AN ACT

AMENDING SECTION 15-393, ARIZONA REVISED STATUTES; RELATING TO CAREER TECHNICAL EDUCATION DISTRICTS.

(TEXT OF BILL BEGINS ON NEXT PAGE)
Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 15-393, Arizona Revised Statutes, is amended to read:

15-393. Career technical education district governing board; report; definitions

A. The management and control of a career technical education district are vested in the career technical education district governing board, including the content and quality of the courses offered by the district, the quality of teachers who provide instruction on behalf of the district, the salaries of teachers who provide instruction on behalf of the district and the reimbursement of other entities for the facilities used by the district. This section does not restrict a school district from offering any career and technical education course that does not qualify for funding as a career technical education course or career technical education district program. Unless the governing boards of the school districts participating in the formation of the career technical education district vote to implement an alternative election system as provided in subsection B of this section, the career technical education board shall consist of five members elected from five single member districts formed within the career technical education district. The single member district election system shall be submitted as part of the plan for the career technical education district pursuant to section 15-392 and shall be established in the plan as follows:

1. The governing boards of the school districts participating in the formation of the career technical education district shall define the boundaries of the single member districts so that the single member districts are as nearly equal in population as is practicable, except that if the career technical education district lies in part in each of two or more counties, at least one single member district may be entirely within each of the counties comprising the career technical education district if this district design is consistent with the obligation to equalize the population among single member districts.

2. The boundaries of each single member district shall follow election precinct boundary lines, as far as practicable, in order to avoid further segmentation of the precincts.

3. A person who is a registered voter of this state and who is a resident of the single member district is eligible for election to the office of career technical education board member from the single member district. The terms of office of the members of the career technical education board shall be as prescribed in section 15-427, subsection B. An employee of a career technical education district or the spouse of an employee shall not hold membership on a governing board of a career technical education district by which the employee is employed. A member of one school district governing board or career technical education district governing board is ineligible to be a candidate for nomination or
election to or serve simultaneously as a member of any other governing board, except that a member of a governing board may be a candidate for nomination or election for any other governing board if the member is serving in the last year of a term of office. A member of a governing board shall resign the member's seat on the governing board before becoming a candidate for nomination or election to the governing board of any other school district or career technical education district, unless the member of the governing board is serving in the last year of a term of office. Members of a career technical education district governing board are subject to the conflict of interest requirements prescribed in section 38-503.

4. Nominating petitions shall be signed by the number of qualified electors of the single member district as provided in section 16-322.

B. The governing boards of the school districts participating in the formation of the career technical education district may vote to implement any other alternative election system for the election of career technical education district board members. If an alternative election system is selected, it shall be submitted as part of the plan for the career technical education district pursuant to section 15-392, and the implementation of the system shall be as approved by the United States justice department.

C. The Career technical education district shall be subject to the following provisions of this title:

1. Chapter 1, articles 1 through 6.
3. Articles 2, 3 and 5 of this chapter.
4. Section 15-361.
5. Chapter 4, articles 1, 2 and 5.
6. Chapter 5, articles 1 and 3.
8. Chapter 7, article 5.
9. Chapter 8, articles 1, 3 and 4.
11. Chapter 9, article 1, article 6, except for section 15-995, and article 7.
14. Chapter 10, articles 2, 3, 4 and 8.

D. Notwithstanding subsection C of this section, the following apply to a career technical education district:

1. A career technical education district may issue bonds for the purposes specified in section 15-1021 and in chapter 4, article 5 of this title to an amount in the aggregate, including the existing indebtedness, not exceeding one percent of the net assessed value of the full cash value

3. The student count for the first year of operation of a career technical education district as provided in this article shall be determined as follows:
   (a) Determine the estimated student count for career technical education district classes that will operate in the first year of operation. This estimate shall be based on actual registration of pupils as of March 30 scheduled to attend classes that will be operated by the career technical education district. The student count for the school district of residence of the pupils registered at the career technical education district shall be adjusted. The adjustment shall cause the school district of residence to reduce the student count for the pupil to reflect the courses to be taken at the career technical education district. The school district of residence shall review and approve the adjustment of its own student count as provided in this subdivision before the pupils from the school district can be added to the student count of the career technical education district.
   (b) The student count for the new career technical education district shall be the student count as determined in subdivision (a) of this paragraph.
   (c) For the first year of operation, the career technical education district shall revise the student count to the actual average daily membership as prescribed in section 15-901, subsection A, paragraph 1 for students attending classes in the career technical education district. A career technical education district shall revise its student count, the base support level as provided in section 15-943.02, the revenue control limit as provided in section 15-944.01 and the district additional assistance as provided in section 15-962.01 before May 15. A career technical education district that overestimated its student count shall revise its budget before May 15. A career technical education district that underestimated its student count may revise its budget before May 15.
   (d) After March 15 of the first year of operation, the school district of residence shall adjust its student count by reducing it to reflect the courses actually taken at the career technical education district. The school district of residence shall revise its student count, the base support level as provided in section 15-943, the revenue control limit as provided in section 15-944 and the district additional assistance as provided in section 15-962.01 prior to May 15. (f) Pupils in an approved career technical education district
centralized program may generate an average daily membership of 1.0 during
any day of the week and at any time between July 1 and June 30 of each
fiscal year. For the purposes of this paragraph, "school district of
residence" means the school district that included the pupil in its
average daily membership for the year before the first year of operation
of the career technical education district and that would have included
the pupil in its student count for the purposes of computing its base
support level for the fiscal year of the first year of operation of the
career technical education district if the pupil had not enrolled in the
career technical education district.

general equivalency diploma or who is over twenty-one years of age shall
not be included in the student count of the career technical education
district for the purposes of chapter 9, articles 3, 4 and 5 of this title.

(d) A student who is enrolled in any internship course as part of a
career technical education district program shall not be included in the
student count of the career technical education district for that

school for satellite courses taught within the participating school
district or charter school, or approved solely by the career technical
education district for centrally located courses. FUNDING MAY BE PROVIDED
FOR NOT MORE THAN FOUR YEARS FOR THE SAME STUDENT. Student count and
average daily membership from courses that are not part of an approved
program for career and technical education shall not be included in
student count and average daily membership of a career technical education

career technical education district programs or courses directly to the 
career and technical education division of the department of education, 
but shall submit all appropriate application documentation and materials 
for programs or courses to the career technical education district. On 
approval from the career technical education board, a career technical 
education district shall only submit requests for the approval TO APPROVE
