a complaint
described in subsection A of this section if the complaint is filed more than
one hundred twenty days after the date of installation or the designate
cosmetic complaint date prescribed in section 41-2182.01 41-4033, unless the
deputy director finds, after written notice to the interested parties, that
the complaint involves major or structural matters relating to the
manufactured home.

C. The board shall adopt rules establishing procedures for complaints
filed pursuant to this section, including rules for determining the date of
installation of a new manufactured home.

D. This section does not apply if, within thirty days after the date
of installation or the designated cosmetic complaint date prescribed in
section 41-2182.01 41-4033, the manufacturer or dealer of the new
Manufactured home has not conducted a walk-through of the home with the
purchaser or the purchaser's representative and has not completed a
walk-through checklist on a form approved by the board. The walk-through
checklist form shall contain a notice to the purchaser, located immediately
above the signature lines and in bold print, advising the purchaser that all
cosmetic, superficial or minor matters found during the walk-through should
be listed on the form and that the complaint filing period for cosmetic,
superficial or minor matters is one hundred twenty days from either the date
of installation of the home or the designated cosmetic complaint date
prescribed in section 41-2182.01 41-4033.

E. For the purposes of this section, "cosmetic, superficial or minor
matters" means any defect or condition that renders a part of the home not
fit for its intended, expected or ordinary use or appearance, including
defects or conditions that involve the appearance of the home's structural,
electrical, plumbing, mechanical or gas systems. Cosmetic, superficial or
minor matters do not include defects or conditions involving the performance
of the home's structural, electrical, plumbing, mechanical or gas systems.

Sec. 80. Section 41-4033, Arizona Revised Statutes, as transferred and
renumbered, is amended to read:

41-4033. **Purchaser designation; cosmetic complaint date**

A. At the time of execution of the purchase contract a purchaser of a
new manufactured home may designate the beginning date for the one hundred
twenty day cosmetic complaint period.

B. The purchaser may not take possession of the home or move into the
home before the designated beginning date for the cosmetic complaint period
unless the dealer consents in writing.

C. The purchaser may change the designated beginning date for the
cosmetic complaint period by sending a written notice by certified mail to
the dealer who is listed on the purchase contract. The purchaser shall mail
the written notice before the designated beginning date.
D. If the purchaser designates a beginning date for the cosmetic complaint period, the dealer may schedule the walk-through pursuant to section 41-2182. If a dealer uses a form of purchase contract that does not notify the customer of the right to designate a cosmetic complaint date and does not include a space for this designation, the one hundred twenty day complaint period prescribed in section 41-2182 does not begin until the purchaser physically occupies the home with the purpose of residing in the home for more than thirty days.

Sec. 81. Section 41-4034, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4034. Drywall cracks; repair process; supplied paint
A. Drywall cracks that are a result of structural problems are not cosmetic, superficial or minor matters as defined in section 41-2182. Drywall cracks may be addressed in conjunction with the correction of the structural problem.
B. Drywall cracks that are not the result of structural problems are considered cosmetic, superficial or minor matters as defined in section 41-2182. Drywall cracks that are found during the walk-through may be included in the cosmetic complaint process and repaired by the dealer or manufacturer at the same time as all other cosmetic complaints. The purchaser may seek repair of or may complain about additional drywall cracks once before the end of the twelve month regular complaint period, and the dealer or manufacturer shall make one repair.
C. At the time of installation or at the time of the walk-through, the dealer or manufacturer shall supply the purchaser with two gallons of paint to match each interior color from the manufacturer’s order.

Sec. 82. Section 41-4035, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4035. Walk-through and complaint process
A. The purchaser and the dealer or manufacturer of the manufactured home shall schedule the walk-through pursuant to section 41-2182 by mutual agreement to the greatest extent possible. If the parties do not agree, the dealer or manufacturer may schedule the walk-through between fifteen and thirty days after the date of installation. The dealer or manufacturer shall notify the purchaser by certified mail of the time of the walk-through.
B. If a dealer or manufacturer schedules a walk-through without mutual agreement with the purchaser or pursuant to section 41-2182.01, the purchaser and the dealer or manufacturer may mutually agree to a revised date before the scheduled date. The revised date shall be no more than sixty days after the date of installation or the designated beginning date for the cosmetic complaint period.
C. If a purchaser or the purchaser's representative fails or refuses to attend a scheduled walk-through, the dealer or manufacturer shall note the purchaser's failure to attend on the checklist form and proceed with the walk-through. The dealer or manufacturer shall send a copy of the completed checklist form by certified mail to the purchaser within five business days after the walk-through date.

