(TEXT OF BILL BEGINS ON NEXT PAGE)
Be it enacted by the Legislature of the State of Arizona:

Section 1. Section 5-568, Arizona Revised Statutes, is amended to read:

5-568. Disposition of unclaimed prize money

Unclaimed prize money for the prize on a winning ticket or share shall be retained for the person entitled to the prize for one hundred eighty days after the drawing in which the prize was won in the case of a drawing prize and for one hundred eighty days after the announced end of the game in question in the case of a prize determined in any manner other than by means of a drawing. If a claim is not made for the money within the applicable period, the money shall be transferred in the following amounts:

1. Fifty-five percent of the prize money shall be held in the state lottery prize fund for use as additional prizes in future games, except that if the amount of monies transferred by the commission pursuant to section 5-554, subsection H, paragraph 1 is less than nine hundred thousand dollars $900,000 each fiscal year, the difference shall be transferred to the internet crimes against children enforcement fund established by section 41-199 and if the amount of monies transferred by the commission pursuant to section 5-554, subsection H, paragraph 2 is less than one hundred thousand dollars $100,000 each fiscal year, the difference shall be transferred to the victims' rights enforcement fund established by section 41-1727.

2. Thirty percent shall be transferred quarterly to the court appointed special advocate fund established by section 8-524.

3. Fifteen percent shall be transferred monthly to the tribal college dual enrollment program fund established by section 15-244.01. The amount transferred may not exceed two hundred fifty thousand dollars $250,000 in any fiscal year.

Sec. 2. Section 15-119, Arizona Revised Statutes, is amended to read:

15-119. Vacant and partially used buildings; list; sale or lease; definitions

A. The DIVISION OF school facilities board, in conjunction with the department of administration, shall annually publish a list of vacant buildings and partially used buildings that are owned by this state or by school districts in this state and that may be suitable for the operation of a school. The DIVISION OF school facilities board shall make the list publicly available on the website of the DIVISION OF school facilities board and on request to applicants for charter schools, to applicants applying to the DIVISION OF school facilities board for additional space and to existing district and charter schools. The list shall include the address of each building, a short description of the building, the name of the owner of the building and any other pertinent information related to the vacancy and capacity of the building. The
DIVISION OF school facilities board shall annually submit the list to the governor, the president of the senate and the speaker of the house of representatives and provide a copy of the list to the secretary of state and the state board for charter schools.

B. If a school district decides to sell or lease a vacant building or partially used building, the school district may not prohibit a charter school or a private school from negotiating to buy or lease the property in the same manner as other potential buyers or lessees. A school district may not accept an offer for the sale or lease of the vacant building or partially used building from a potential buyer or lessee that is less than an offer from a charter school or private school. This section does not require the owner of a building on the list to sell or lease the building or a portion of the building to a charter school, to any other school or to any other prospective buyer or tenant, except that the owner of a building on the list may not withdraw the property from sale or lease solely because a charter school or private school is the highest bidder. At the conclusion of a lease for an existing tenant that is a public school or that is providing services to public school students, the lease may be terminated, renewed according to the terms of the existing agreement, or renewed with a negotiated increase. The building owner must provide the rationale for a proposed increase to the lessee, which may include considerations for the percentage of revenue that should be dedicated to educational facilities, inflators related to student enrollment increases or the annual GDP price deflator as defined in section 41-563, or expenses for building and parking lot maintenance and upgrades.

C. A school district may sell used equipment to a charter school or private school before the school district attempts to sell or dispose of the equipment by other means.

D. Buildings that are used for career and technical education, special education services, preschool programs, schools that have been open for FEWER than five years or magnet schools are not considered partially used buildings for the purposes of this section, except that these exemptions may not be applied to more than twenty-five percent of a district's school buildings.

E. For the purposes of this section:
   1. "Partially used building" means a building with at least four thousand five hundred square feet of contiguous, unused space.
   2. "Vacant building" means a building that has been vacant and unused for at least two years.

Sec. 3. Section 15-181, Arizona Revised Statutes, is amended to read:

15-181. Charter schools; purpose; scope
A. Charter schools may be established pursuant to this article to provide a learning environment that will improve pupil achievement.
Charter schools provide additional academic choices for parents and pupils. Charter schools may consist of new schools or all or any portion of an existing school. Charter schools are public schools that serve as alternatives to traditional public schools and charter schools are not subject to the requirements of article XI, section 1, Constitution of Arizona, or TITLE 41, chapter 16 of this title.

B. Charter schools shall comply with all provisions of this article in order to receive state funding as prescribed in section 15-185.

Sec. 4. Section 15-185, Arizona Revised Statutes, is amended to read:

15-185. Charter schools; financing; civil penalties; transportation; definition

A. A school district is not financially responsible for any charter school that is sponsored by the state board of education, the state board for charter schools, a university under the jurisdiction of the Arizona board of regents, a community college district or a group of community college districts.

B. Financial provisions for a charter school that is sponsored by the state board of education, the state board for charter schools, a university, a community college district or a group of community college districts are as follows:

1. The charter school shall calculate a base support level as prescribed in section 15-943, except that:
   (a) Section 15-941 does not apply to these charter schools.
   (b) The small school weights prescribed in section 15-943, paragraph 1 apply if a charter holder holds one charter for one or more school sites and the average daily membership for the school sites are combined for the calculation of the small school weight. The small school weight shall not be applied individually to a charter holder if one or more of the following conditions exist and the combined average daily membership derived from the following conditions is greater than six hundred:
      (i) The organizational structure or management agreement of the charter holder requires the charter holder or charter school to contract with a specific management company.
      (ii) The governing body of the charter holder has identical membership to another charter holder in this state.
      (iii) The charter holder is a subsidiary of a corporation that has other subsidiaries that are charter holders in this state.
      (iv) The charter holder holds more than one charter in this state.
   (c) Notwithstanding subdivision (b) of this paragraph, for fiscal years 2015-2016 and 2016-2017 the department of education shall reduce by thirty-three percent the amount provided by the small school weight for charter schools prescribed in subdivision (b) of this paragraph.
2. Notwithstanding paragraph 1 of this subsection, the student count shall be determined initially using an estimated student count based on actual registration of pupils before the beginning of the school year. Notwithstanding section 15-1042, subsection F, student level data submitted to the department may be used to determine estimated student counts. After the first forty days, one hundred days or two hundred days in session, as applicable, the charter school shall revise the student count to be equal to the actual average daily membership, as defined in section 15-901, of the charter school. Before the fortieth day, one hundredth day or two hundredth day in session, as applicable, the state board of education, the state board for charter schools, the sponsoring university, the sponsoring community college district or the sponsoring group of community college districts may require a charter school to report periodically regarding pupil enrollment and attendance, and the department of education may revise its computation of equalization assistance based on the report. A charter school shall revise its student count, base support level and charter additional assistance before May 15. A charter school that overestimated its student count shall revise its budget before May 15. A charter school that underestimated its student count may revise its budget before May 15.

3. A charter school may use section 15-855 for the purposes of this section. The charter school and the department of education shall prescribe procedures for determining average daily membership.

4. Equalization assistance for the charter school shall be determined by adding the amount of the base support level and charter additional assistance. The amount of the charter additional assistance is $1,875.24 $1,897.90 per student count in preschool programs for children with disabilities, kindergarten programs and grades one through eight and $2,185.53 $2,211.97 per student count in grades nine through twelve.

5. The state board of education shall apportion state aid from the appropriations made for such purposes to the state treasurer for disbursement to the charter schools in each county in an amount as determined by this paragraph. The apportionments shall be made as prescribed in section 15-973, subsection B.

6. The charter school shall not charge tuition for pupils who reside in this state, levy taxes or issue bonds. A charter school may admit pupils who are not residents of this state and shall charge tuition for those pupils in the same manner prescribed in section 15-823.

7. Not later than noon on the day preceding each apportionment date established by paragraph 5 of this subsection, the superintendent of public instruction shall furnish to the state treasurer an abstract of the apportionment and shall certify the apportionment to the department of administration, which shall draw its warrant in favor of the charter schools for the amount apportioned.
C. If a pupil is enrolled in both a charter school and a public school that is not a charter school, the sum of the daily membership, which includes enrollment as prescribed in section 15-901, subsection A, paragraph 1, subdivisions (a) and (b) and daily attendance as prescribed in section 15-901, subsection A, paragraph 5, for that pupil in the school district and the charter school shall not exceed 1.0. If a pupil is enrolled in both a charter school and a public school that is not a charter school, the department of education shall direct the average daily membership to the school with the most recent enrollment date. On validation of actual enrollment in both a charter school and a public school that is not a charter school and if the sum of the daily membership or daily attendance for that pupil is greater than 1.0, the sum shall be reduced to 1.0 and shall be apportioned between the public school and the charter school based on the percentage of total time that the pupil is enrolled or in attendance in the public school and the charter school. The uniform system of financial records shall include guidelines to apportion the pupil enrollment and attendance as provided in this section.

D. Charter schools are allowed to accept grants and gifts to supplement their state funding, but it is not the intent of the charter school law to require taxpayers to pay twice to educate the same pupils. The base support level for a charter school or for a school district sponsoring a charter school shall be reduced by an amount equal to the total amount of monies received by a charter school from a federal or state agency if the federal or state monies are intended for the basic maintenance and operations of the school. The superintendent of public instruction shall estimate the amount of the reduction for the budget year and shall revise the reduction to reflect the actual amount before May 15 of the current year. If the reduction results in a negative amount, the negative amount shall be used in computing all budget limits and equalization assistance, except that:

1. Equalization assistance shall not be less than zero.
2. For a charter school sponsored by the state board of education, the state board for charter schools, a university, a community college district or a group of community college districts, the total of the base support level and the charter additional assistance shall not be less than zero.

E. If a charter school was a district public school in the prior year and sponsored by the state board of education, the state board for charter schools, a university, a community college district or a group of community college districts, the reduction in subsection D of this section applies. The reduction to the base support level of the charter school shall equal the sum of the base support level and the charter additional assistance received in the current year for those pupils who were enrolled in the traditional public school in the prior year and are now enrolled in the charter school in the current year.
F. Equalization assistance for charter schools shall be provided as a single amount based on average daily membership without categorical distinctions between maintenance and operations or capital.

G. At the request of a charter school, the county school superintendent of the county where the charter school is located may provide the same educational services to the charter school as prescribed in section 15-308, subsection A. The county school superintendent may charge a fee to recover costs for providing educational services to charter schools.

H. If the sponsor of the charter school determines at a public meeting that the charter school is not in compliance with federal law, with the laws of this state or with its charter, the sponsor of a charter school may submit a request to the department of education to withhold up to ten percent of the monthly apportionment of state aid that would otherwise be due the charter school. The department shall adjust the charter school's apportionment accordingly. The sponsor shall provide written notice to the charter school at least seventy-two hours before the meeting and shall allow the charter school to respond to the allegations of noncompliance at the meeting before the sponsor makes a final determination to notify the department of education of noncompliance. The charter school shall submit a corrective action plan to the sponsor on a date specified by the sponsor at the meeting. The corrective action plan shall be designed to correct deficiencies at the charter school and to ensure that the charter school promptly returns to compliance. When the sponsor determines that the charter school is in compliance, the department shall restore the full amount of state aid payments to the charter school.

