Sec. 5. Title 16, chapter 4, article 1, Arizona Revised Statutes,
is amended by adding section 16-410.01, to read:

16-410.01. County recorder; duties
NOTWITHSTANDING ANY OTHER LAW, THE COUNTY RECORDER IS RESPONSIBLE
ONLY FOR PROVIDING AN ADEQUATE NUMBER AND TYPE OF BALLOTS, PENS, TABLES
AND OTHER EQUIPMENT AS NECESSARY FOR THE VARIOUS POLLING PLACES LOCATED IN
PRECINCTS AS DETERMINED BY THE NUMBER OF REGISTERED VOTERS IN THE
PRECINCTS. THE COUNTY BOARD OF SUPERVISORS SHALL PERFORM OR SUPERVISE ALL
OTHER ELECTION RELATED DUTIES.

Sec. 6. Section 16-411, Arizona Revised Statutes, is amended to
read:

16-411. Designation of election precincts and polling places;
voting centers; electioneering; wait times
A. The board of supervisors of each county, on or before October 1
each year preceding the year of a general election, by an order, shall
establish a convenient number of election precincts in the county and
define the boundaries of the precincts. The election precinct boundaries
shall be established so as to be included within election districts
prescribed by law for elected officers of the state and its political
subdivisions including community college district precincts, except those
elected officers provided for in titles 30 and 48. THE BOARD OF
SUPERVISORS MAY NOT ESTABLISH AN ELECTION PRECINCT THAT CONTAINS MORE THAN
ONE THOUSAND FIVE HUNDRED REGISTERED VOTERS ON THE DATE THE ELECTION
PRECINCT’S BOUNDARIES ARE ESTABLISHED.
B. At least twenty days before a general or primary election, and
at least ten days before a special election, the board shall designate one
polling place within each precinct where the election shall be held,
except that:
1. On a specific finding of the board, included in the order or
resolution designating polling places pursuant to this subsection, that no
suitable polling place is available within a precinct, a polling place for
that precinct may be designated within an adjacent precinct.
2. Adjacent precincts may be combined if boundaries so established are included in election districts prescribed by law for state elected officials and political subdivisions including community college districts but not including elected officials prescribed by titles 30 and 48. The officer in charge of elections may also split a precinct for administrative purposes. The polling places shall be listed in separate sections of the order or resolution.

3. On a specific finding of the board that the number of persons who are listed as early voters pursuant to section 16-544 is likely to substantially reduce the number of voters appearing at one or more specific polling places at that election, adjacent precincts may be consolidated by combining polling places and precinct boards for that election. The board of supervisors shall ensure that a reasonable and adequate number of polling places IN EACH Precinct will be designated for that election. Any consolidated polling places shall be listed in separate sections of the order or resolution of the board.

4. On a specific resolution of the board, the board may NOT authorize the use of voting centers in place of or in addition to specifically designated polling places. A voting center shall allow any voter in that county to receive the appropriate ballot for that voter on election day after presenting identification as prescribed in section 16-579 and to lawfully cast the ballot. Voting centers may be established in coordination and consultation with the county recorder, at other county offices or at other locations in the county deemed appropriate.

5. On a specific resolution of the board of supervisors that is limited to a specific election date and that is voted on by a recorded vote, the board may authorize the county recorder or other officer in charge of elections to use emergency voting centers as follows:
   (a) The board shall specify in the resolution the location and the hours of operation of the emergency voting centers.
   (b) A qualified elector voting at an emergency voting center shall provide identification as prescribed in section 16-579, except that notwithstanding section 16-579, subsection A, paragraph 2, for any voting at an emergency voting center, the county recorder or other officer in charge of elections may allow a qualified elector to update the elector's voter registration information as provided for in the secretary of state's instructions and procedures manual adopted pursuant to section 16-492.
   (c) If an emergency voting center established pursuant to this section becomes unavailable and there is not sufficient time for the board of supervisors to convene to approve an alternate location for that emergency voting center, the county recorder or other officer in charge of elections may make changes to the approved emergency voting center location and shall notify the public and the board of supervisors regarding that change as soon as practicable. The alternate emergency
voting center shall be as close in proximity to the approved emergency
center location as possible.

