

ARIZONA STATE SENATE
Fifty-Second Legislature, Second Regular Session

AMENDED
FACT SHEET FOR S.B. 1428

PSPRS modifications

Purpose

Subject to a conditional enactment, provides numerous changes to the Public Safety Personnel Retirement System (PSPRS) statutes, including establishment of a new defined contribution plan (DC), changes to its defined benefit (DB) system and changes to the PSPRS Board of Directors (Board).

Background

Laws 2011, Chapter 357 made numerous changes to the PSPRS. Among these changes were reducing permanent benefit increases and increasing employee contribution rates. The Arizona Supreme Court, however, ruled in *Fields v. Elected Officials' Retirement Plan* that the reduction of PBIs for current retirees violated Article 29 of the Arizona Constitution, which specifies that "public retirement system benefits shall not be diminished or impaired." This ruling reinstated the pre-Chapter 357 PBI mechanism, which requires that whenever the annual investment earnings from the fund exceed 9.0 percent, then half of those annual excess earnings are transferred to a PBI reserve account. The annual PBI is then provided from that account in an actuarially determined amount up to a 4 percent increase. This ruling also applied to PSPRS and CORP retirees. PSPRS staff estimates that the *Fields* ruling has increased unfunded liabilities for all systems by \$1.8 billion.

Chapter 357 also modifies the PBI structure for PSPRS, CORP and EORP for members hired after the enactment. This law allows for a PBI only if the fund has annual investment earnings in excess of 10.5 percent and the overall funded status is at least 60 percent. The amount of the PBI would be between 2 percent and 4 percent, depending on the funded status of the plan. Chapter 357 would have limited the PBI to the amount of earnings in the fund that exceed 10.5 percent. Any excess earning amount that was not used for a PBI in a given year would revert back to the fund balance instead of remaining in a separate account.

Hall v. The Elected Officials' Retirement Plan litigates the increased contribution rates for members who were active prior to the enactment of Laws 2011, Chapter 357. Chapter 357 raised the contribution rates for active members of CORP, EORP and PSPRS. The plaintiffs argued that statutory rates reflected a contractual agreement that could not be modified without employee consent. In July 2013, the Maricopa County Superior Court ruled against EORP and decided that Chapter 357 applies only to members of EORP who joined the system after the enactment of Chapter 357. The ruling effectively blocks PBI changes from being applied to active members hired before Chapter 357. The ruling was appealed and will be heard by an appointed five-person panel of lower-court judges in February 2016.

Because of the complexity of the foregoing legislation and court cases, S.B. 1428 has numerous requirements for differing sets of participants who join PSPRS on differing dates. These dates are described in the provisions as Tiers 1, 2 and 3 and the applicable dates are as follows:

<i>Tier</i>	<i>Employees Hired</i>
1	Before January 1, 2012
2(a)	Members with less than 20 years of credited service before 1/1/2012
2(b)	January 1, 2012 – June 30, 2017
3	July 1, 2017 and thereafter

Provisions

Tiers 1 and 2 – COLA/PBI

(Conditional on passage of S.C.R. 1019 at special election on May 17, 2017)

1. Repeals current statute referencing the permanent benefit increase and establishes a new cost of living adjustment (COLA) structure.
2. States that each Tier 1 and 2 retired member or survivor of a retired member is eligible to receive a compounding COLA.
3. Bases the cost of living adjustment on the average annual percentage change in the Metropolitan Phoenix-Mesa Consumer Price Index, with the immediately preceding year as the base year for making the determination, not to exceed annually two percent of the retired member's or survivor's base benefit.
4. States that the COLA shall be made on July 1 each year.
5. Prorates the COLA in the first year of a member's retirement.
6. Requires the actuary to include the projected cost of providing the COLA in the calculation of normal cost and accrued liability.
7. Prohibits a participant from receiving the COLA during a deferred retirement option plan participation period.

Tier 3 – COLA/PBI

8. Entitles each Tier 3 retired member or survivor of a retired member to a compounding COLA, beginning the earlier of the first calendar year after the seventh anniversary of the retired member's retirement or when the retired member is or would have been 60 years of age.
9. Requires a COLA to be paid on July 1 of each year, for each Tier 3 member, when the funded ratio of Tier 3 members is 70 percent or more.

10. Limits the COLA, for a Tier 3 member, to not to exceed the following:

<i>Funded Ratio</i>	<i>Percentage of Base Benefit</i>
At least 90%	2%
More than 80% but less than 90%	1 ½%
More than 70% but less than 80%	1%

11. Requires the system actuary to include the projected cost of providing the COLA adjustment in the calculation of normal cost and accrued liability.
12. Defines *funded ratio* as the ratio of the market value of assets to the actual accrued liabilities.
13. Requires, for all tiers, that any future benefit increase adopted by the Legislature shall be fully paid in the year of enactment and may not be amortized over any period of years.
14. Requires that any benefit for Tiers 1 and 2 members shall be paid by the employer.
15. Requires that any benefit for Tier 3 members shall be split equally between the employer and the member.
16. Stipulates a method for the calculation of the benefit increase by the plan actuary.