I. In addition to the withholding of state aid payments pursuant to subsection H of this section, the sponsor of a charter school may impose a civil penalty of $1,000 per occurrence if a charter school fails to comply with the fingerprinting requirements prescribed in section 15-183, subsection C or section 15-512. The sponsor of a charter school shall not impose a civil penalty if it is the first time the charter school is out of compliance with the fingerprinting requirements and if the charter school provides proof within forty-eight hours of written notification that an application for the appropriate fingerprint check has been received by the department of public safety. The sponsor of the charter school shall obtain proof that the charter school has been notified, and the notification shall identify the date of the deadline and shall be signed by both parties. The sponsor of a charter school shall automatically impose a civil penalty of $1,000 per occurrence if the sponsor determines that the charter school subsequently violates the fingerprinting requirements. Civil penalties pursuant to this subsection shall be assessed by requesting the department of education to reduce the amount of state aid that the charter school would otherwise receive by an
amount equal to the civil penalty. The amount of state aid withheld shall revert to the state general fund at the end of the fiscal year.

J. A charter school may receive and spend monies distributed by the department of education pursuant to section 42-5029, subsection E, section 42-5029.02, subsection A and section 37-521, subsection B.

K. If a school district transports or contracts to transport pupils to the Arizona state schools for the deaf and the blind during any fiscal year, the school district may transport or contract with a charter school to transport sensory impaired pupils during that same fiscal year to a charter school if requested by the parent of the pupil and if the distance from the pupil’s place of actual residence within the school district to the charter school is less than the distance from the pupil’s place of actual residence within the school district to the campus of the Arizona state schools for the deaf and the blind.

L. Notwithstanding any other law, a university under the jurisdiction of the Arizona board of regents, a community college district or a group of community college districts shall not include any student in the student count of the university, community college district or group of community college districts for state funding purposes if that student is enrolled in and attending a charter school sponsored by the university, community college district or group of community college districts.

M. The governing body of a charter school shall transmit a copy of its proposed budget or the summary of the proposed budget and a notice of the public hearing to the department of education for posting on the department of education’s website not later than ten days before the hearing and meeting. If the charter school maintains a website, the charter school governing body shall post on its website a copy of its proposed budget or the summary of the proposed budget and a notice of the public hearing.

N. The governing body of a charter school shall collaborate with the private organization that is approved by the state board of education pursuant to section 15-792.02 to provide approved board examination systems for the charter school.

O. If permitted allowed by federal law, a charter school may opt out of federal grant opportunities if the charter holder or the appropriate governing body of the charter school determines that the federal requirements impose unduly burdensome reporting requirements.

P. For the purposes of this section, “monies intended for the basic maintenance and operations of the school” means monies intended to provide support for the educational program of the school, except that it does not include supplemental assistance for a specific purpose or title VIII of the elementary and secondary education act of 1965 monies. The auditor general shall determine which federal or state monies meet this definition.

Sec. 6. Section 15-213.01, Arizona Revised Statutes, is amended to read:

15-213.01. Procurement practices; guaranteed energy cost savings contracts; definitions

A. Notwithstanding section 15-213, subsection A, a school district may contract for the procurement of a guaranteed energy cost savings contract with a qualified provider through a competitive sealed proposal process as provided by the procurement practices adopted by the state board of education.

B. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if it determines that the energy savings project pays for itself within the expected life, according to the manufacturer's equipment standards, of the energy cost savings measures implemented, the term of the financial agreement or twenty-five years, whichever is shortest, if the recommendations in the proposal are followed. The school district shall retain the cost savings achieved by a guaranteed energy cost savings contract, and these cost savings may be used to pay for the contract and project implementation.

C. The school district shall use objective criteria in selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope. The school
district shall set forth each criterion with its respective numerical weighting in the request for proposal.

D. In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may develop and use a prequalification process for contractors. These prequalifications may require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.

E. A study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. This report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study to the DIVISION OF school facilities board WITHIN THE DEPARTMENT OF ADMINISTRATION and the governor's office of energy policy.

F. The guaranteed energy cost savings contract shall require that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:

2. Changes in the number of days in the utility billing cycle.
3. Changes in the square footage of the facility.
4. Changes in the operational schedule of the facility.
5. Changes in facility temperature.
6. Significant changes in the weather.
7. Significant changes in the amount of equipment or lighting used in the facility.
8. Significant changes in the nature or intensity of energy use, such as the change of classroom space to laboratory space.

G. The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.

H. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy
analysis. The school district must approve the selection of the credentialed engineer.

I. A school district, or two or more school districts, may enter into a financing agreement with a qualified provider or the financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. The guaranteed energy cost savings contract may provide for payments over a period of not more than the expected life, according to the manufacturer's equipment standards, of the energy cost savings measures implemented, the term of the financial agreement or twenty-five years, whichever is shortest. The contract shall provide that all payments, except obligations on termination of the contract before its expiration, shall be made pursuant to the terms of the financing agreement. If a school district purchases the energy cost savings measure, the qualified provider shall guarantee that the energy cost savings meet or exceed the school district's total cost of the energy savings project purchase.

J. The guaranteed energy cost savings contract shall include a written guarantee of the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life, according to the manufacturer's equipment standards, of the energy cost savings measures implemented, the term of the financial agreement or twenty-five years, whichever is shortest. The qualified provider shall:

1. For the term of the guaranteed energy cost savings contract, prepare a measurement and verification report on an annual basis in addition to an annual reconciliation of savings.

2. Reimburse the school district for any shortfall of guaranteed energy cost savings on an annual basis.

3. Use the international performance and measurement and verification protocol standards or the federal energy management program standards to validate the savings guarantee.

K. The school district may obtain any required financing as part of the original competitive sealed proposal process from the qualified provider or a third-party financing institution.

L. A qualified provider that is awarded the contract shall give a sufficient bond to the school district for its faithful performance of the equipment installment.

M. The qualified provider is required to make public the information in the subcontractor's bids only if the qualified provider is awarded the guaranteed energy cost savings contract by the school district.

N. For all projects carried out under this section, the district shall report to the governor's office of energy policy:

1. The name of the project.

2. The name of the qualified provider.
3. The total cost of the project.
4. The expected energy cost savings and relevant escalators.
5. The agreed-on baseline in the measurement and verification agreement in both kilowatt hours and dollars.
0. This section does not apply to the construction of new buildings.
P. A school district may use a simplified energy performance contract for projects that are less than five hundred thousand dollars ($500,000). Simplified energy performance contracts are not required to include an energy savings guarantee and shall comply with all requirements in this section except for the requirements that are specifically related to the energy savings guarantee and the measurement and verification of the guaranteed savings.

This paragraph does not require school districts to increase total compensation for superintendents. Unless the school district governing board votes to implement an alternative procedure at a public meeting called for this purpose, the performance pay portion of the superintendent's total annual compensation shall be determined as follows:

(a) Twenty-five percent of the performance pay shall be determined based on the percentage of academic gain determined by the department of education of pupils who are enrolled in the school district compared to the academic gain achieved by the highest ranking of the fifty largest school districts in this state. For the purposes of this subdivision, the department of education shall determine academic gain by the academic growth achieved by each pupil who has been enrolled at the same school in a school district for at least five consecutive months measured against that pupil's academic results in the 2008-2009 school year. For the purposes of this subdivision, of the fifty largest school districts in this state, the school district with pupils who demonstrate the highest statewide percentage of overall academic gain measured against academic results for the 2008-2009 school year shall be assigned a score of 100 and the school district with pupils who demonstrate the lowest statewide percentage of overall academic gain measured against academic results for the 2008-2009 school year shall be assigned a score of 0.

The teacher satisfaction survey shall be administered and scored by an independent entity that is selected by the governing board and that demonstrates sufficient expertise and experience to accurately measure the results of the survey. The teacher satisfaction survey shall use standard random sampling procedures and provide anonymity and confidentiality to each teacher who participates in the survey. The letter grade scale used on the teacher satisfaction survey shall direct teachers to assign one of the following letter grades:

C. If any school district acquires real or personal property, whether by purchase, exchange, condemnation, gift or otherwise, the governing board shall pay to the county treasurer any taxes on the
property that were unpaid as of the date of acquisition, including
penalties and interest. The lien for unpaid delinquent taxes, penalties

covenant running with the title to the land, the school district may
locate a school within the affected buffer zone. The agreement may
include any stipulations regarding the school, including conditions for
future expansion of the school and changes in the operational status of
the school that will result in a breach of the agreement.

school facilities OVERSIGHT board to take the action. A reduction
includes an increase in administrative space that results in a reduction
of pupil square footage or sale of school sites or buildings, or both. A
reduction includes a reconfiguration of grades that results in a reduction
of pupil square footage of any grade level. This subsection does not
apply to temporary reconfiguration of grades to accommodate new school
construction if the temporary reconfiguration does not exceed one

the equipment requirements prescribed in section 15-2011 41-5711,
subsection B is subject to commensurate withholding of school district

school facilities OVERSIGHT board. Except as provided in section 15-342,

school district and the other party shall specify that, except as
otherwise provided by the other party, any such excess costs shall be the
responsibility of the school district. The school district governing
board shall adopt a resolution in a public meeting that an analysis has

A. The management and control of a career technical education
district are vested in the career technical education district governing
board, including the content and quality of the courses offered by the
district, the quality of teachers who provide instruction on behalf of the
district, the salaries of teachers who provide instruction on behalf of
the district and the reimbursement of other entities for the facilities
used by the district. This section does not restrict a school district
from offering any career and technical education course that does not
qualify for funding as a career technical education course or career
technical education district program. Unless the governing boards of the
school districts participating in the formation of the career technical
education district vote to implement an alternative election system as
provided in subsection B of this section, the career technical education
board shall consist of five members elected from five single
member districts formed within the career technical education district.
The single member district election system shall be submitted as part of
the plan for the career technical education district pursuant to section
15-392 and shall be established in the plan as follows:

1. The governing boards of the school districts participating in
the formation of the career technical education district shall define the
boundaries of the single member districts so that the single member
districts are as nearly equal in population as is practicable, except that
if the career technical education district lies in part in each of two or
more counties, at least one single member district may be entirely within
each of the counties comprising the career technical education district if
this district design is consistent with the obligation to equalize the
population among single member districts.

2. The boundaries of each single member district shall follow
election precinct boundary lines, as far as practicable, in order to avoid
further segmentation of the precincts.
3. A person who is a registered voter of this state and who is a resident of the single member district is eligible for election to the office of career technical education board member from the single member district. The terms of office of the members of the career technical education board shall be as prescribed in section 15-427, subsection B. An employee of a career technical education district or the spouse of an employee shall not hold membership on a governing board of a career technical education district by which the employee is employed. A member of one school district governing board or career technical education district governing board is ineligible to be a candidate for nomination or election to or serve simultaneously as a member of any other governing board, except that a member of a governing board may be a candidate for nomination or election for any other governing board if the member is serving in the last year of a term of office. A member of a governing board shall resign the member's seat on the governing board before becoming a candidate for nomination or election to the governing board of any other school district or career technical education district, unless the member of the governing board is serving in the last year of a term of office. Members of a career technical education district governing board are subject to the conflict of interest requirements prescribed in section 38-503.

4. Nominating petitions shall be signed by the number of qualified electors of the single member district as provided in section 16-322.

B. The governing boards of the school districts participating in the formation of the career technical education district may vote to implement any other alternative election system for the election of career technical education district board members. If an alternative election system is selected, it shall be submitted as part of the plan for the career technical education district pursuant to section 15-392, and the implementation of the system shall be as approved by the United States justice department.

C. The Career technical education district shall be subject to the following provisions of this title:

3. Articles 2, 3 and 5 of this chapter.
4. Section 15-361.
5. Chapter 4, articles 1, 2 and 5.

14. Chapter 10, articles 2, 3, 4 and 8.
D. Notwithstanding subsection C of this section, the following apply to a career technical education district:

The adjustment shall cause the school district of residence to reflect the courses to be taken at the career technical education district. The school district of residence shall review and approve the adjustment of its own student count as provided in this subdivision before the pupils from the school district can be added to the student count of the career technical education district.