5. THE BOARD OF SUPERVISORS MAY NOT CHANGE A POLLING PLACE UNLESS
THE VOTERS IN THAT PRECINCT ARE NOTIFIED BY MAIL AT LEAST TWO YEARS IN
ADVANCE THAT THE POLLING PLACE HAS CHANGED.

C. If the board fails to designate the place for holding the
election, or if it cannot be held at or about the place designated, the
justice of the peace in the precinct, two days before the election, by an
order, copies of which the justice of the peace shall immediately post in
three public places in the precinct, shall designate the place within the
precinct for holding the election. If there is no justice of the peace in
the precinct, or if the justice of the peace fails to do so, the election
board of the precinct shall designate and give notice of the place within
the precinct of holding the election. For any election in which there are
no candidates for elected office appearing on the ballot, the board may
consolidate polling places and precinct boards and may consolidate the
tabulation of results for that election if all of the following apply:

1. All affected voters are notified by mail of the change at least
   thirty-three days before the election.
2. Notice of the change in polling places includes notice of the
   new voting location, notice of the hours for voting on election day and
   notice of the telephone number to call for voter assistance.
3. All affected voters receive information on early voting that
   includes the application used to request an early voting ballot.

D. The board is not required to designate a polling place for
special district mail ballot elections held pursuant to article 8.1 of
this chapter, but the board may designate one or more sites for voters to
deposit marked ballots until 7:00 p.m. on the day of the election.

E. D. Except as provided in subsection F of this section, A public
school shall provide sufficient space for use as a polling place for any
city, county or state election when requested by the officer in charge of
elections.

F. The principal of the school may deny a request to provide space
for use as a polling place for any city, county or state election if,
within two weeks after a request has been made, the principal provides a
written statement indicating a reason the election cannot be held in the
school, including any of the following:

1. Space is not available at the school.
2. The safety or welfare of the children would be jeopardized.

E. WHenever possible, The board of supervisors shall use public
schools and governmental offices as polling places. On request, school
district governing board members, principals and managers of governmental
offices shall allow their sites to be used as polling places.
G. F. The board shall make available to the public as a public record a list of the polling places for all precincts in which the election is to be held.

H. G. Except in the case of an emergency, any facility that is used as a polling place on election day or that is used as an early voting site during the period of early voting shall allow persons to electioneer and engage in other political activity outside of the seventy-five foot limit prescribed by section 16-515 in public areas and parking lots used by voters. This subsection does not allow the temporary or permanent construction of structures in public areas and parking lots or the blocking or other impairment of access to parking spaces for voters. The county recorder or other officer in charge of elections shall post on its website at least two weeks before election day a list of those polling places in which emergency conditions prevent electioneering and shall specify the reason the emergency designation was granted and the number of attempts that were made to find a polling place before granting an emergency designation. If the polling place is not on the website list of polling places with emergency designations, electioneering and other political activity shall be allowed outside of the seventy-five foot limit. If an emergency arises after the county recorder or other officer in charge of elections' initial website posting, the county recorder or other officer in charge of elections shall update the website as soon as is practicable to include any new polling places, shall highlight the polling place location on the website and shall specify the reason the emergency designation was granted and the number of attempts that were made to find a polling place before granting an emergency designation.

I. H. For the purposes of this section, a county recorder or other officer in charge of elections shall designate a polling place as an emergency polling place and thus prohibit persons from electioneering and engaging in other political activity outside of the seventy-five foot limit prescribed by section 16-515 but inside the property of the facility that is hosting the polling place if any of the following occurs:

1. An act of God renders a previously set polling place as unusable.

2. A county recorder or other officer in charge of elections has exhausted all options and there are no suitable facilities in a precinct that are willing to be a polling place unless a facility can be given an emergency designation.