Election of Benefits

17. Adds to the definition of *average monthly benefit compensation*, for Tier 3 employees, that the considered period is the 5 consecutive years within the last 15 completed years of credited service that yield the highest average.
18. Adds to the definition of *normal retirement date*, for a Tier 3 employee, the first day of the calendar month immediately following the employee's completion of 15 years of credited service if the employee is at least 55 years old.
19. Allows a Tier 3 employee to elect to participate in the PSPRS DB or DC plan.
20. Requires that participation in either plan will begin 90 days after the date of hire.
21. Requires the DB or DC election to be made before the 90th day of hire. If no election is made, the employee will be automatically enrolled in the DB plan for the remainder of the employee's employment.
22. Stipulates that the plan selection is irrevocable and will be the employee's election for the remainder of employment, regardless of whether the employee's employment is continuous.
23. Allows an employee to participate solely in the DB plan or to participate solely in the DC plan.

24. Requires an employee who selects the DB plan but is not covered by Social Security to also participate in the DC plan for any period that the employee is not covered by Social Security.
25. Prohibits that employee from making contributions to the DC plan if that employee becomes subsequently covered by Social Security. If at any time that employee becomes uncovered by Social Security, the employee shall again be required to contribute to the DC plan.
26. Stipulates that if an employee becomes eligible for an accidental disability pension during the employee's first 90 days of employment, the employee shall be automatically enrolled in the DB plan and shall receive an accidental disability pension.

Defined Benefit Plan (DB)

27. Excludes from participation in the PSPRS DB plan any Tier 3 employee who makes the irrevocable election to participate solely in the PSPRS DC plan and who was not an active, an inactive or a retired member of the system or a member of the system with a disability on June 30, 2017.
28. Implements a new 50/50 contribution rate for employer/employee, for Tier 3 members, as follows:
 - a) each employer shall make contributions sufficient under actuarial valuations to pay 50/50 of both the normal cost plus the actuarially determined amount required to amortize the total unfunded accrued liability for each employer attributable only to those Tier 3 members. For the purposes of determining an actuarial gain or loss, smoothed over a period not more than five years as determined by the Board, a new amortization base shall be created on a level-dollar basis over a closed period equal to the average expected remaining service lives of all members but not more than ten years; and
 - b) the remaining 50 percent of normal cost and the actuarially determined amount required to amortize total unfunded accrued liability shall be divided by the total number of the employer's Tier 3 members, such that each member contributes an equal percentage of the member's pensionable compensation.
29. Prohibits, for all tiers, an employer's contribution in combination with member contributions from being less than the actuarially determined normal cost. The Board may not suspend contributions unless both of the following apply:
 - a) the PSPRS actuary, based on annual valuation, determines that continuing to accrue excess earnings could result in disqualification of the PSPRS's tax-exempt status; and
 - b) the Board determines that the receipt of any additional contributions required would conflict with its fiduciary responsibility.
30. Stipulates that, for all tiers, the total liability associated with the member's service with the employer remains with the employer, if a member's employment is terminated with an employer by either party.
31. Limits, for Tier 3 members, the annual compensation of each member taken into account for purposes of PSPRS to \$110,000. Prohibits this limit from exceeding the maximum compensation limits adopted by the Internal Revenue Code.

32. Establishes a mechanism to adjust the pensionable pay cap. Requires the Board, beginning in FY 2021 and every third FY thereafter, to adjust the annual compensation limit by the average change in the public safety wage index. The Board shall annually publish the wage index in January.
33. Requires the Board to establish the public safety wage index that is composed of a group of employers that represent geographic diversity across this state. Provides specific employer and employer group requirements.
34. Prohibits the Board from changing the employers represented in the wage index more frequently than every ten years, unless required to maintain the composition of employers.
35. Stipulates that, for a Tier 3 member who retires on or after the member’s normal retirement date, the member shall receive a monthly amount equal to the member’s average monthly benefit compensation multiplied by the number of whole and fractional years of credited service multiplied by the following:

At least 15 but less than 17 years of credited service	1.5%
At least 17 but less than 19 years of credited service	1.75%
At least 19 but less than 22 years of credited service	2.00%
At least 22 but less than 25 years of credited service	2.25%
At least 25 years of credited service	2.50%

36. Requires that Tier 3 members who have earned at least 15 years of credited service may retire at age 52 ½ years old and will receive an actuarially equivalent retirement benefit.
37. Allows a Tier 3 member who attains a normal retirement date to receive a retirement benefit even if the member terminates employment with an employer before the age requirement for normal retirement if the member attains the credited service requirement for normal retirement. Once a member reaches the normal retirement age, the member may receive payments.

Defined Contribution Plan (DC)

 - b) 9 percent for a participant who participates solely in the DC plan.
47. Allows a participant to make a one-time irrevocable election before the participant is eligible to participate in any qualified plan of the employer to contribute more than the percentage specified, which shall be the participant's contribution rate for the remainder of employment.
48. Allows a participant, on or before June 30, 2017, to make an irrevocable election to opt out of the DC plan, which shall be the participant's election for the remainder of the participant's employment with a system employer.

49. Requires that all participant contributions made to the DC plan shall be picked up and paid by the employer in lieu of contributions by the employee. Allows these contributions to be made through a reduction in the participant's compensation.

56. Allows a retired participant in the DC plan to opt in to the health and accident coverage established by the Department of Administration or the Arizona State Retirement System, but requires the retired participant to pay the premium for the coverage selected.