Taxes may be levied for the support of the career technical education district as prescribed in chapter 9, article 6 of this title, except that a career technical education district shall not levy a property tax pursuant to law that exceeds five-cents $.05 per one-hundred dollars $100 assessed valuation except for bond monies pursuant to subsection D, paragraph 1 of this section. Except for the taxes levied pursuant to section 15-994, such taxes shall be obtained from a levy of taxes on the taxable property used for secondary tax purposes.

G. H. Special budget override provisions for school districts with a student count of less than one hundred fifty-four in kindergarten programs and grades one through eight or with a student count of less than one hundred seventy-six in grades nine through twelve are as follows:
1. The maximum budget increase that may be requested and authorized as provided in subsections E and F of this section is the greater of the amount prescribed in subsection G of this section or a limit computed as follows:

(a) For common or unified districts with a student count of less than one hundred fifty-four in kindergarten programs and grades one through eight, the limit computed as prescribed in item (i) or (ii) of this subdivision, whichever is appropriate:

$350,000 - $ = $

(c) If both subdivisions (a) and (b) of this paragraph apply to a unified school district, its limit for the purposes of this paragraph is the combination of its elementary limit and its secondary limit.

(d) If only subdivision (a) or (b) of this paragraph applies to a unified school district, the district's limit for the purposes of this paragraph is the sum of the limit computed as provided in subdivision (a) or (b) of this paragraph plus ten percent of the revenue control limit attributable to those grade levels that do not meet the eligibility requirements of this subsection. If a school district budgets monies outside the revenue control limit pursuant to section 15-949, subsection E, the district's limit for the purposes of this paragraph is only the ten percent of the revenue control limit attributable to those grade levels that are not included under section 15-949, subsection E. For the purposes of this subdivision, the revenue control limit is separated into elementary and secondary components based on the weighted student count as provided in section 15-971, subsection B, paragraph 2, subdivision (a).

2. If a school district utilizes this subsection to request an override of more than one year, the ballot shall include an estimate of the amount of the proposed increase in the future years in place of the statement that the amount of the proposed increase will be based on a percentage of the school district's revenue control limit in future years, as prescribed in subsections E and F of this section.

3. Notwithstanding subsection P of this section, the maximum period of an override authorized pursuant to this subsection is five years.

4. Subsection P, paragraphs 1 and 2 of this section do not apply to overrides authorized pursuant to this subsection.

I. If the election is to exceed the revenue control limit as provided in section 15-482 and if the proposed increase will be fully funded by a levy of taxes on the taxable property within the school district, the ballot shall contain the words "budget increase, yes" and "budget increase, no", and the voter shall signify the voter's desired choice. The ballot shall also contain the amount of the proposed increase of the budget over the alternate budget, a statement that the amount of the proposed increase will be based on a percentage of the school
district's revenue control limit in future years, if applicable, as provided in subsection Q of this section, and the following statement:

Any budget increase authorized by this election shall be entirely funded by a levy of taxes on the taxable property within this school district for the year for which adopted and for ____ subsequent years, shall not be realized from monies furnished by the state and shall not be subject to the limitation on taxes specified in article IX, section 18, Constitution of Arizona. Based on the current net assessed valuation used for secondary property tax purposes, to fund the proposed increase in the school district's budget that will be funded by a levy of taxes on the taxable property within this school district would require an estimated tax rate of $________ dollar per one-hundred-dollars $100 of net assessed valuation used for secondary property tax purposes and is in addition to the school district's tax rate that will be levied to fund the school district's revenue control limit allowed by law.

J. If the election is to exceed the revenue control limit as provided in section 15-482 and if the proposed increase will be fully funded by revenues other than a levy of taxes on the taxable property within the school district, the ballot shall contain the words "budget increase, yes" and "budget increase, no", and the voter shall signify the voter's desired choice. The ballot shall also contain the amount of the proposed increase of the proposed budget over the alternate budget, a statement that the amount of the proposed increase will be based on a percentage of the school district's revenue control limit in future years, if applicable, as provided in subsection Q of this section and the following statement:

Any budget increase authorized by this election shall be entirely funded by this school district with revenues from other than a levy of taxes on the taxable property within the school district for the year for which adopted and for ____ subsequent years and shall not be realized from monies furnished by the state.

K. The maximum budget increase that may be requested and authorized as provided in subsection I or J of this section, or a combination of both of these subsections, is five percent of the revenue control limit as provided in section 15-947, subsection A for the budget year. For a common school district not within a high school district or a common school district within a high school district that offers instruction in high school subjects as provided in section 15-447, five percent of the revenue control limit means five percent of the revenue control limit attributable to the weighted student count in preschool programs for children with disabilities, kindergarten programs and grades one through
eight as provided in section 15-971, subsection B. For a unified school
district, five percent of the revenue control limit means five percent of
the revenue control limit attributable to the weighted student count in
preschool programs for children with disabilities, kindergarten programs
and grades one through twelve. For a union high school district, five
percent of the revenue control limit means five percent of the revenue
control limit attributable to the weighted student count in grades nine
through twelve.

L. If the election is to exceed district additional assistance and
if the proposed increase will be fully funded by a levy of taxes on the
taxable property within the school district, the ballot shall contain the
words "budget increase, yes" and "budget increase, no", and the voter
shall signify the voter's desired choice. An election held pursuant to
this subsection shall be held on the first Tuesday after the first Monday
of November. The ballot shall also contain the amount of the proposed
increase of the proposed budget over the alternate budget and the
following statement:

Any budget increase authorized by this election shall be
entirely funded by a levy of taxes on the taxable property
within this school district for the year in which adopted and
for _____ subsequent years, shall not be realized from monies
furnished by the state and shall not be subject to the
limitation on taxes specified in article IX, section 18,
Constitution of Arizona. Based on the current net assessed
valuation used for secondary property tax purposes, to fund
the proposed increase in the school district's budget would
require an estimated tax rate of $_______________ dollar per
one-hundred-dollars $100 of net assessed valuation used for
secondary property tax purposes and is in addition to the
school district's tax rate that will be levied to fund the
school district's district additional assistance allowed by
law.

M. If the election is to exceed district additional assistance and
if the proposed increase will be fully funded by revenues from other than
a levy of taxes on the taxable property within the school district, the
ballot shall contain the words "budget increase, yes" and "budget
increase, no", and the voter shall signify the voter's desired choice. An
election held pursuant to this subsection shall be held on the first
Tuesday after the first Monday of November. The ballot shall also contain
the amount of the proposed increase of the proposed budget over the
alternate budget and the following statement:

Any budget increase authorized by this election shall be
entirely funded by this school district with revenues from
other than a levy of taxes on the taxable property within the
school district for the year in which adopted and for _____
subsequent years and shall not be realized from monies furnished by the state.

N. If the election is to exceed a combination of the revenue control limit as provided in subsection E or F of this section, the revenue control limit as provided in subsection I or J of this section or district additional assistance as provided in subsection L or M of this section, the ballot shall be prepared so that the voters may vote on each proposed increase separately and shall contain statements required in the same manner as if each proposed increase were submitted separately.

O. If the election provides for a levy of taxes on the taxable property within the school district, at least thirty days prior to the election, the department of revenue shall provide the school district governing board and the county school superintendent with the current net assessed valuation of the school district. The governing board and the county school superintendent shall use the current net assessed valuation of the school district to translate the amount of the proposed dollar increase in the budget of the school district over that allowed by law into a tax rate figure.

P. If the voters in a school district vote to adopt a budget in excess of the revenue control limit as provided in subsection E or F of this section, any additional increase shall be included in the aggregate budget limit for each of the years authorized. Any additional increase shall be excluded from the determination of equalization assistance. The school district governing board, however, may levy on the net assessed valuation used for secondary property tax purposes of the property in the school district the additional increase if adopted under subsection E of this section for the period of one year, two years or five through seven years as authorized. If an additional increase is approved as provided in subsection F of this section, the school district governing board may only use revenues derived from the school district's prior year's maintenance and operation fund ending cash balance to fund the additional increase. If a budget increase was previously authorized and will be in effect for the budget year or budget year and subsequent years, as provided in subsection E or F of this section, the governing board may request a new budget increase as provided in the same subsection under which the prior budget increase was adopted, which shall not exceed the maximum amount permitted under subsection G of this section. If the voters in the school district authorize the new budget increase amount, the existing budget increase no longer is in effect. If the voters in the school district do not authorize the budget increase amount, the existing budget increase remains in effect for the time period for which it was authorized. The maximum additional increase authorized as provided in subsection E or F of this section and the additional increase that is included in the aggregate budget limit is based on a percentage of a school district's revenue control limit in future years, if the budget
increase is authorized for more than one year. If the additional increase:

1. Is for two years, the proposed increase in the second year is equal to the initial proposed percentage increase.

2. Is for five years or more, the proposed increase is equal to the initial proposed percentage increase in the following years of the proposed increase, except that in the next to last year it is two-thirds of the initial proposed percentage increase and it is one-third of the initial proposed percentage increase in the last year of the proposed increase.

Q. If the voters in a school district vote to adopt a budget in excess of the revenue control limit as provided in subsection I or J of this section, any additional increase shall be included in the aggregate budget limit for each of the years authorized. Any additional increase shall be excluded from the determination of equalization assistance. The school district governing board, however, may levy on the net assessed valuation used for secondary property tax purposes of the property in the school district the additional increase if adopted under subsection I of this section for the period of one year, two years or five through seven years as authorized. If an additional increase is approved as provided in subsection J of this section, the increase may only be budgeted and expended if sufficient monies are available in the maintenance and operation fund of the school district. If a budget increase was previously authorized and will be in effect for the budget year or budget year and subsequent years, as provided in subsection I or J of this section, the governing board may request a new budget increase as provided in the same subsection under which the prior budget increase was adopted that does not exceed the maximum amount permitted under subsection K of this section. If the voters in the school district authorize the new budget increase amount, the existing budget increase no longer is in effect. If the voters in the school district do not authorize the budget increase amount, the existing budget increase remains in effect for the time period for which it was authorized. The maximum additional increase authorized as provided in subsection I or J of this section and the additional increase that is included in the aggregate budget limit is based on a percentage of a school district's revenue control limit in future years, if the budget increase is authorized for more than one year. If the additional increase:

1. Is for two years, the proposed increase in the second year is equal to the initial proposed percentage increase.

2. Is for five years or more, the proposed increase is equal to the initial proposed percentage increase in the following years of the proposed increase, except that in the next to last year it is two-thirds of the initial proposed percentage increase and it is one-third of the
initial proposed percentage increase in the last year of the proposed increase.

R. If the voters in a school district vote to adopt a budget in excess of district additional assistance as provided in subsection L of this section, any additional increase shall be included in the aggregate budget limit for each of the years authorized. The additional increase shall be excluded from the determination of equalization assistance. The school district governing board, however, may levy on the net assessed valuation used for secondary property tax purposes of the property in the school district the additional increase for the period authorized but not to exceed ten years. For overrides approved by a vote of the qualified electors of the school district at an election held from and after October 31, 1998, the period of the additional increase prescribed in this subsection shall not exceed seven years for any capital override election.

S. If the voters in a school district vote to adopt a budget in excess of district additional assistance as provided in subsection M of this section, any additional increase shall be included in the aggregate budget limit for each of the years authorized. The additional increase shall be excluded from the determination of equalization assistance. The school district governing board may only use revenues derived from the school district's prior year's maintenance and operation fund ending cash balance and capital outlay fund ending cash balance to fund the additional increase for the period authorized but not to exceed ten years. For overrides approved by a vote of the qualified electors of the school district at an election held from and after October 31, 1998, the period of the additional increase prescribed in this subsection shall not exceed seven years for any capital override election.