J. The secretary of state shall provide through the instructions and procedures manual adopted pursuant to section 16-452 the maximum allowable wait time for any election that is subject to section 16-204 and provide for a method to reduce voter wait time at the polls in the primary and general elections. The method shall consider at least all of the following for primary and general elections in each precinct:
1. The number of ballots voted in the prior primary and general elections.
2. The number of registered voters who voted early in the prior primary and general elections.
3. The number of registered voters and the number of registered voters who cast an early ballot for the current primary or general election.
4. The number of election board members and clerks and the number of rosters that will reduce voter wait time at the polls.

Sec. 7. Section 16-442, Arizona Revised Statutes, is amended to read:

16-442. Committee approval
A. The secretary of state shall appoint a committee of three persons, to consist of a member of the engineering college at one of the universities, a member of the state bar of Arizona and one person familiar with voting processes in the state, not more than two of whom shall be of the same political party, and at least one of whom shall have at least five years of experience with and shall be able to render an opinion based on knowledge of, training in or education in electronic voting systems, procedures and security. The committee shall investigate and test the various types of vote recording or tabulating machines or devices that may be used under this article. Except as required to comply with section 16-442.01, the secretary of state may not approve for general use electronic voting machines and electronic tabulating machines.
C. After consultation with the committee prescribed by subsection A of this section, the secretary of state shall adopt standards that specify the criteria for loss of certification for equipment that was used at any election for federal, state or county offices and that was previously certified for use in this state. On loss of certification, machines or devices used at any election may not be used for any election for federal, state or county offices in this state unless recertified for use in this state.
D. The secretary of state may revoke the certification of any voting system or device for use in a federal, state or county election in this state or may prohibit for up to five years the purchase, lease or use
of any voting system or device leased, installed or used by a person or firm in connection with a federal, state or county election in this state, or both, if either of the following occurs:

E. The governing body of a city or town or the board of directors of an agricultural improvement district may adopt for use in elections any kind of electronic voting system or vote tabulating device approved by the secretary of state, and thereupon the voting or marking device and vote tabulating equipment may be used at any or all elections for voting, recording and counting votes cast at an election.

F. The secretary of state or the governing body may provide for the experimental use of a voting system or device without a final adoption of the voting system or device, and its use at the election is as valid as if the machines had been permanently adopted.

G. After consultation with the committee prescribed by subsection A of this section, the secretary of state may approve for emergency use an upgrade or modification to a voting system or device that is certified for use in this state if the governing body establishes in an open meeting that the election cannot be conducted without the emergency certification.

Any emergency certification shall be limited to no more than six months. At the conclusion of the certification period the voting system or device shall be decertified and unavailable for future use unless certified in accordance with this section.

Sec. 8. Section 16-442.01, Arizona Revised Statutes, is amended to read:

16-442.01. Accessible voting technology; recommendations; certification; applicability

A. On completion of the certification process pursuant to this section and section 16-442, the secretary of state shall require that voting systems that are used by entities that are governed by section 16-204, but not including cities and towns with a population of less than twenty thousand persons, provide persons who are blind or visually impaired with access to voting that is equivalent to that provided to persons who are not blind or visually impaired.

elections for purposes of a separate manual audit pursuant to subsection F
of this section.

2. The races to be counted on the ballots from the precincts that

special and general election shall include up to five contested races.
After the county recorder or other officer in charge of elections

shall be determined by selecting by lot without the use of a computer from
those ballots as follows:
(a) For a general election, one statewide ballot measure, unless
there are no measures on the ballot.
(b) One contested statewide race for statewide office.
(c) One contested race for federal office, either United States
senate or United States house of representatives. If the United States
house of representatives race is selected, the names of the candidates may
vary among the sampled precincts.
(d) One contested race for state legislative office, either state
house of representatives or state senate. In either case, the names of
the candidates may vary among the sampled precincts.
(e) If there are fewer than four contested races resulting from the
selections made pursuant to subdivisions (a) through (d) of this section
and if there are additional contested federal, statewide or legislative
races or ballot measures, additional contested races shall be selected by
lot not using a computer until four races have been selected or until no
additional contested federal, statewide or legislative races or ballot
measures are available for selection.
(f) If there are no contested races as prescribed by this paragraph, a hand count shall not be conducted for that precinct for that election.