Sec. 83. Section 41-4036, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-4036. Repairs; complaints

A. Within ninety days after the end of the cosmetic complaint period the dealer or manufacturer shall repair or replace cosmetic, superficial or minor matters discovered on the walk-through unless an item necessary for the repair or replacement is unavailable and written notice of that fact is provided to the purchaser.

B. For cosmetic, superficial or minor matters found after the walk-through and before the one hundred twenty-day deadline, the purchaser shall notify the dealer in writing before a complaint may be filed, except if there are extenuating circumstances, such as serious illness, incapacity or death. The dealer or manufacturer shall replace or repair these items within ninety days after the end of the cosmetic complaint period.

C. The board shall adopt rules establishing procedures for scheduling repair and replacement of complaint items.

D. The purchaser may file a complaint with the office of manufactured housing on matters covered by this section if the complaint is filed within the twelve-month period prescribed by sections 41-2153 and 41-2181 and the licensee failed to repair or replace the items within the repair and replacement period or the repair or replacement does not comply with adopted codes or workmanship standards.

The confidential information may be introduced as evidence in the proceeding only if the taxpayer's name, the names of any dependents listed on the return, all social security numbers, the taxpayer's address, the taxpayer's signature and any attachments containing any of the foregoing information are redacted and if either:

1. The treatment of an item reflected on such return is or may be related to the resolution of an issue in the proceeding.

1. Federal, state or local agencies for the purposes of enforcement of corresponding laws of other states.

Information disclosed by the department under this subsection:

1. May only be used by the city, town or county for internal purposes.

The city, town or county must agree with the department in writing that any release of confidential information that violates the confidentiality standards will result in the immediate suspension of any rights of the city, town or county to receive information under this subsection.

Sec. 94. Section 42-5006, Arizona Revised Statutes, is amended to read:

42-5006. Taxpayer bonds; out of state licensed contractors and manufactured building dealers

A. Notwithstanding section 42-1102, the department shall require a surety bond for each taxpayer who is required to be licensed under title 32, chapter 10 or who is regulated under title 41, chapter 16, article 2, if the taxpayer's principal place of business is outside this state or if the taxpayer has conducted business in this state for less than one year. The department shall prescribe the form of the bond. The bond shall be maintained for a period of at least two years.

B. The bond, duly executed by the applicant as principal and with a corporation duly authorized to execute and write bonds in this state as surety, shall be payable to this state and conditioned on the payment of all transaction privilege taxes incurred and imposed on the taxpayer by this state and its political subdivisions. The bond shall be in such amount, but not less than two thousand dollars, as will assure the payment of the transaction privilege taxes which may reasonably be expected to be incurred by the licensed establishment for a period of one hundred fifty days.

C. The director, by rule, may establish classes of expected tax liability in five thousand dollar increments, beginning with the minimum bond amount prescribed in subsection B of this section. The bond shall provide that after notice and a hearing the director may order forfeited to this state and any affected political subdivision part or all of the bond for nonpayment of taxes, interest and penalties.

D. A licensee on application for a new license covered by subsection A of this section, renewal of a license covered by subsection A of this section or transfer of a license covered by subsection A of this section is exempt from posting a bond if the licensee has for at least two years immediately preceding the application made timely payment of all transaction privilege taxes incurred.

E. If a licensee is not exempt from this section, the director may exempt the licensee if the director finds that the surety bond is not necessary to insure payment of such taxes to the state and any affected political subdivision or the licensee had good cause for the late or insufficient payment of the transaction privilege tax and affiliated excise taxes incurred.
Sec. 95. Section 42-5075, Arizona Revised Statutes, is amended to read:

42-5075. **Prime contracting classification; exemptions; definitions**

A. The prime contracting classification is comprised of the business of prime contracting and the business of manufactured building dealer. Sales for resale to another manufactured building dealer are not subject to tax. Sales for resale do not include sales to a lessor of manufactured buildings. The sale of a used manufactured building is not taxable under this chapter.

B. The tax base for the prime contracting classification is sixty-five percent of the gross proceeds of sales or gross income derived from the business. The following amounts shall be deducted from the gross proceeds of sales or gross income before computing the tax base:

1. The sales price of land, which shall not exceed the fair market value.

2. Sales and installation of groundwater measuring devices required under section 45-604 and groundwater monitoring wells required by law, including monitoring wells installed for acquiring information for a permit required by law.