T. In addition to subsections P and S of this section, from the maintenance and operation fund and capital outlay fund ending cash balances, the school district governing board shall first use any available revenues to reduce its primary tax rate to zero and shall use any remaining revenues to fund the additional increase authorized as provided in subsections F and M of this section.

U. If the voters in a school district disapprove the proposed budget, the alternate budget that, except for any budget increase authorized by a prior election, does not include an increase in the budget in excess of the amount provided in section 15-905 shall be adopted by the governing board as provided in section 15-905.

V. The governing board may request that any override election be cancelled if any change in chapter 9 of this title changes the amount of the aggregate budget limit as provided in section 15-905. The request to cancel the override election shall be made to the county school superintendent at least eighty days prior to BEFORE the date of the scheduled override election.
W. For any election conducted pursuant to subsection L or M of this section:

1. The ballot shall include the following statement in addition to any other statement required by this section:

   The capital improvements that are proposed to be funded through this override election are to exceed the state standards and are in addition to monies provided by the state. _________ school district is proposing to increase its budget by $________ to fund capital improvements over and above those funded by the state. Under the students first capital funding system, _________ school district is entitled to state monies for new construction and renovation of school buildings in accordance with state law.

2. The ballot shall contain the words "budget increase, yes" and "budget increase, no", and the voter shall signify the voter's desired choice.

3. At least eighty-five days before the election, the school district shall submit proposed ballot language to the director of the Arizona legislative council. project is greater than fifty thousand dollars $50,000, the school
facilities board DIVISION shall approve or deny the project within sixty
days after receipt of RECEIVING the filing of the project proposal by the
school district and the expenditure shall not be made unless the school
facilities board DIVISION validates both of the following within sixty
days after receipt of RECEIVING the filing of the proposal:
1. The project that is proposed to be funded by the assessment is
in compliance COMPLIES with state laws relating to adjacent ways projects.
2. The proposal selected by the school district does not contain
additional work that is not listed in the adjacent ways proposal submitted
by the school district.
B. If any property that is owned by a school district or leased by
a school district for school purposes from any city or county, the state
or the United States is included within the assessment district to be
assessed to pay the costs and expenses of any public improvements
initiated by a city, in order to make the assessments thereon payable by
the city in which the improvement is initiated, the governing board may

for the amount of the assessment against the property and to pay the
amount so contracted for by the levy of a special assessment as provided
by subsection A of this section.
C. The governing board of the school district shall follow the
truth in taxation notice and hearing requirements prescribed in section

   (b) If the county treasurer maintains only two accounts as provided in paragraph 1 of this section:
      (i) The county treasurer may register warrants only on the first account and only if the balance of that account is insufficient to pay the warrants.
      (ii) The county treasurer may honor warrants for any federal or state grant fund with a negative balance as long as the total balance in the second account is positive. Sec. 49. Section 35-185.01, Arizona Revised Statutes, is amended to read:

35-185.01. Treasurer's warrant notes; form; redemption; exception

A. If monies are not available to pay warrants, checks or substitute checks, or electronic funds transfer vouchers of the department of administration presented to the state treasurer pursuant to section 35-185, the treasurer, in lieu of payment, shall issue and shall exchange or sell a treasurer's warrant note or notes in the amount or amounts equal to the sum of the face value of the warrants, checks or substitute checks, or electronic funds transfer vouchers presented for payment. Treasurer's warrant notes shall be issued in lieu of payment of state general fund warrants, checks or substitute checks, or electronic funds transfer vouchers only or in exchange for previously issued treasurer's warrant notes. Before issuing warrant notes, the state treasurer is not required to divest from program funding obligations issued pursuant to section 15-2157, board funding obligations issued pursuant to section 28-7678, monies in the budget stabilization fund or operating monies invested in securities that are earning a rate of interest greater than the cost of issuing warrant notes. For the purposes of this subsection, "monies are not available" means an operating cash balance is not available to pay warrants, checks or substitute checks, or electronic funds transfer vouchers except for those operating monies invested in program funding obligations issued pursuant to section 15-2157, board funding obligations issued pursuant to section 28-7678, monies in the budget stabilization fund or operating monies invested in securities that are earning a rate of interest greater than the total cost of issuing any warrant notes.

B. The face value of a treasurer's warrant note may be equal to the sum of any combination of warrants, checks or substitute checks, and electronic funds transfer vouchers presented for payment. The treasurer may sell warrant notes at public or private sale and shall use the proceeds of the sale to pay warrants, checks or substitute checks, and electronic funds transfer vouchers previously presented pursuant to section 35-185. Treasurer's warrant notes shall not be sold at a price below their face value.

C. Each treasurer's warrant note sold or exchanged shall be dated the date the respective warrants are presented for payment. If the date of delivery of a treasurer's warrant note that is sold is later than the date of presentment of the respective warrant or warrants, the purchaser of the treasurer's warrant note shall pay the accrued interest as an additional purchase price. The accrued interest shall be paid to the holder of the respective unpaid warrant or warrants, which shall be deemed to bear interest at the same rate as the respective treasurer's warrant note from presentment to payment from the proceeds of warrant notes sold.
D. The treasurer shall establish a maturity date for each treasurer's warrant note of not longer than ninety days from the date of initial issue. The treasurer may specify that treasurer's warrant notes may be called for redemption at any time before the specified maturity date.

E. The treasurer shall pay interest from the treasurer's warrant note redemption fund on the face value of each warrant note at the rate established by the state treasurer at the time of issuing the warrant note. Interest shall be paid from the date of the treasurer's warrant note until the maturity date or redemption date. The treasurer shall establish the interest rate before the exchange or sale of warrant notes at a rate of not more than the maximum rate permitted by the state loan commissioners.

F. The state loan commissioners, at a meeting called and chaired by the state treasurer, shall fix or change the maximum rate of interest that may be paid on warrant notes. Any change of the maximum allowable rate of interest as established by the state loan commissioners shall not affect warrant notes issued before the date of the change.

G. Each treasurer's warrant note shall be signed by the treasurer or the treasurer's designated agent and countersigned by the director of the department of administration or the director's designated agent. The required signatures may be electronic signatures. All treasurer's warrant notes shall be substantially in the following form:

Treasurer's warrant note
(20__ to ____ fiscal year)
Number _____________________
Phoenix, Arizona _________________, 20__
On ________, 20__, the treasurer of the state of Arizona will pay to the order of _______________ at _________________ with interest at _______ per annum from the date of issuance until paid (calculated on a 365/366 day basis).
(insert early redemption provisions)

____________________________    ____________________________
    (Countersigned)        State Treasurer
    Director of the department
    of administration

H. Treasurer's warrant notes may be exchanged or sold for the combined face value of any number of treasurer's warrant notes previously issued. Except for those treasurer's warrant notes issued in exchange for or to redeem treasurer's warrant notes previously issued, treasurer's warrant notes may not be issued, exchanged or sold except in payment of or to provide monies to pay warrants, checks or substitute checks, and
electronic funds transfer vouchers presented for payment as provided in
section 35-185.

I. Treasurer's warrant notes issued in any fiscal year shall be
numbered consecutively beginning with the number one. Treasurer's warrant
notes shall be redeemed in numerical order. If the treasurer has
sufficient monies to pay only a portion of the lowest numbered outstanding
warrant note, the treasurer may deposit the monies with the paying agent
pursuant to subsection K of this section or call in the lowest numbered
warrant note, before maturity according to its terms, and pay the bearer
the amount available and issue to the bearer a new warrant note bearing a
number that will preserve, for the new warrant note, the priority of the
partially paid warrant note and bearing a value equal to the amount of
principal and interest remaining unpaid. The new warrant note and the
partial payment of principal and interest on the partially paid warrant
note shall be exchanged for the partially paid warrant note. The new
warrant note shall pay interest at the same rate as the partially paid
warrant note. The treasurer may make the changes in the form and date of
the new warrant note as necessary to reflect the amount of unpaid interest
on the partially paid warrant note.

J. The treasurer may include in the form of the treasurer's warrant
notes provisions regarding the redemption and payment of treasurer's
warrant notes before maturity as are consistent with subsections I and K
of this section and section 35-185.02. If prior redemption is to be a
provision of a treasurer's warrant note, the note shall provide a method
to notify the holder of the note by publication or written, telegraphic or
electronic means as chosen by the treasurer.

K. The treasurer may appoint a paying agent to facilitate the
redemption and payment of treasurer's warrant notes. Monies deposited
with the paying agent shall be allocated to pay the principal of, interest
on and any prior redemption premiums associated with treasurer's warrant
notes in numerical order. A treasurer's warrant note is deemed paid for
all purposes of this section and section 35-185.02 when there is deposited
with the paying agent sufficient monies to pay all amounts when due on the
treasurer's warrant note and all amounts when due on all outstanding
treasurer's warrant notes bearing a lower number. A paying agent
appointed pursuant to this subsection shall provide security deposits as
required by the treasurer.

L. When the treasurer or the paying agent, if payment is made to a
paying agent, pursuant to subsection K of this section, pays treasurer's
warrant notes or when the warrant notes are redeemed, the treasurer or
paying agent shall mark on the face of the treasurer's warrant notes the
word "cancelled" or shall cancel the warrant notes by electronic means
indicating the date of cancellation and shall promptly present the notes
to the director of the department of administration who shall give the
state treasurer a receipt therefor.
M. If the state loan commissioners determine that it will result in a lower net effective interest rate on one, some or all warrant notes to be issued by the treasurer during the current fiscal year, the commissioners may authorize the treasurer to purchase letters of credit and to incur and pay insurance premiums, attorney fees or other related costs incurred with respect to treasurer's warrant notes. All such payments shall be treated in the same manner as interest to be paid on treasurer's warrant notes and shall be paid from the treasurer's warrant note redemption fund.

N. If treasurer's warrant notes are to be exchanged for warrants, checks or substitute checks, or electronic funds transfer vouchers held by banks or savings and loan associations, the treasurer may enter into agreements with such banks or savings and loan associations to provide for the issuance, reissuance and custody of treasurer's warrant notes, the fixing of the interest rates on the treasurer's warrant notes and the method of giving notice to the holders of the notes. Such agreements may provide for a book entry system for the treasurer's warrant notes or may provide for the issuance of one note with an appropriate grid on the reverse, which shall show the advancements made by the banks or savings and loan associations and also the payments of interest and reductions of principal. Such agreements may be continuing in nature, may be executed at any time and may apply to any treasurer's warrant notes exchanged for either warrants, checks or substitute checks, or electronic funds transfer vouchers or treasurer's warrant notes at any time during the remainder of the fiscal year in which the agreement is made. The agreements shall provide a method to preserve the priority of, interest rate on and other terms of each treasurer's warrant note exchanged pursuant to the agreement. Any such agreement shall not become effective until approved by the state loan commissioners.

If on inspection by the school facilities board DIVISION it is determined that a school district facility was inadequately maintained pursuant to the school district's routine preventive maintenance guidelines, the school district shall return the building to compliance with the school district's routine preventive maintenance guidelines.

L. M. The school facilities board AND THE DIVISION may temporarily transfer monies, OR, IF APPLICABLE, DIRECT THE DIVISION TO TRANSFER MONIES, between the capital reserve fund established by section 15-2003, the emergency deficiencies correction fund established by section 15-2022 and the new school facilities fund established by section 15-2041 if all of the following conditions are met:

1. The transfer is necessary to avoid a temporary shortfall in the fund into which the monies are transferred.
2. The transferred monies are restored to the fund where the monies originated as soon as practicable after the temporary shortfall in the other fund has been addressed.
3. The school facilities board reports AND THE DIVISION REPORT to the joint committee on capital review the amount of and the reason for any monies transferred.