3. For the presidential preference election, select by lot two percent of the polling places designated and used pursuant to section 16-248 and perform the hand count of those ballots.

4. For the purposes of this section, a write-in candidacy in a race does not constitute a contested race.

5. In elections in which there are candidates for president, the presidential race shall be added to the four categories of hand counted races.

6. Each county chairman of a political party that is entitled to continued representation on the state ballot or the chairman’s designee shall select by lot the individual races to be hand counted pursuant to this section.

7. The county chairman of each political party shall designate and provide the number of election board members as designated by the county officer in charge of elections who shall perform the hand count under the supervision of the county officer in charge of elections. For each precinct that is to be audited, the county chairmen shall designate at least two board workers who are registered members of any or no political party to assist with the audit. Any qualified elector from this state may be a board worker without regard to party designation. The county election officer shall provide for compensation for those board workers, not to include travel, meal or lodging expenses. If there are less than two persons for each audited precinct available to participate on behalf of each recognized political party, the recorder or officer in charge of elections, with the approval of at least two county party chairpersons in the county in which the shortfall occurs, shall substitute additional individual electors who are provided by any political party from anywhere in the state without regard to party designation to conduct the hand count. A county party chairman shall approve only those substitute electors who are provided by the county chairman’s political party. The political parties shall provide to the recorder or officer in charge of elections in writing the names of those persons intending to participate in the hand count at the audited precincts not later than 5:00 p.m. on the Tuesday preceding the election. If the total number of board workers provided by all parties is less than four times the number of precincts to be audited, the recorder or officer in charge of elections shall notify the parties of the shortage by 9:00 a.m. on the Wednesday preceding the election. The hand count shall not proceed unless the political parties provide the recorder or officer in charge of elections, in writing, a sufficient number of persons by 5:00 p.m. on the Thursday preceding the election and a sufficient number of persons, pursuant to this paragraph, arrive to perform the hand count. The recorder or officer in charge of
elections may prohibit persons from participating in the hand count if
they are taking actions to disrupt the count or are unable to perform the
duties as assigned. For the hand count to proceed, not more than
seventy-five percent of the persons performing the hand count shall be
from the same political party.

B. If a political party is not represented by a designated
chairperson within a county, the state chairperson for that political
party, or a person designated by the state chairperson, may perform the
actions required by the county chairperson as specified in this section.

C. If the randomly selected races result in a difference in any
race that is less than the designated margin when compared to the
electronic tabulation of those same ballots, the results of the electronic
tabulation constitute the official count for that race. If the randomly
selected races result in a difference in any race that is equal to or
greater than the designated margin when compared to the electronic
tabulation of those same ballots, a second hand count of those same
ballots and races shall be performed. If the second hand count results in
a difference in any race that is less than the designated margin when
compared to the electronic tabulation for those same ballots, the
electronic tabulation constitutes the official count for that race. If
the second hand count results in a difference in any race that is equal to
or greater than the designated margin when compared to the electronic
tabulation for those same ballots, the hand count shall be expanded to
include a total of twice the original number of randomly selected
precincts. Those additional precincts shall be selected by lot without
the use of a computer.

D. In any expanded count of randomly selected precincts, if the
randomly selected precinct hand counts result in a difference in any race
that is equal to or greater than the designated margin when compared to
the electronic tabulation of those same ballots, the final hand count
shall be extended to include the entire jurisdiction for that race. If
the jurisdictional boundary for that race would include any portion of
more than one county, the final hand count shall not be extended into the
precincts of that race that are outside of the county that is conducting
the expanded hand count. If the expanded hand count results in a
difference in that race that is less than the designated margin when
compared to the electronic tabulation of those same ballots, the
electronic tabulation constitutes the official count for that race.