3. The sales price of furniture, furnishings, fixtures, appliances and attachments that are not incorporated as component parts of or attached to a manufactured building or the setup site. The sale of such items may be subject to the taxes imposed by article 1 of this chapter separately and distinctly from the sale of the manufactured building.

4. The gross proceeds of sales or gross income received from a contract entered into for the modification of any building, highway, road, railroad, excavation, manufactured building or other structure, project, development or improvement located in a military reuse zone for providing aviation or aerospace services or for a manufacturer, assembler or fabricator of aviation or aerospace products within an active military reuse zone after the zone is initially established or renewed under section 41-1531. To be eligible to qualify for this deduction, before beginning work under the contract, the prime contractor must have applied for a letter of qualification from the department of revenue.

5. The gross proceeds of sales or gross income derived from a contract to construct a qualified environmental technology manufacturing, producing or processing facility, as described in section 41-1514.02, and from subsequent construction and installation contracts that begin within ten years after the start of initial construction. To qualify for this deduction, before beginning work under the contract, the prime contractor must obtain a letter of qualification from the department of revenue. This paragraph shall apply for ten full consecutive calendar or fiscal years after the start of initial construction.
6. The gross proceeds of sales or gross income from a contract to provide for one or more of the following actions, or a contract for site preparation, constructing, furnishing or installing machinery, equipment or other tangible personal property, including structures necessary to protect exempt incorporated materials or installed machinery or equipment, and tangible personal property incorporated into the project, to perform one or more of the following actions in response to a release or suspected release of a hazardous substance, pollutant or contaminant from a facility to the environment, unless the release was authorized by a permit issued by a governmental authority:

   (a) Actions to monitor, assess and evaluate such a release or a suspected release.
   (b) Excavation, removal and transportation of contaminated soil and its treatment or disposal.
   (c) Treatment of contaminated soil by vapor extraction, chemical or physical stabilization, soil washing or biological treatment to reduce the concentration, toxicity or mobility of a contaminant.
   (d) Pumping and treatment or in situ treatment of contaminated groundwater or surface water to reduce the concentration or toxicity of a contaminant.
   (e) The installation of structures, such as cutoff walls or caps, to contain contaminants present in groundwater or soil and prevent them from reaching a location where they could threaten human health or welfare or the environment.

This paragraph does not include asbestos removal or the construction or use of ancillary structures such as maintenance sheds, offices or storage facilities for unattached equipment, pollution control equipment, facilities or other control items required or to be used by a person to prevent or control contamination before it reaches the environment.

7. The gross proceeds of sales or gross income that is derived from a contract for the installation, assembly, repair or maintenance of machinery, equipment or other tangible personal property that is either deducted from the tax base of the retail classification under section 42-5061, subsection B or that is exempt from use tax under section 42-5159, subsection B and that has independent functional utility, pursuant to the following provisions:

   (a) The deduction provided in this paragraph includes the gross proceeds of sales or gross income derived from all of the following:
   (i) Any activity performed on machinery, equipment or other tangible personal property with independent functional utility.
   (ii) Any activity performed on any tangible personal property relating to machinery, equipment or other tangible personal property with independent functional utility in furtherance of any of the purposes provided for under subdivision (d) of this paragraph.
(iii) Any activity that is related to the activities described in items (i) and (ii) of this subdivision, including inspecting the installation of or testing the machinery, equipment or other tangible personal property.

(b) The deduction provided in this paragraph does not include gross proceeds of sales or gross income from the portion of any contracting activity that consists of the development of, or modification to, real property in order to facilitate the installation, assembly, repair, maintenance or removal of machinery, equipment or other tangible personal property that is either deducted from the tax base of the retail classification under section 42-5061, subsection B or exempt from use tax under section 42-5159, subsection B.

(c) The deduction provided in this paragraph shall be determined without regard to the size or useful life of the machinery, equipment or other tangible personal property.

(d) For the purposes of this paragraph, "independent functional utility" means that the machinery, equipment or other tangible personal property can independently perform its function without attachment to real property, other than attachment for any of the following purposes:

(i) Assembling the machinery, equipment or other tangible personal property.

(ii) Connecting items of machinery, equipment or other tangible personal property to each other.

(iii) Connecting the machinery, equipment or other tangible personal property, whether as an individual item or as a system of items, to water, power, gas, communication or other services.

(iv) Stabilizing or protecting the machinery, equipment or other tangible personal property during operation by bolting, burying or performing other similar nonpermanent connections to either real property or real property improvements.