N. O. After notifying each school district, and if a written objection from the school district is not received by the school facilities board OR THE DIVISION within thirty days of AFTER the notification, the school facilities board OR THE DIVISION may access public utility company records of power, water, natural gas, telephone and broadband usage to assemble consistent and accurate data on utility consumption at school facilities to determine the effectiveness of facility design, operation and maintenance measures intended to reduce energy and water consumption and costs. Any public utility that provides service to a school district in this state shall provide the data requested by the school facilities board OR THE DIVISION pursuant to this subsection.

O. P. The school facilities DIVISION OR THE board shall not require a common school district that provides instruction to pupils in grade nine to obtain approval from the school facilities DIVISION OR THE board to reconfigure its school facilities. A common school district that provides instruction to pupils in grade nine is not entitled to additional
monies from the school facilities DIVISION OR THE board for facilities to educate pupils in grade nine.

6. A school district may appeal the denial of a request for monies pursuant to this chapter or any other appealable agency action by the school facilities DIVISION OR THE board pursuant to title 41, chapter 6, article 10 OF THIS TITLE. For the purposes of this subsection, "appealable agency action" has the same meaning prescribed in section 41-1092.

Sec. 64. Section 41-5703, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-5703. School facilities oversight board lease-to-own; fund; expiration

A. In order to fulfill the requirements of section 15-2041 or 41-5741, the school facilities board may acquire school facilities for the use of one or more school districts by entering into one or more lease-to-own transactions in accordance with this section. For the purposes of this section, providing school facilities includes land acquisition, related infrastructure, fixtures, furnishings, equipment and costs of the lease-to-own transaction. The school facilities board may provide monies to provide school facilities in part pursuant to section 15-2041 or 41-5741 and in part through a lease-to-own transaction.

B. A lease-to-own transaction may provide for:

1. The ground lease of the land for the facilities to a private entity for the term of the lease-to-own transaction or for a term of up to one and one-half times the term of the lease-to-own transaction, subject to earlier termination on completion of performance of the lease-to-own agreement. The ground lessor may either be the school district or the school facilities board, whichever holds title to the land.

2. The lease of the completed school facilities by a private entity to the school facilities board for an extended term of years pursuant to a lease-to-own agreement.

3. The sublease of the completed school facilities by the school facilities board to the school district during the term of the lease-to-own agreement. The sublease shall provide for the use, maintenance and operation of the school facilities by the school district and for the transfer of ownership of the school facilities to the school district on completion of performance of the lease-to-own agreement.

4. The option for the school facilities board’s purchase of the school facilities and transfer of ownership of the school facilities to the school district before the expiration of the lease-to-own agreement.

5. The services of trustees, financial advisors, paying agents, transfer agents, underwriters, lawyers and other professional service providers, credit enhancements or liquidity facilities and all other services considered necessary by the school facilities board in connection with the lease-to-own transaction, and related agreements and arrangements
including arrangements for the creation and sale of certificates of
participation evidencing proportionate interests in the lease payments to
be made by the school facilities board pursuant to the lease-to-own
agreement.

C. The sublease of the school facilities to the school district is
subject to this section and to the provisions of the lease-to-own
agreement. Neither a ground lease by the school district as lessor nor a
sublease of the school facilities to the school district is required to be
authorized by a vote of the school district electors. A ground lease is
not subject to any limitations or requirements applicable to leases or
lease-purchase agreements pursuant to section 15-342 or any other section
of TITLE 15 OR this title CHAPTER.

D. Any school facility that is constructed through a lease-to-own
agreement shall meet the minimum building adequacy standards set forth in
section 15-2011 41-5711.

E. School districts may use local monies to exceed the minimum
adequacy standards and to build athletic fields and any other capital
project for leased-to-own facilities.

F. The school facilities board shall include any square footage of
new school facilities constructed through lease-to-own agreements in the
computations prescribed in section 15-2011 41-5711.

G. THE lease-to-own fund is established consisting of monies
appropriated by the legislature. The school facilities board shall
administer the fund and distribute monies in the fund to make payments
pursuant to lease-to-own agreements entered into by the school facilities
board pursuant to this section, to make payments to or for the benefit of
school districts pursuant to local lease-to-own agreements entered into by
school districts pursuant to section 15-2005 41-5704 and to pay costs
considered necessary by the school facilities board in connection with
lease-to-own transactions and local lease-to-own transactions. Payments
by the school facilities board pursuant to a lease-to-own agreement or
local lease-to-own agreement shall be made only from the lease-to-own
fund. On notice from the school facilities board, the state treasurer
shall invest and divest monies in the fund as provided by section 35-313,
and monies earned from investment shall be credited to the lease-to-own
fund.

H. A lease-to-own agreement entered into by the school facilities
board pursuant to this section shall provide that:

1. At the completion of the lease-to-own agreement, ownership of
the school facilities and land associated with the lease-to-own agreement
shall be transferred to the school district as specified in the agreement.

2. The obligation of the school facilities board to make any
payment under the lease-to-own agreement is a current expense, payable
exclusively from appropriated monies, and is not a general obligation
indebtedness of this state or the school facilities board. The obligation
of a school district to make expenditures under a sublease pursuant to subsection B, paragraph 3 of this section is a current expense, payable exclusively from budgeted monies, and is not a general obligation indebtedness of the school district.

3. If the legislature fails to appropriate monies or the school facilities board fails to allocate such monies for any periodic payment or renewal term of the lease-to-own agreement, the lease-to-own agreement terminates at the end of the current term and this state and the school facilities board are relieved of any subsequent obligation under the agreement and the school district is relieved of any subsequent obligation under the sublease.

4. The lease-to-own agreement shall be reviewed and approved by the attorney general before the agreement may take effect.

5. Before the agreement takes effect and after review by the attorney general, the project or projects related to the agreement shall be submitted for review by the joint committee on capital review.

I. The school facilities board may covenant to use its best efforts to budget, obtain, allocate and maintain sufficient appropriated monies to make payments under a lease-to-own agreement, but the lease-to-own agreement shall acknowledge that appropriating state monies is a legislative act and is beyond the control of the school facilities board or of any other party to the lease-to-own agreement.

J. The land and the school facilities on the land are exempt from taxation during the term of the lease-to-own agreement and during construction and subsequent occupancy by the school district pursuant to the sublease.

K. The powers prescribed in this section are in addition to the powers conferred by any other law. Without reference to any other provision of TITLE 15, this title CHAPTER or to any other law, this section is authority for the completion of the purposes prescribed in this section for the school facilities board to provide school facilities for use by school districts through lease-to-own transactions pursuant to this section without regard to the procedure required by any other law. Except as otherwise provided in this section, the provisions of TITLE 15 AND this title CHAPTER that relate to the matters contained in this section are superseded because this section is the exclusive law on these matters.

L. The school facilities board shall not enter into lease-to-own transactions, including any refinancings or refundings, pursuant to this section from and after May 15, 2006.

Sec. 65. Section 41-5704, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-5704. Local lease-to-own by school districts; expiration

A. In order to fulfill the requirements of section 15-2041 41-5741, with the approval of the school facilities board, a school district may acquire school facilities by entering into a local lease-to-own
transaction in accordance with this section. For purposes of this
section, providing school facilities includes land acquisition, related
infrastructure, fixtures, furnishings, equipment and costs of the local
lease-to-own transaction. The school facilities board may provide monies
to provide school facilities in part pursuant to section 15-2041 and in part through payments to or for the benefit of a school district
for a local lease-to-own transaction.

B. A local lease-to-own transaction may provide for:

1. The ground lease of the land for the facilities to a private
   entity for the term of the local lease-to-own transaction or for a term of
   up to one and one-half times the term of the local lease-to-own
   transaction, subject to earlier termination on completion of performance
   of the local lease-to-own agreement. The ground lessor may either be the
   school district or the school facilities board, whichever holds title to
   the land.

2. The lease of the completed school facilities by a private entity
   to the school district for an extended term of years pursuant to a local
   lease-to-own agreement. The local lease-to-own agreement shall provide
   for the use, maintenance and operation of the school facilities by the
   school district and for the transfer of ownership of the school facilities
   to the school district on completion of performance of the local
   lease-to-own agreement.

3. The option for the school district's purchase of the school
   facilities and transfer of ownership of the school facilities to the
   school district before the expiration of the local lease-to-own agreement.

4. The services of trustees, financial advisors, paying agents,
   transfer agents, underwriters, lawyers and other professional service
   providers, credit enhancements or liquidity facilities and all other
   services considered necessary by the school district or the school
   facilities board in connection with the local lease-to-own transaction,
   and related agreements and arrangements including arrangements for the
   creation and sale of certificates of participation evidencing
   proportionate interests in the lease payments to be made by the school
   district pursuant to the local lease-to-own agreement.

C. Neither a ground lease by the school district as lessor nor a
local lease-to-own agreement is required to be authorized by a vote of the
school district electors. A ground lease is not subject to any
limitations or requirements applicable to leases or lease-purchase
agreements pursuant to section 15-342 or any other section of TITLE 15 OR
this chapter.

D. The school facilities board may make payments to or for the
benefit of the school district from the lease-to-own fund established by
section 15-2004 for the payment of amounts payable under the local
lease-to-own agreement.
E. Any school facility that is constructed through a lease-to-own agreement shall meet the minimum building adequacy standards set forth in section 15-2011 41-5711.

F. School districts may use local monies to exceed the minimum adequacy standards and to build athletic fields and any other capital project for leased-to-own facilities.

G. The school facilities board shall include any square footage of new school facilities constructed through lease-to-own agreements in the computations prescribed in section 15-2011 41-5711.

H. A local lease-to-own agreement entered into by a school district pursuant to this section shall provide that:

1. At the completion of the lease-to-own agreement, ownership of the school facilities and land associated with the lease-to-own agreement shall be transferred to the school district as specified in the agreement.

2. The obligation of the school district to make any payment or expenditure under the local lease-to-own agreement is a current expense, payable exclusively from properly budgeted monies, and is not a general obligation indebtedness of this state, the school facilities board or the school district, and that any payment by the school facilities board to or for the benefit of the school district from the lease-to-own fund established by section 15-2004 41-5703 for payments of amounts payable under the local lease-to-own agreement is a current expense, payable exclusively from appropriated monies, and is not a general obligation indebtedness of this state or the school facilities board.

3. If the school district fails to properly budget for payments under the local lease-to-own agreement or if the legislature fails to appropriate monies or the school facilities board fails to allocate monies for periodic payment to or for the benefit of the school district for payments under the local lease-to-own agreement, the local lease-to-own agreement terminates at the end of the current term and the school district, the school facilities board and this state are relieved of any subsequent obligation under the local lease-to-own agreement.

4. The local lease-to-own agreement shall be reviewed and approved by the attorney general before the agreement may take effect.

5. Before the agreement takes effect and after review by the attorney general, the project or projects related to the agreement shall be submitted for review by the joint committee on capital review.

I. The school district may covenant to use its best efforts to budget, obtain, allocate and maintain sufficient monies to make payments under a local lease-to-own agreement, but the local lease-to-own agreement shall acknowledge that budgeting school district monies is a governmental act of the school district governing board that may not be contracted away. The school facilities OVERSIGHT board is not required to covenant to budget, obtain, allocate or maintain sufficient monies in the
lease-to-own fund to make payments to or for the benefit of a school district for payments under a local lease-to-own agreement.

J. The land and the school facilities on the land are exempt from taxation during the term of the local lease-to-own agreement and during construction and subsequent occupancy by the school district pursuant to the local lease-to-own agreement.

K. The powers prescribed in this section are in addition to the powers conferred by any other law. Without reference to any other provision of TITLE 15 OR this title CHAPTER or to any other law, this section is authority for the completion of the purposes prescribed in this section for school districts to provide school facilities through local lease-to-own transactions pursuant to this section without regard to the procedure required by any other law. Except as otherwise provided in this section, the provisions of TITLE 15 OR this title CHAPTER that relate to the matters contained in this section are superseded because this section is the exclusive law on these matters.

