## **SB 1003: early voting; signature required; notice**

**Sponsor: Senator Ugenti-Rita, LD 23**

**Transmitted to the Governor**

### **Overview**

Requires the county recorder or other officer in charge of elections to make reasonable efforts to contact the elector and advise them of the missing signature on an early ballot envelope.

### **History**

Accompanying an early ballot are printed instructions which the county recorder or other officer in charge of elections is required to provide. The instructions direct the voter to sign the affidavit on the ballot's envelope, mark the ballot and return both in the sealed, self-addressed envelope that complies with statute. The printed instructions are required to include a statement telling the voter that for the ballot to be counted, it must be delivered to the office of the county recorder or other officer in charge of the election no later than 7:00 p.m. on election day ([A.R.S. § 16-547](#)).

After an officer in charge of elections receives an early ballot, they compare the signature of the elector on the ballot with the elector's signature on their registration record. If the officer in charge of elections sees an inconsistency with the signature on the elector's registration record and the one on the ballot, they will make a reasonable effort to contact the voter and inform them of an inconsistent signature and allow them to correct or confirm the signature. The officer in charge of elections must allow signatures to be corrected up to five days after an election involving a federal office, and three days after any other election ([A.R.S. § 16-550](#)).