8. The gross proceeds of sales or gross income attributable to the purchase of machinery, equipment or other tangible personal property that is exempt from or deductible from transaction privilege and use tax under:

(b) Section 42-5061, subsection B.

(c) Section 42-5159, subsection A, paragraph 13, subdivision (a), (b), (c), (d), (e), (f), (j), (k), (m) or (n) or paragraph 54 or 56.

(d) Section 42-5159, subsection B.

9. The gross proceeds of sales or gross income received from a contract for the construction of an environmentally controlled facility for the raising of poultry for the production of eggs and the sorting, cooling and packaging of eggs.

10. The gross proceeds of sales or gross income that is derived from a contract entered into with a person who is engaged in the commercial production of livestock, livestock products or agricultural, horticultural, viticultural or floricultural crops or products in this state for the
modification of any building, highway, road, excavation, manufactured
building or other structure, project, development or improvement used
directly and primarily to prevent, monitor, control or reduce air, water or
land pollution.

11. The gross proceeds of sales or gross income that is derived from
the installation, assembly, repair or maintenance of clean rooms that are
deducted from the tax base of the retail classification pursuant to section
42-5061, subsection B, paragraph 16.

12. For taxable periods beginning from and after June 30, 2001, the
gross proceeds of sales or gross income derived from a contract entered into
for the construction of a residential apartment housing facility that
qualifies for a federal housing subsidy for low income persons over sixty-two
years of age and that is owned by a nonprofit charitable organization that
has qualified under section 501(c)(3) of the internal revenue code.

13. For taxable periods beginning from and after December 31, 1996 and
ending before January 1, 2017, the gross proceeds of sales or gross income
derived from a contract to provide and install a solar energy device. The
contractor shall register with the department as a solar energy contractor.
By registering, the contractor acknowledges that it will make its books and
records relating to sales of solar energy devices available to the department
for examination.

14. The gross proceeds of sales or gross income derived from a
contract entered into for the construction of a launch site, as defined in 14
Code of Federal Regulations section 401.5.

that is owned and operated by a nonprofit charitable organization that has
qualified under section 501(c)(3) of the internal revenue code.

16. The gross proceeds of sales or gross income derived from contracts
to perform postconstruction treatment of real property for termite and
general pest control, including wood destroying organisms.

17. The gross proceeds of sales or gross income received from
contracts entered into before July 1, 2006 for constructing a state
university research infrastructure project if the project has been reviewed
by the joint committee on capital review before the university enters into
the construction contract for the project. For the purposes of this
paragraph, "research infrastructure" has the same meaning prescribed in
section 15-1670.

18. The gross proceeds of sales or gross income received from a
contract for the construction of any building, or other structure, project,
development or improvement owned by a qualified business under section
41-1516 for harvesting or processing qualifying forest products removed from
qualifying projects as defined in section 41-1516 if actual construction
begins before January 1, 2024. To qualify for this deduction, the prime
contractor must obtain a letter of qualification from the Arizona commerce authority before beginning work under the contract.

19. Any amount of the gross proceeds of sales or gross income attributable to development fees that are incurred in relation to a contract for construction, development or improvement of real property and that are paid by a prime contractor or subcontractor. For the purposes of this paragraph:

(a) The attributable amount shall not exceed the value of the development fees actually imposed.

(b) The attributable amount is equal to the total amount of development fees paid by the prime contractor or subcontractor, and the total development fees credited in exchange for the construction of, contribution to or dedication of real property for providing public infrastructure, public safety or other public services necessary to the development. The real property must be the subject of the development fees.

(c) "Development fees" means fees imposed to offset capital costs of providing public infrastructure, public safety or other public services to a development and authorized pursuant to section 9-463.05, section 11-1102 or title 48 regardless of the jurisdiction to which the fees are paid.

20. The gross proceeds of sales or gross income derived from a contract entered into for the construction of a mixed waste processing facility that is located on a municipal solid waste landfill and that is constructed for the purpose of recycling solid waste or producing renewable energy from landfill waste. For the purposes of this paragraph:

(a) "Mixed waste processing facility" means a solid waste facility that is owned, operated or used for the treatment, processing or disposal of solid waste, recyclable solid waste, conditionally exempt small quantity generator waste or household hazardous waste. For the purposes of this subdivision, "conditionally exempt small quantity generator waste", "household hazardous waste" and "solid waste facility" have the same meanings prescribed in section 49-701, except that solid waste facility does include a site that stores, treats or processes paper, glass, wood, cardboard, household textiles, scrap metal, plastic, vegetative waste, aluminum, steel or other recyclable material.