A. The school facilities board, as determined and prescribed in this chapter, shall provide funding to school districts for new construction as the number of pupils in the district fills the existing school facilities and requires more pupil space.

B. School buildings in a school district are adequate if all of the following requirements are met:

1. The buildings contain sufficient and appropriate space and equipment that comply with the minimum school facility adequacy guidelines established pursuant to subsection F of this section. The state shall not fund facilities for elective courses that require the school district facilities to exceed minimum school facility adequacy requirements. The school facilities board shall determine whether a school building meets
the requirements of this paragraph by analyzing the total square footage
that is available for each pupil in conjunction with the need for
specialized spaces and equipment.

2. The buildings are in compliance with federal, state and local
building and fire codes and laws that are applicable APPLY to the
particular building, except that a school with an aggregate area of less
than five thousand square feet is subject to permitting and inspection by
a local fire marshal and is only subject to regulation or inspection by
the office of the state fire marshal if the county, city or town in which
the school is located does not employ a local fire marshal. An existing
school building is not required to comply with current requirements for
new buildings unless this compliance is specifically mandated by law or by
the building or fire code of the jurisdiction where the building is
located.

3. The building systems, including roofs, plumbing, telephone
systems, electrical systems, heating systems and cooling systems, are in
working order and are capable of being properly maintained.

4. The buildings are structurally sound.

C. The standards that shall be used by the school facilities board
to determine whether a school building meets the minimum adequate gross
square footage requirements are as follows:

1. For a school district that provides instruction to pupils in
programs for preschool children with disabilities, kindergarten programs
and grades one through six, eighty square feet per pupil in programs for
preschool children with disabilities, kindergarten programs and grades one
through six.

hundred pupils in grades nine through twelve, one hundred twenty-five
square feet per pupil in grades nine through twelve.

5. For a school district that provides instruction to more than
four hundred and up to one thousand pupils in grades nine through twelve,
one hundred twenty square feet per pupil in grades nine through twelve or
fifty thousand square feet, whichever is more.

6. For a school district that provides instruction to more than one
thousand and up to one thousand eight hundred pupils in grades nine
through twelve, one hundred twelve square feet per pupil in grades nine
through twelve or one hundred twenty thousand square feet, whichever is

D. The school facilities board may modify the square footage requirements prescribed in subsection C of this section or modify the amount of monies awarded to cure the square footage deficiency pursuant to this section for particular school districts based on extraordinary circumstances for any of the following considerations:

1. The number of pupils served by the school district.
2. Geographic factors.
3. Grade configurations other than those prescribed in subsection C of this section.

E. In measuring the square footage per pupil requirements of subsection C of this section, the school facilities board shall:

2. For each school, use the lesser of either:
   (a) Total gross square footage.
   (b) Student capacity multiplied by the appropriate square footage per pupil prescribed by subsection C of this section.
3. Consider the total space available in all schools in use in the school district, except that the school facilities board shall allow an exclusion of the square footage for certain schools and the pupils within the schools' boundaries if the school district demonstrates to the board's satisfaction unusual or excessive busing of pupils or unusual attendance boundary changes between schools.
4. Compute the gross square footage of all buildings by measuring from exterior wall to exterior wall. Square footage used solely for district administration, storage of vehicles and other nonacademic purposes shall be excluded from the net square footage.
5. Include all portable and modular buildings.
6. Include in the net square footage new construction funded wholly or partially by the school facilities board based on the square footage funded by the school facilities board. If the new construction is to exceed the square footage funded by the school facilities board, the excess square footage shall not be included in the net square footage if any of the following applies:
   (a) The excess square footage was constructed before July 1, 2002 or funded by a class B bond, impact aid revenue bond or capital outlay override approved by the voters after August 1, 1998 and before June 30, 2002 or funded from unrestricted capital outlay expended before June 30, 2002.
(b) The excess square footage of new school facilities does not exceed twenty-five percent of the minimum square footage requirements pursuant to subsection C of this section.

(c) The excess square footage of expansions to school facilities does not exceed twenty-five percent of the minimum square footage requirements pursuant to subsection C of this section.

7. Exclude square footage built under a developer agreement according to section 15-342, paragraph 33 until the school facilities board provides funding for the square footage under section 15-2041-5741, subsection O.

8. Include square footage that a school district has leased to another entity.

F. The school facilities board shall adopt rules establishing minimum school facility adequacy guidelines. The guidelines shall provide the minimum quality and quantity of school buildings and facilities and equipment necessary and appropriate to enable pupils to achieve the academic standards pursuant to section 15-203, subsection A, paragraphs 12 and 13 and sections 15-701 and 15-701.01. G. THE BOARD MAY CONVENE SUBCOMMITTEES AS NEEDED ON SPECIFIC ISSUES, INCLUDING SCHOOL FACILITY SAFETY STANDARDS. NOTWITHSTANDING ANY OTHER LAW, A SCHOOL DISTRICT THAT RECEIVES GRANT MONIES FROM THE BUILDING RENEWAL GRANT FUND ESTABLISHED BY SECTION 41-5731 OR MONIES FROM THE NEW SCHOOL FACILITIES FUND ESTABLISHED BY SECTION 41-5741 SHALL CONSIDER SCHOOL FACILITY SAFETY STANDARDS WHEN COMPLETING APPROVED PROJECTS OR CONSTRUCTING NEW SCHOOL FACILITIES WITH MONIES RECEIVED FROM THOSE FUNDS.

G. H. The board shall consider the facilities and equipment of the schools with the highest academic productivity scores, as prescribed in section 15-2002 41-5702, subsection A, paragraph 9-6, subdivision (d),
and the highest parent quality ratings in the establishment of the

curing existing deficiencies pursuant to section 15-2002 41-5702,
subsection A, paragraph 1 and in certifying plans for new school
facilities pursuant to section 15-2002 41-5702, subsection A—C, paragraph
5—2.

**I. J.** If the school—facilities board makes any changes to the
minimum adequacy requirements prescribed in this section, the board shall
provide a fiscal impact statement of the effect of the proposed changes to
the joint committee on capital review for review.

**J. K.** For the purposes of this section, “student capacity” means
the capacity adjusted to include any additions to or deletions of space,
including modular or portable buildings at the school. The school—
facilities board shall determine the student capacity for each school in
conjunction with each school district, recognizing each school’s
allocation of space as of July 1, 1998, to achieve the academic standards
prescribed pursuant to section 15-203, subsection A, paragraphs 12 and 13
and sections 15-701 and 15-701.01.

Sec. 68. Section 41-5721, Arizona Revised Statutes, as transferred
and renumbered, is amended to read:

A. The emergency deficiencies correction fund is established
consisting of monies transferred from the new school facilities fund
established by section 15-2041 41-5741. The school—facilities board
DIVISION shall administer the emergency deficiencies correction fund and
distribute monies in accordance with the rules of the school—facilities

disrupt or reduce any capital projects that the school—facilities board
has approved pursuant to section 15-2041 41-5741. The school—facilities
board DIVISION shall transfer to the emergency deficiencies correction
fund the amount necessary each fiscal year to fulfill the requirements of
this section. Within thirty days after transferring monies to the
emergency deficiencies correction fund, the school—facilities board
DIVISION shall report to the director of the joint legislative budget
committee and the director of the governor’s office of strategic planning
and budgeting the amount and source of the transfer. Monies in the
emergency deficiencies correction fund are continuously appropriated and
are exempt from the provisions of section 35-190 relating to lapsing of

B. If the school facilities board DIVISION determines that there are insufficient monies in the emergency deficiencies correction fund to correct an emergency, the school district may correct the emergency pursuant to section 15-907.

C. If a school district has an emergency, the school district shall apply to the school facilities board DIVISION for funding for the emergency. The school district's application shall disclose any insurance or building renewal monies available to the school district to pay for the emergency. BEFORE APPLYING TO THE DIVISION FOR FUNDING FOR THE EMERGENCY, THE SCHOOL DISTRICT GOVERNING BOARD SHALL ISSUE AN EMERGENCY DECLARATION OR RESOLUTION TO BE ELIGIBLE FOR MONIES FROM THE EMERGENCY DEFICIENCIES CORRECTION FUND.

D. The school facilities board DIVISION staff shall acknowledge receipt of the school district's application for emergency deficiencies funding in writing within five business days after receiving the application. Sec. 69. Section 41-5731, Arizona Revised Statutes, as transferred
and renumbered, is amended to read:

41-5731. Building renewal grant fund; rules; definitions

A. The building renewal grant fund is established consisting of
monies appropriated to the fund by the legislature. The school facilities
board DIVISION shall administer the fund and distribute monies to school
districts for the purpose of maintaining the adequacy of existing school
facilities. Monies in the fund are exempt from the provisions of section
35-190 relating to lapsing of appropriations.

B. The school facilities board DIVISION shall distribute monies
from the BUILDING RENEWAL GRANT fund based on grant requests from school
districts to fund primary building renewal projects. Project requests
shall be prioritized by the school facilities board DIVISION, with
priority given to school districts that have provided routine preventive
maintenance on the facility. A SCHOOL DISTRICT MUST SUBMIT A PREVENTIVE
MAINTENANCE PLAN TO THE DIVISION TO BE ELIGIBLE TO RECEIVE MONIES FROM THE
BUILDING RENEWAL GRANT FUND. The school facilities board DIVISION shall
approve only projects that will be completed within twelve months, unless
similar projects on average take longer to complete. A GRANT ISSUED UNDER
THIS SECTION EXPIRES TWELVE MONTHS AFTER THE GRANT REQUEST IS APPROVED
UNLESS THE DIVISION ISSUES AN EXTENSION, EXCEPT THAT IF THE DIVISION
APPROVES A PROJECT AND DETERMINES THAT SIMILAR PROJECTS ON AVERAGE TAKE
LONGER THAN TWELVE MONTHS TO COMPLETE, THE DIVISION SHALL EXTEND THE GRANT
EXPIRATION DATE BASED ON THE AVERAGE AMOUNT OF TIME THAT SIMILAR PROJECTS
TAKE TO COMPLETE. THE DIVISION SHALL ESTABLISH A PROCESS BY WHICH A
SCHOOL DISTRICT MAY REQUEST AN EXTENSION UNDER THIS SUBSECTION. ON
EXPIRATION OF A GRANT, A SCHOOL DISTRICT SHALL RETURN ANY BUILDING RENEWAL
GRANT FUND MONIES THAT THE SCHOOL DISTRICT HAS NOT SPENT TO THE DIVISION

GRANT fund shall use these monies on projects for buildings or any part of
a building in the school facilities board's DIVISION'S database for any of
the following:

3. Exterior beautification.
4. Demolition.

5. Routine preventive maintenance.

6. Any project in a building, or part of a building, that is being leased to another entity.

E. Accommodation schools are not eligible for monies from the building renewal grant fund.

F. If the school facilities board DIVISION or a court of competent jurisdiction determines that a school district received monies from the building renewal grant fund that must be reimbursed to the school facilities board DIVISION due to legal action associated with improper construction by a hired contractor, the school district shall reimburse the school facilities board DIVISION an agreed-on amount for deposit into the building renewal grant fund.

G. The school facilities board DIVISION shall categorize each project that is eligible for monies from the building renewal grant fund as either critical or noncritical. The board DIVISION shall adopt policies and procedures to prioritize critical projects and to designate critical projects as projects that immediately impact student safety or building closures or that result in operational disruptions. Critical projects have priority over any previously approved noncritical projects.