E. If a final hand count is performed for an entire jurisdiction
for a race, the final hand count shall be repeated for that race until a
hand count for that race for the entire jurisdiction results in a count
that is identical to one other hand count for that race for the entire
jurisdiction and that hand count constitutes the official count for that
race.
F. After the electronic tabulation of early ballots and at one or more times selected by the chairman of the political parties entitled to continued representation on the ballot or the chairman's designee, the chairmen or the chairman's designees shall randomly select one or more batches of early ballots that have been tabulated to include at least one batch from each machine used for tabulating early ballots and those ballots shall be securely sequestered by the county recorder or officer in charge of elections along with their unofficial tally reports for a postelection manual audit. The chairmen or the chairman's designees shall randomly select from those sequestered early ballots a number equal to one percent of the total number of early ballots cast or five thousand early ballots, whichever is less. From those randomly selected early ballots, the county officer in charge of elections shall conduct a manual audit of the same races that are being hand counted pursuant to subsection B of this section. If the manual audit of the early ballots results in a difference in any race that is equal to or greater than the designated margin when compared to the electronically tabulated results for those same early ballots, the manual audit shall be repeated for those same early ballots. If the second manual audit results in a difference in that race that is equal to or greater than the designated margin when compared to the electronically tabulated results for those same early ballots, the manual audit shall be expanded only for that race to a number of additional early ballots equal to one percent of the total early ballots cast or an additional five thousand ballots, whichever is less, to be randomly selected from the batch or batches of sequestered early ballots. If the expanded early ballot manual audit results in a difference for that race that is equal to or greater than the designated margin when compared to any of the earlier manual counts for that race, the manual counts shall be repeated for that race until a manual count results in a difference in that race that is less than the designated margin. If at any point in the manual audit of early ballots the difference between any manual count of early ballots is less than the designated margin when compared to the electronic tabulation of those ballots, the electronic tabulation shall be included in the canvass and no further manual audit of the early ballots shall be conducted.

G. During any hand count of early ballots, the county officer in charge of elections and election board workers shall attempt to determine the intent of the voter in casting the ballot.

H. Notwithstanding any other law, the county officer in charge of elections shall retain custody of the ballots for purposes of performing any required hand counts and the officer shall provide for security for those ballots.

I. The hand counts prescribed by this section shall begin within twenty-four hours after the closing of the polls and shall be completed before the canvassing of the election for that county. The results of
those hand counts shall be provided to the secretary of state, who shall make those results publicly available on the secretary of state's website.

J. For any county in which a hand count has been expanded to all precincts in the jurisdiction, the secretary of state shall make available the escrowed source code for that county to the superior court. The superior court shall appoint a special master to review the computer software. The special master shall have expertise in software engineering, shall not be affiliated with an election software vendor nor with a candidate, shall sign and be bound by a nondisclosure agreement regarding the source code itself and shall issue a public report to the court and to the secretary of state regarding the special master's findings on the reasons for the discrepancies. The secretary of state shall consider the reports for purposes of reviewing the certification of that equipment and software for use in this state.

K. The vote count verification committee is established in the office of the secretary of state and all of the following apply:

1. At least thirty days before the 2006 primary election, the secretary of state shall appoint seven persons to the committee, not more than three of whom are members of the same political party.

2. Members of the committee shall have expertise in any two or more of the areas of advanced mathematics, statistics, random selection methods, systems operations or voting systems.

3. A person is not eligible to be a committee member if that person has been affiliated with or received any income in the preceding five years from any person or entity that provides election equipment or services in this state.

4. The vote count verification committee shall meet and establish one or more designated margins to be used in reviewing the hand counting of votes as required pursuant to this section. The committee shall review and consider revising the designated margins every two years for use in the applicable elections. The committee shall provide the designated margins to the secretary of state at least ten days before the primary election and at least ten days before the general election, and the secretary of state shall make that information publicly available on the secretary of state’s website.

5. Members of the vote count verification committee are not eligible to receive compensation but are eligible for reimbursement of expenses pursuant to title 38, chapter 4, article 2. The committee is a public body and its meetings are subject to title 38, chapter 3, article 3.3 and its reports and records are subject to title 39, chapter 1.