(b) "Municipal solid waste landfill" has the same meaning prescribed in section 49-701.

(c) "Recycling" means collecting, separating, cleansing, treating and reconstituting recyclable solid waste that would otherwise become solid waste, but does not include incineration or other similar processes.

(d) "Renewable energy" has the same meaning prescribed in section 41-1511.

C. Entitlement to the deduction pursuant to subsection B, paragraph 7 of this section is subject to the following provisions:

1. A prime contractor may establish entitlement to the deduction by both:
(a) Marking the invoice for the transaction to indicate that the gross proceeds of sales or gross income derived from the transaction was deducted from the base.

(b) Obtaining a certificate executed by the purchaser indicating the name and address of the purchaser, the precise nature of the business of the purchaser, the purpose for which the purchase was made, the necessary facts to establish the deductibility of the property under section 42-5061, subsection B, and a certification that the person executing the certificate is authorized to do so on behalf of the purchaser. The certificate may be disregarded if the prime contractor has reason to believe that the information contained in the certificate is not accurate or complete.

2. A person who does not comply with paragraph 1 of this subsection may establish entitlement to the deduction by presenting facts necessary to support the entitlement, but the burden of proof is on that person.

3. The department may prescribe a form for the certificate described in paragraph 1, subdivision (b) of this subsection. The department may also adopt rules that describe the transactions with respect to which a person is not entitled to rely solely on the information contained in the certificate provided in paragraph 1, subdivision (b) of this subsection but must instead obtain such additional information as required in order to be entitled to the deduction.

4. If a prime contractor is entitled to a deduction by complying with paragraph 1 of this subsection, the department may require the purchaser who caused the execution of the certificate to establish the accuracy and completeness of the information required to be contained in the certificate that would entitle the prime contractor to the deduction. If the purchaser cannot establish the accuracy and completeness of the information, the purchaser is liable in an amount equal to any tax, penalty and interest that the prime contractor would have been required to pay under article 1 of this chapter if the prime contractor had not complied with paragraph 1 of this subsection. Payment of the amount under this paragraph exempts the purchaser from liability for any tax imposed under article 4 of this chapter. The amount shall be treated as a transaction privilege tax to the purchaser and as tax revenues collected from the prime contractor in order to designate the distribution base for purposes of section 42-5029.

D. Subcontractors or others who perform modification activities are not subject to tax if they can demonstrate that the job was within the control of a prime contractor or contractors or a dealership of manufactured buildings and that the prime contractor or dealership is liable for the tax on the gross income, gross proceeds of sales or gross receipts attributable to the job and from which the subcontractors or others were paid.

E. Amounts received by a contractor for a project are excluded from the contractor's gross proceeds of sales or gross income derived from the business if the person who hired the contractor executes and provides a certificate to the contractor stating that the person providing the
certificate is a prime contractor and is liable for the tax under article 1
of this chapter. The department shall prescribe the form of the certificate.
If the contractor has reason to believe that the information contained on the
certificate is erroneous or incomplete, the department may disregard the
certificate. If the person who provides the certificate is not liable for
the tax as a prime contractor, that person is nevertheless deemed to be the
prime contractor in lieu of the contractor and is subject to the tax under
this section on the gross receipts or gross proceeds received by the
contractor.

F. Every person engaging or continuing in this state in the business
of prime contracting or dealership of manufactured buildings shall present to
the purchaser of such prime contracting or manufactured building a written
receipt of the gross income or gross proceeds of sales from such activity and
shall separately state the taxes to be paid pursuant to this section.

G. For the purposes of section 42-5032.01, the department shall
separately account for revenues collected under the prime contracting
classification from any prime contractor engaged in the preparation or
construction of a multipurpose facility, and related infrastructure, that is
owned, operated or leased by the tourism and sports authority pursuant to
title 5, chapter 8.

H. For the purposes of section 42-5032.02, from and after
September 30, 2013, the department shall separately account for revenues
reported and collected under the prime contracting classification from any
prime contractor engaged in the construction of any buildings and associated
improvements that are for the benefit of a manufacturing facility. For the
purposes of this subsection, "associated improvements" and "manufacturing
facility" have the same meanings prescribed in section 42-5032.02.