H. If the school facilities board DIVISION determines that sufficient monies are not available for a noncritical project that the board DIVISION has approved, the board DIVISION shall notify the school district that submitted the project request that monies will be distributed from the building renewal grant fund for the project only if the legislature appropriates sufficient monies. If sufficient monies are not available in the fiscal year in which the project is awarded for a noncritical project, the noncritical project does not receive priority in the next fiscal year.

I. Building renewal grants pursuant to this section shall be used only for projects that serve an academic purpose.

J. THE DIVISION SHALL DO BOTH OF THE FOLLOWING:

1. IMPLEMENT POLICIES AND PROCEDURES TO REQUIRE A SCHOOL DISTRICT TO REPORT THE PREVENTIVE MAINTENANCE ACTIVITIES COMPLETED DURING THE PREVIOUS TWELVE MONTHS FOR THE FACILITY FOR WHICH THE MONIES ARE BEING REQUESTED.

2. SUBMIT A MONTHLY REPORT TO THE SCHOOL FACILITIES OVERSIGHT BOARD THAT DETAILS HOW MONIES FROM THE BUILDING RENEWAL GRANT FUND HAVE BEEN DISTRIBUTED.

K. IN ADDITION TO ESTABLISHING A PROJECT ELIGIBILITY ASSESSMENT UNDER SECTION 41-5702, SUBSECTION A, PARAGRAPH 5, SUBDIVISION (b), THE DIVISION SHALL ADOPT RULES REGARDING BOTH OF THE FOLLOWING:

1. THE APPROVAL OF BUILDING RENEWAL GRANTS PURSUANT TO THIS SECTION.
2. TIME FRAMES FOR THE DIVISION REGARDING ALL OF THE FOLLOWING WITH RESPECT TO THIS SECTION:
   (a) APPROVING OR DENYING GRANT REQUESTS FOR CRITICAL PROJECTS.

M. THE DIVISION MAY SPEND MONIES FROM THE FUND FOR ASSESSMENTS TO DETERMINE IF A GRANT FROM THE FUND IS WARRANTED UNDER THIS SECTION.

N. For the purposes of this section:
   1. "Primary building renewal projects" means projects that are necessary for buildings owned by school districts that are required to meet the minimum adequacy standards for student capacity and that fall below the minimum school facility adequacy guidelines, as adopted by the school facilities board pursuant to section 15-2011 41-5711, for school districts that have provided routine preventive maintenance to the school facility.
   2. "Routine preventive maintenance" means services that are performed on a regular schedule at intervals ranging from four times a year to once every three years, or on the schedule of services recommended by the manufacturer of the specific building system or equipment, and that are intended to extend the useful life of a building system and reduce the need for major repairs.
   3. "Student capacity" has the same meaning prescribed in section 15-2011 41-5711.

Sec. 70. Section 41-5741, Arizona Revised Statutes, as transferred and renumbered, is amended to read:

41-5741. New school facilities fund; capital plan; reporting requirements

A. The new school facilities fund is established consisting of monies appropriated by the legislature and monies credited to the NEW SCHOOL FACILITIES fund pursuant to section 37-221. The school facilities board shall administer the NEW SCHOOL FACILITIES fund and, AT THE DIRECTION OF THE SCHOOL FACILITIES OVERSIGHT BOARD, SHALL distribute monies, as a continuing appropriation, to school districts for the purpose of constructing new school facilities and for contracted expenses pursuant to section 15-2002 41-5702, subsection B, paragraphs 2, 3 and 4. On June 30 of each fiscal year, any unobligated contract monies in the new school facilities fund shall be transferred to the capital reserve fund established by section 15-2003.
B. The school facilities OVERSIGHT board shall prescribe a uniform format for use by the school district governing board in developing and annually updating a capital plan that consists of each of the following:

1. Enrollment projections for the next five years for elementary schools and eight years for middle and high schools, including a description of the methods used to make the projections.

2. A description of new schools or additions to existing schools needed to meet the building adequacy standards prescribed in section 15-2014 41-5711. The description shall include:
   (a) The grade levels and the total number of pupils that the school or addition is intended to serve.
   (b) The year in which it is necessary for the school or addition to begin operations.
   (c) A timeline that shows the planning and construction process for the school or addition.

3. Long-term projections of the need for land for new schools.

4. Any other necessary information required by the school facilities OVERSIGHT board to evaluate a school district's capital plan.

5. If a school district pays tuition for all or a portion of the school district's high school pupils to another school district, the capital plan shall indicate the number of pupils for which the district pays tuition to another district. If a school district accepts pupils from another school district pursuant to section 15-824, subsection A, the school district shall indicate the projections for this population separately. This paragraph does not apply to a small isolated school district as defined in section 15-901.

C. If the capital plan indicates a need for a new school or an addition to an existing school within the next four years or a need for land within the next ten years, the school district shall submit its plan to the school facilities OVERSIGHT board on or before September 1 and shall request monies from the new school facilities fund for the new construction or land. The school facilities board may require a school district to sell land that was previously purchased entirely with monies provided by the school facilities board if the school facilities board determines that the property is no longer needed within the ten-year period specified in this subsection for a new school or no longer needed within that ten-year period for an addition to an existing school. Monies provided for land are in addition to any monies provided pursuant to subsection D of this section.

D. AT THE DIRECTION OF the school facilities board, THE DIVISION shall distribute monies from the new school facilities fund for additional square footage as follows:

1. The school facilities board shall review and evaluate the enrollment projections. On or before December 15 of each year, following the submission of the enrollment projections, the school facilities board
shall either approve the projections as submitted or revise the projections. In approving or revising the enrollment projections, the school facilities board shall use the average daily membership data available during the current school year. On request from the school facilities board, the department of education shall make available the most recent average daily membership data for use in revising the enrollment projections. In determining new construction requirements, the school facilities board shall determine the net new growth of pupils that will require additional square footage that exceeds the building adequacy standards prescribed in section 15-2011 41-5711. If the projected growth and the existing number of pupils exceed three hundred fifty pupils who are served in a school district other than the pupil's resident school district, the school facilities board, the receiving school district and the resident school district shall develop a capital facilities plan on how to best serve those pupils. A small isolated school district as defined in section 15-901 is not required to develop a capital facilities plan pursuant to this paragraph.

2. If the average daily membership projections indicate that additional space will not be needed within the next two school years in order to meet the building adequacy standards prescribed in section 15-2011 41-5711, the request shall be held for consideration by the school facilities board for possible future funding and the school district shall annually submit an updated plan until the additional space is needed.

3. If the average daily membership projections indicate that additional space will be needed within the next two school years in order to meet the building adequacy standards prescribed in section 15-2011 41-5711, the school facilities board shall provide an amount as follows:

   (a) Determine the number of pupils requiring additional square footage to meet building adequacy standards. This amount for elementary schools shall not be less than the number of new pupils for whom space will be needed in the next year and shall not exceed the number of new pupils for whom space will be needed in the next five years. This amount for middle and high schools shall not be less than the number of new pupils for whom space will be needed in the next four years and shall not exceed the number of new pupils for whom space will be needed in the next eight years.

   (b) Multiply the number of pupils determined in subdivision (a) of this paragraph by the square footage per pupil. The square footage per pupil is ninety square feet per pupil for preschool children with disabilities, kindergarten programs and grades one through six, one hundred square feet for grades seven and eight, one hundred thirty-four square feet for a school district that provides instruction in grades nine through twelve for fewer than one thousand eight hundred pupils and one hundred twenty-five square feet for a school district that provides instruction in grades nine through twelve for at least one thousand eight
hundred pupils. The total number of pupils in grades nine through twelve in the district shall determine the square footage factor to use for net new pupils. The school facilities board may modify the square footage requirements prescribed in this subdivision for particular schools based on any of the following factors:

(i) The number of pupils served or projected to be served by the school district.

(ii) Geographic factors.

(iii) Grade configurations other than those prescribed in this subdivision.

(iv) Compliance with minimum school facility adequacy requirements established pursuant to section 15-2011 41-5711.

(c) Multiply the product obtained in subdivision (b) of this paragraph by the cost per square foot. The cost per square foot is $90 $270.24 for preschool children with disabilities, kindergarten programs and grades one through six, $95 $285.30 for grades seven and eight and $110 $330.30 for grades nine through twelve. The cost per square foot shall be adjusted annually for construction market considerations based on an index identified or developed by the joint legislative budget committee as necessary but not less than once each year. EACH ANNUAL CONSTRUCTION MARKET ADJUSTMENT APPLIES TO ALL PROJECTS APPROVED BY THE SCHOOL FACILITIES BOARD UNDER THIS SUBSECTION DURING THAT YEAR. The school facilities board shall multiply the cost per square foot by 1.05 for any school district located in a rural area. The school facilities board may only modify the base cost per square foot prescribed in this subdivision for particular schools based on geographic conditions or site conditions. ANY EXTRA MONIES RECEIVED AS A RESULT OF A MODIFICATION BASED ON GEOGRAPHIC CONDITIONS OR SITE CONDITIONS MAY BE USED TO ADDRESS UNFORESEEN COSTS AT ANY STAGE OF A PROJECT UNDER THIS SECTION. For the purposes of this subdivision, "rural area" means an area outside a thirty-five-mile radius of a boundary of a municipality with a population of more than fifty thousand persons.

(d) Once the school district governing board obtains approval from the school facilities board for new facility construction monies, additional portable or modular square footage created for the express purpose of providing temporary space for pupils until the completion of the new facility and any additional space funded by the school district shall not be included by the school facilities board for the purpose of new construction funding calculations. On completion of the new facility construction project, any additional space funded by the school district shall be included as prescribed by this chapter and, if the portable or modular facilities continue in use, the portable or modular facilities shall be included as prescribed by this chapter, unless the school facilities board approves their continued use for the purpose of providing
4. For projects approved after December 31, 2001, and notwithstanding paragraph 3 of this subsection, a unified school district that does not have a high school is not eligible to receive high school space as prescribed by section 15-2011 and this section unless the unified district qualifies for geographic factors prescribed by paragraph 3, subdivision (b), item (ii) of this subsection.

5. If a career technical education district leases a building from a school district, that building shall be included in the school district's square footage calculation for the purposes of new construction pursuant to this section.

6. If a school district leases a building to another entity, that building shall be included in the school district's square footage calculation for purposes of new construction pursuant to this section.

7. A school district shall qualify for monies from the new school facilities fund for additional square footage in a fiscal year only if the school facilities board has approved or revised its enrollment projection under paragraph 1 of this subsection on or before December 15 of the prior fiscal year.

E. Monies for architectural and engineering fees, project management services and preconstruction services shall be distributed on the completion of the analysis by the school facilities board of the school district's request. After receiving monies pursuant to this subsection, the school district shall submit a design development plan for the school or addition to the school facilities board before any monies for construction are distributed. If the school district's request meets the building adequacy standards, the school facilities board may review and comment on the district's plan with respect to the efficiency and effectiveness of the plan in meeting state square footage and facility standards before distributing the remainder of the monies. If the school facilities board modifies the cost per square foot as prescribed in subsection D, paragraph 3, subdivision (c) of this section, the school facilities board may deduct the cost of project management services and preconstruction services from the required cost per square foot. The school facilities board may decline to fund the project if the square footage is no longer required due to revised enrollment projections. The school facilities board may decline a portion of the funding if a portion of the square footage is no longer needed due to revised enrollment projections.