I. The gross proceeds of sales or gross income derived from a contract
for lawn maintenance services are not subject to tax under this section if
the contract does not include landscaping activities. Lawn maintenance
service is a service pursuant to section 42-5061, subsection A, paragraph 1,
and includes lawn mowing and edging, weeding, repairing sprinkler heads or
drip irrigation heads, seasonal replacement of flowers, refreshing gravel,
lawn de-thatching, seeding winter lawns, leaf and debris collection and
removal, tree or shrub pruning or clipping, garden and gravel raking and
applying pesticides, as defined in section 3-361, and fertilizer materials,
as defined in section 3-262.

J. Except as provided in subsection O of this section, the gross
proceeds of sales or gross income derived from landscaping activities are
subject to tax under this section. Landscaping includes installing lawns,
grading or leveling ground, installing gravel or boulders, planting trees and
other plants, felling trees, removing or mulching tree stumps, removing other
imbedded plants, building irrigation berms, installing railroad ties and
installing underground sprinkler or watering systems.
K. The portion of gross proceeds of sales or gross income attributable to the actual direct costs of providing architectural or engineering services that are incorporated in a contract is not subject to tax under this section. For the purposes of this subsection, "direct costs" means the portion of the actual costs that are directly expended in providing architectural or engineering services.

L. Operating a landfill or a solid waste disposal facility is not subject to taxation under this section, including filling, compacting and creating vehicle access to and from cell sites within the landfill. Constructing roads to a landfill or solid waste disposal facility and constructing cells within a landfill or solid waste disposal facility may be deemed prime contracting under this section.

M. The following apply in determining the taxable situs of sales of manufactured buildings:

1. For sales in this state where the manufactured building dealer contracts to deliver the building to a setup site or to perform the setup in this state, the taxable situs is the setup site.

2. For sales in this state where the manufactured building dealer does not contract to deliver the building to a setup site or does not perform the setup, the taxable situs is the location of the dealership where the building is delivered to the buyer.

3. For sales in this state where the manufactured building dealer contracts to deliver the building to a setup site that is outside this state, the situs is outside this state and the transaction is excluded from tax.

N. The gross proceeds of sales or gross income attributable to a written contract for design phase services or professional services, executed before modification begins and with terms, conditions and pricing of all of these services separately stated in the contract from those for construction phase services, is not subject to tax under this section, regardless of whether the services are provided sequential to or concurrent with prime contracting activities that are subject to tax under this section. This subsection does not include the gross proceeds of sales or gross income attributable to construction phase services. For the purposes of this subsection:

1. "Construction phase services" means services for the execution and completion of any modification, including the following:
   (a) Administration or supervision of any modification performed on the project, including team management and coordination, scheduling, cost controls, submittal process management, field management, safety program, close-out process and warranty period services.
   (b) Administration or supervision of any modification performed pursuant to a punch list. For the purposes of this subdivision, "punch list" means minor items of modification work performed after substantial completion and before final completion of the project.
(c) Administration or supervision of any modification performed pursuant to change orders. For the purposes of this subdivision, "change order" means a written instrument issued after execution of a contract for modification work, providing for all of the following:

(i) The scope of a change in the modification work, contract for modification work or other contract documents.

(ii) The amount of an adjustment, if any, to the guaranteed maximum price as set in the contract for modification work. For the purposes of this item, "guaranteed maximum price" means the amount guaranteed to be the maximum amount due to a prime contractor for the performance of all modification work for the project.

(iii) The extent of an adjustment, if any, to the contract time of performance set forth in the contract.

(d) Administration or supervision of any modification performed pursuant to change directives. For the purposes of this subdivision, "change directive" means a written order directing a change in modification work before agreement on an adjustment of the guaranteed maximum price or contract time.

(e) Inspection to determine the dates of substantial completion or final completion.

(f) Preparation of any manuals, warranties, as-built drawings, spares or other items the prime contractor must furnish pursuant to the contract for modification work. For the purposes of this subdivision, "as-built drawing" means a drawing that indicates field changes made to adapt to field conditions, field changes resulting from change orders or buried and concealed installation of piping, conduit and utility services.

(g) Preparation of status reports after modification work has begun detailing the progress of work performed, including preparation of any of the following:

(i) Master schedule updates.

(ii) Modification work cash flow projection updates.

(iii) Site reports made on a periodic basis.

(iv) Identification of discrepancies, conflicts or ambiguities in modification work documents that require resolution.

(v) Identification of any health and safety issues that have arisen in connection with the modification work.

(h) Preparation of daily logs of modification work, including documentation of personnel, weather conditions and on-site occurrences.

(i) Preparation of any submittals or shop drawings used by the prime contractor to illustrate details of the modification work performed.

(j) Administration or supervision of any other activities for which a prime contractor receives a certificate for payment or certificate for final payment based on the progress of modification work performed on the project.
2. "Design phase services" means services for developing and completing a design for a project that are not construction phase services, including the following:

(a) Evaluating surveys, reports, test results or any other information on-site conditions for the project, including physical characteristics, legal limitations and utility locations for the site.

(b) Evaluating any criteria or programming objectives for the project to ascertain requirements for the project, such as physical requirements affecting cost or projected utilization of the project.

(c) Preparing drawings and specifications for architectural program documents, schematic design documents, design development documents, modification work documents or documents that identify the scope of or materials for the project.

(d) Preparing an initial schedule for the project, excluding the preparation of updates to the master schedule after modification work has begun.

(e) Preparing preliminary estimates of costs of modification work before completion of the final design of the project, including an estimate or schedule of values for any of the following:

(i) Labor, materials, machinery and equipment, tools, water, heat, utilities, transportation and other facilities and services used in the execution and completion of modification work, regardless of whether they are temporary or permanent or whether they are incorporated in the modifications.

(ii) The cost of labor and materials to be furnished by the owner of the real property.

(iii) The cost of any equipment of the owner of the real property to be assigned by the owner to the prime contractor.

(iv) The cost of any labor for installation of equipment separately provided by the owner of the real property that has been designed, specified, selected or specifically provided for in any design document for the project.

(v) Any fee paid by the owner of the real property to the prime contractor pursuant to the contract for modification work.

(vi) Any bond and insurance premiums.

(vii) Any applicable taxes.

(viii) Any contingency fees for the prime contractor that may be used before final completion of the project.

(f) Reviewing and evaluating cost estimates and project documents to prepare recommendations on site use, site improvements, selection of materials, building systems and equipment, modification feasibility, availability of materials and labor, local modification activity as related to schedules and time requirements for modification work.

(g) Preparing the plan and procedures for selection of subcontractors, including any prequalification of subcontractor candidates.

3. "Professional services" means architect services, assayer services, engineer services, geologist services, land surveying services or landscape...
architect services that are within the scope of those services as provided in title 32, chapter 1 and for which gross proceeds of sales or gross income has not otherwise been deducted under subsection K of this section.

O. The gross proceeds of sales or gross income derived from a contract with the owner of real property or improvements to real property for the maintenance, repair, replacement or alteration of existing property is not subject to tax under this section if the contract does not include modification activities, except as specified in this subsection. The gross proceeds of sales or gross income derived from a de minimis amount of modification activity does not subject the contract or any part of the contract to tax under this section. For the purposes of this subsection:

1. Tangible personal property that is incorporated or fabricated into a project described in this subsection may be subject to the amount prescribed in section 42-5008.01.

2. Each contract is independent of any other contract, except that any change order that directly relates to the scope of work of the original contract shall be treated the same as the original contract under this chapter, regardless of the amount of modification activities included in the change order. If a change order does not directly relate to the scope of work of the original contract, the change order shall be treated as a new contract, with the tax treatment of any subsequent change order to follow the tax treatment of the contract to which the scope of work of the subsequent change order directly relates.

P. Notwithstanding subsection O of this section, a contract that primarily involves surface or subsurface improvements to land and that is subject to title 28, chapter 19, 20 or 22 or title 34, chapter 2 or 6 is taxable under this section, even if the contract also includes vertical improvements. Agencies that are subject to procurement processes under those provisions shall include in the request for proposals a notice to bidders when those projects are subject to this section. This subsection does not apply to contracts with:

1. Community facilities districts, fire districts, county television improvement districts, community park maintenance districts, cotton pest control districts, hospital districts, pest abatement districts, health service districts, agricultural improvement districts, county free library districts, county jail districts, county stadium districts, special health care districts, public health services districts, theme park districts, regional attraction districts or revitalization districts.

2. Any special taxing district not specified in paragraph 1 of this subsection if the district does not substantially engage in the modification, maintenance, repair, replacement or alteration of surface or subsurface improvements to land.