F. AT THE DIRECTION OF the school facilities board, THE DIVISION shall distribute the monies needed for land for new schools so that land may be purchased at a price that is less than or equal to fair market value and in advance of the construction of the new school. If necessary, the school facilities board may DIRECT THE DIVISION TO distribute monies...
for land to be leased for new schools if the duration of the lease exceeds the life expectancy of the school facility by at least fifty percent. A school district shall not use land purchased or partially purchased with monies provided by AT THE DIRECTION OF the school facilities board for a purpose other than a site for a school facility without obtaining prior written approval from the school facilities board. A school district shall not lease, sell or take any action that would diminish the value of land purchased or partially purchased with monies provided by AT THE DIRECTION OF the school facilities board without obtaining prior written approval from the school facilities board. The proceeds derived through the sale of any land purchased or partially purchased, or the sale of buildings funded or partially funded, with monies provided by AT THE DIRECTION OF the school facilities board shall be returned to the state fund from which it was appropriated and to any other participating entity on a proportional basis. Except as provided in section 15-342, paragraph 33, if a school district acquires real property by donation at an appropriate school site approved by the school facilities board, the school facilities board shall DIRECT THE DIVISION TO distribute an amount equal to twenty percent of the fair market value of the donated real property that can be used for academic purposes. The school district shall place the monies in the unrestricted capital outlay fund and increase the unrestricted capital budget limit by the amount of monies placed in the fund. Monies distributed under this subsection shall be distributed from the new school facilities fund. A school district that receives monies from the new school facilities fund for a donation of land pursuant to section 15-342, paragraph 33 shall not receive monies from the school facilities board OR THE DIVISION for the donation of real property pursuant to this subsection. A school district shall not pay a consultant a percentage of the value of any of the following:

1. Donations of real property, services or cash from any of the following:
   (a) Entities that have offered to provide construction services to the school district.
   (b) Entities that have been contracted to provide construction services to the school district.
   (c) Entities that build residential units in that school district.
   (d) Entities that develop land for residential use in that school district.

2. Monies received from the school facilities board UNDER THIS CHAPTER on behalf of the school district.

3. Monies paid by OR AT THE DIRECTION OF the school facilities board on behalf of the school district.

G. In addition to distributions to school districts based on pupil growth projections, a school district may submit an application to the school facilities board for monies from the new school facilities fund if
one or more school buildings have outlived their useful life OR HAVE BEEN CONDEMNED. If the school facilities board determines that the school district needs to build a new school building for these reasons, the school facilities board shall remove the square footage computations that represent the building from the computation of the school district's total square footage for purposes of this section. If the square footage recomputation reflects that the school district no longer meets building adequacy standards, the school district qualifies for a distribution of monies from the new school construction formula in an amount determined pursuant to subsection D of this section. The school facilities board may only modify the base cost per square foot prescribed in this subsection under extraordinary circumstances for geographic factors or site conditions.

H. School districts that receive monies from the new school facilities fund shall establish a district new school facilities fund and shall use the monies in the district new school facilities fund only for the purposes prescribed in this section. By October 15 of each year, each school district shall report to the school facilities board the projects funded at each school in the previous fiscal year with monies from the district new school facilities fund and shall provide an accounting of the monies remaining in the new school facilities fund at the end of the previous fiscal year.

I. If a school district has surplus monies received from the new school facilities fund, the school district may use the surplus monies only for capital purposes for the project for up to one year after completion of the project. If the school district possesses surplus monies from the new school construction project that have not been expended within one year of the completion of the project, the school district shall return the surplus monies to the school facilities board for deposit in the new school facilities fund.

J. The board's consideration of any application filed after December 31 of the year in which the property becomes territory in the vicinity of a military airport or ancillary military facility as defined in section 28-8461 for monies to fund the construction of new school facilities proposed to be located in territory in the vicinity of a military airport or ancillary military facility shall include, if after notice is transmitted to the military airport pursuant to section 15-2002 41-5702 and before the public hearing the military airport provides comments and an analysis concerning compatibility of the proposed school facilities with the high noise or accident potential generated by military airport or ancillary military facility operations that may have an adverse effect on public health and safety, consideration and an analysis of the comments and an analysis provided by the military airport before making a final determination.
K. If a school district uses its own project manager for new school construction, the members of the school district governing board and the project manager shall sign an affidavit stating that the members and the project manager understand and will follow the minimum adequacy requirements prescribed in section 15-2011 41-5711.

L. The school facilities board division shall establish a separate account in the new school facilities fund designated as the litigation account to pay attorney fees, expert witness fees and other costs associated with litigation in which the school facilities board pursues the recovery of damages for deficiencies correction that resulted from alleged construction defects or design defects that the school facilities board believes caused or contributed to a failure of the school building to conform to the building adequacy requirements prescribed in section 15-2011 41-5711. Attorney fees paid pursuant to this subsection shall not exceed the market rate for similar types of litigation. On or before December 1 of each year, the school facilities board shall report to the joint committee on capital review the costs associated with current and potential litigation that may be paid from the litigation account.

M. Until the state board of education and the auditor general adopt rules pursuant to section 15-213, subsection J, the school facilities board may allow school districts to contract for construction services and materials through the qualified select bidders list method of project delivery for new school facilities pursuant to this section.

N. The school facilities board shall submit electronically a report on project management services and preconstruction services to the governor, the president of the senate and the speaker of the house of representatives by December 31 of each year. The report shall compare projects that use project management and preconstruction services with those that do not. The report shall address cost, schedule and other measurable components of a construction project. School districts, construction-manager-at-risk firms and project management firms that participate in a school facilities board funded board-funded project shall provide the information required by the school facilities board in relation to this report.

O. If a school district constructs new square footage according to section 15-342, paragraph 33, the school facilities board shall review the design plans and location of any new school facility submitted by school districts and another party to determine whether the design plans comply with the adequacy standards prescribed in section 15-2011 41-5711 and the square footage per pupil requirements pursuant to subsection D, paragraph 3, subdivision (b) of this section. When the school district qualifies for a distribution of monies from the new school facilities fund according to this section, the school facilities board shall direct the division to distribute monies to the school district from the new school facilities fund for the square footage constructed under section 15-342, paragraph 33.
at the same cost per square foot established by this section that was in effect at the time of the beginning of the construction of the school facility. Before the school facilities board distributes DIRECTS THE DIVISION TO DISTRIBUTE any monies pursuant to this subsection, the school district shall demonstrate to the school facilities board that the facilities to be funded pursuant to this section meet the minimum adequacy standards prescribed in section 15-2011 41-5711. The agreement entered into pursuant to section 15-342, paragraph 33 shall set forth the procedures for the allocation of these funds to the parties that participated in the agreement.

P. Accommodation schools are not eligible for monies from the new school facilities fund.

Q. If the school facilities board approves a school district for funding from the new school facilities fund and the full legislative appropriation is not available to the school district in the fiscal year following the approval by the school facilities board, the school district may use any legally available monies to pay for the land or the new construction project approved by the school facilities board and may reimburse the fund from which the monies were used in subsequent years with legislative appropriations when those appropriations are made available by this state.

1. The real property and improvements must be located in this state.

2. The real property and improvements must be conveyed unencumbered and in fee simple, except that:

   (a) The conveyance must include as a deed restriction and protective covenant running with title to the land the requirement that as long as the donee holds title to the property the property shall only be used as a school or as a site for the construction of a school, subject to subsection I or J of this section.

   (b) In the case of a donation to a charter school, the donor shall record a lien on the property as provided by subsection J, paragraph 3 of this section.

3. The conveyance shall not violate section 15-341, subsection D or section 15-183, subsection U.

C. For the purposes of this section, the value of the donated property is the property's fair market value as determined in an appraisal as defined in section 32-3601 that is conducted by an independent party and that is paid for by the donee.

D. If the property is donated by co-owners, including individual partners in a partnership, each donor may claim only the pro rata share of the allowable credit under this section based on the ownership interest. If the property is donated by a husband and wife who file separate returns for a taxable year in which they could have filed a joint return, they may determine between them the share of the credit each will
claim. The total of the credits allowed all co-owner donors may not exceed the allowable credit.

E. If the allowable tax credit exceeds the taxes otherwise due under this title on the claimant's income, or if there are no taxes due under this title, the taxpayer may carry the amount of the claim not used to offset the taxes under this title forward for not more than five consecutive taxable years' income tax liability.

F. The credit under this section is in lieu of any deduction pursuant to section 170 of the internal revenue code taken for state tax purposes.

G. On written request by the donee, the donor shall disclose in writing to the donee the amount of the credit allowed pursuant to this section with respect to the property received by the donee.

H. A school district or charter school may refuse the donation of any property for purposes of this section.

I. If the donee is a school district:

1. The district shall notify the DIVISION OF school facilities board established by section 15-2001 WITHIN THE DEPARTMENT OF ADMINISTRATION and furnish the board DIVISION with any information the board DIVISION requests regarding the donation. A school district shall not accept a donation pursuant to this section unless the school facilities board DIVISION has reviewed the proposed donation and has issued a written determination that the real property and improvements are suitable as a school site or as a school. The school facilities board DIVISION shall issue a determination that the real property and improvements are not suitable as a school site or as a school if the expenses that would be necessary to make the property suitable as a school site or as a school exceed the value of the proposed donation.

2. The district may sell any donated property pursuant to section 15-342, but the proceeds from the sale shall only be used for capital projects. The school facilities OVERSIGHT board shall DIRECT THE DIVISION OF SCHOOL FACILITIES WITHIN THE DEPARTMENT OF ADMINISTRATION TO withhold an amount that corresponds to the amount of the proceeds from any monies that would otherwise be due the school district from the school facilities board pursuant to section 15-2041 41-5741.

J. If the donee is a charter school:

1. The charter school shall:

   (a) Immediately notify the sponsor of the charter school by certified mail and shall furnish the sponsor with any information requested by the sponsor regarding the donation during the ten-year TEN-YEAR period after the conveyance is recorded.

   (b) Notify the sponsor by certified mail, and the sponsor shall notify the state treasurer, in the event of the charter school’s financial failure or if the charter school:
(i) Fails to establish a charter school on the property within forty-eight months after the conveyance is recorded.

(ii) Fails to provide instruction to pupils on the property within forty-eight months after the conveyance is recorded.

(iii) Establishes a charter school on the property but subsequently ceases to operate the charter school on the property for twenty-four consecutive months or fails to provide instruction to pupils on the property for twenty-four consecutive months.

2. The charter school, or a successor in interest, shall pay to the state treasurer the amount of the credit allowed under this section, or if that amount is unknown, the amount of the allowable credit under this section, if any of the circumstances listed in paragraph 1, subdivision 1(b) of this subsection occurs. If the amount is not paid within one year after the treasurer receives notice under paragraph 1, subdivision (b) of this subsection, a penalty and interest shall be added, determined pursuant to title 42, chapter 1, article 3.

3. A tax credit under this section constitutes a lien on the property, which the donor must record along with the title to the property to qualify for the credit. The amount of the lien is the amount of the allowable credit under this section, adjusted according to the average change in the GDP price deflator, as defined in section 41-563, for each calendar year since the donation, but not exceeding twelve and one-half percent more than the allowable credit. The lien is subordinate to any liens securing the financing of the school construction. The lien is extinguished on the earliest of the following:

(a) Ten years after the lien is recorded. After that date, the charter school, or a successor in interest, may request the state treasurer to release the lien.

(b) On payment to the state treasurer by the donee charter school, or by a successor in interest, of the amount of the allowable credit under this section, either voluntarily or as required by paragraph 2 of this subsection. After the required amount is paid, the charter school or successor in interest may request the state treasurer to release the lien.

(c) On conveyance of fee simple title to the property to a school district.

(d) On enforcement and satisfaction of the lien pursuant to paragraph 4 of this subsection.

4. The state treasurer shall enforce the lien by foreclosure within one year after receiving notice of any of the circumstances described in paragraph 1, subdivision (b) of this subsection.

The school district shall reduce its budget limit accordingly.

G. The crisis management team may assist the school district governing board in identifying candidates to act as an interim superintendent.