Q. Notwithstanding subsection R, paragraph 10 of this section, a person owning real property who enters into a contract for sale of the real property, who is responsible to the new owner of the property for
modifications made to the property in the period subsequent to the transfer of title and who receives a consideration for the modifications is considered a prime contractor solely for purposes of taxing the gross proceeds of sale or gross income received for the modifications made subsequent to the transfer of title. The original owner's gross proceeds of sale or gross income received for the modifications shall be determined according to the following methodology:

1. If any part of the contract for sale of the property specifies amounts to be paid to the original owner for the modifications to be made in the period subsequent to the transfer of title, the amounts are included in the original owner's gross proceeds of sale or gross income under this section. Proceeds from the sale of the property that are received after transfer of title and that are unrelated to the modifications made subsequent to the transfer of title are not considered gross proceeds of sale or gross income from the modifications.

2. If the original owner enters into an agreement separate from the contract for sale of the real property providing for amounts to be paid to the original owner for the modifications to be made in the period subsequent to the transfer of title to the property, the amounts are included in the original owner's gross proceeds of sale or gross income received for the modifications made subsequent to the transfer of title.

3. If the original owner is responsible to the new owner for modifications made to the property in the period subsequent to the transfer of title and derives any gross proceeds of sale or gross income from the project subsequent to the transfer of title other than a delayed disbursement from escrow unrelated to the modifications, it is presumed that the amounts are received for the modifications made subsequent to the transfer of title unless the contrary is established by the owner through its books, records and papers kept in the regular course of business.

4. The tax base of the original owner is computed in the same manner as a prime contractor under this section.

R. For the purposes of this section:

1. "Alteration" means an activity or action that causes a direct physical change to existing property. For the purposes of this paragraph:

   (a) For existing property that is properly classified as class two property under section 42-12002, paragraph 1, subdivision (c) or paragraph 2, subdivision (c) and that is used for residential purposes, class three property under section 42-12003 or class four property under 42-12004, this paragraph does not apply if the contract amount is more than twenty-five percent of the most recent full cash value established under chapter 13, article 2 of this title as of the date of any bid for the work or the date of the contract, whichever value is higher.

   (b) For all existing property other than existing property described in subdivision (a) of this paragraph, this paragraph does not apply if any of the following is true:
(i) The contract amount is more than seven hundred fifty thousand dollars.

(ii) The scope of work directly relates to more than forty percent of the existing square footage of the existing property.

(iii) The scope of work involves expanding the square footage of more than ten percent of the existing property.

(c) Project elements may not be artificially separated from a contract to cause a project to qualify as an alteration. The department has the burden of proof that project elements have been artificially separated from a contract.

(d) If a project for which the owner and the person performing the work reasonably believed, at the inception of the contract, would be treated as an alteration under this paragraph and, on completion of the project, the project exceeded the applicable threshold described in either subdivision (a) or (b) of this paragraph by no more than twenty-five percent of the applicable threshold for any reason, the work performed under the contract qualifies as an alteration.

(e) A change order that directly relates to the scope of work of the original contract shall be treated as part of the original contract, and the contract amount shall include any amount attributable to a change order that directly relates to the scope of work of the original contract.

(f) Alteration does not include maintenance, repair or replacement.

2. “Contracting” means engaging in business as a contractor.

3. “Contractor” is synonymous with the term “builder” and means any person or organization that undertakes to or offers to undertake to, or purports to have the capacity to undertake to, or submits a bid to, or does personally or by or through others, modify any building, highway, road, railroad, excavation, manufactured building or other structure, project, development or improvement, or to do any part of such a project, including the erection of scaffolding or other structure or works in connection with such a project, and includes subcontractors and specialty contractors. For all purposes of taxation or deduction, this definition shall govern without regard to whether or not such contractor is acting in fulfillment of a contract.

10. "Prime contractor" means a contractor who supervises, performs or coordinates the modification of any building, highway, road, railroad, excavation, manufactured building or other structure, project, development or improvement including the contracting, if any, with any subcontractors or specialty contractors and who is responsible for the completion of the contract. Except as provided in subsections E and Q of this section, a person who owns real property, who engages one or more contractors to modify that real property and who does not itself modify that real property is not a prime contractor within the meaning of this paragraph regardless of the existence of a contract for sale or the subsequent sale of that real property.

11. "Replacement" means the removal from service of one component or system of existing property or tangible personal property installed in existing property, including machinery or equipment, and the installation of a new component or system or new tangible personal property, including machinery or equipment, that provides the same similar or upgraded design or functionality, regardless of the contract amount and regardless of whether the existing component or system or existing tangible personal property is physically removed from the existing property.

12. "Sale of a used manufactured building" does not include a lease of a used manufactured building.