Sec. 28. Section 16-621, Arizona Revised Statutes, is amended to read:

16-621. Proceedings at the counting center
A. All proceedings at the counting center shall be under the direction of the board of supervisors or other officer in charge of
elections and shall be conducted in accordance with the approved
instructions and procedures manual issued pursuant to section 16-452 under
the observation of representatives of each political party and the public.
The proceedings at the counting center may also be observed by up to three
additional people representing a candidate for nonpartisan office, or
representing a political committee in support of or in opposition to a
ballot measure, proposition or question. A draw by lot shall determine
which three groups or candidates shall have representatives participate in
the observation at the counting center. Persons representing a candidate
for nonpartisan office or persons or groups representing a political
committee in support of or in opposition to a ballot measure, proposition
or question, who are interested in participating in the observation, shall
notify the officer in charge of elections of their desire to be included
in the draw not later than seventeen days before the election. After the
deadline to receive submissions from the interested persons or groups, but
prior to fourteen days before the election, the county officer in charge
of elections shall draw by lot, from the list of those that expressed
interest, three persons or groups and those selected shall be notified and
allowed to observe the proceedings at the counting center. If a group is
selected the group may alter who represents that group for different days
of observation but on any given observation day a selected group shall not
send more than one observer. A group may rotate an observer throughout
the day. Only those persons who are authorized for the purpose shall
touch any ballot or ballot card or return. All persons who are engaged in
processing and counting of the ballots shall be qualified electors, shall
be deputized in writing and shall take an oath that they will faithfully
perform their assigned duties. There shall be no preferential counting of
ballots for the purpose of projecting the outcome of the election. THE
BOARD OF SUPERVISORS OR OTHER OFFICER IN CHARGE OF ELECTIONS SHALL NOT
ALLOW THE USE OF ELECTRONIC OR OTHER TABULATING EQUIPMENT AND ALL COUNTING
SHALL BE DONE BY HAND. BALLOTS SHALL BE ORGANIZED AND REMAIN SEGREGATED
BY PRECINCT, BOTH BEFORE AND AFTER COUNTING. If any ballot, including any
ballot received from early voting, is damaged or defective so that it
cannot properly be counted by the automatic tabulating equipment, a true
duplicate copy shall be made of the damaged or defective ballot in the
presence of witnesses and substituted for the damaged or defective ballot.
All duplicate ballots created pursuant to this subsection shall be clearly
labeled "duplicate" and shall bear a serial number that shall be recorded
on the damaged or defective ballot.

B. If the counting center automatic tabulating equipment includes
an electronic vote adjudication feature that has been certified for use as
prescribed by section 16-442 and the board of supervisors or officer in
charge of elections authorizes the use of this feature at the counting
center, all of the following apply:
1. The electronic vote adjudication feature shall be included in the tabulation system logic and accuracy testing prescribed by section 16-449.

2. The board of supervisors or officer in charge of elections shall appoint an electronic vote adjudication board that consists of two judges who are overseen by an inspector, with the two judges equally divided between the two largest political parties as prescribed by section 16-531, subsection D to adjudicate and submit for tabulation a ballot that is read by the tabulation machine as blank in order to determine if voter intent is clear on a portion or all of the ballot, or any portion of any ballot as prescribed by section 16-610 or 16-611, or to tally write-in choices as prescribed by section 16-612.

3. The electronic vote adjudication process used by the electronic vote adjudication board shall provide for:
   (a) A method to track and account for the original ballot and the digital duplicate of the ballot created by the electronic vote adjudication feature that includes a serial number on the digital image that can be used to track electronic vote adjudication board actions.
   (b) The creation and retention of comprehensive logs of all digital duplication and adjudication actions performed by an electronic vote adjudication board.
   (c) The retention of the original ballot and the digital duplicate of the ballot.

4. If for any reason it becomes impracticable to count all or a part of the ballots with tabulating equipment, the officer in charge of elections may direct that they be counted manually, following as far as practicable the provisions governing the counting of paper ballots.

5. For any statewide, county or legislative election, the county recorder or officer in charge of elections shall provide for a live video recording of the custody of all ballots while the ballots are present in a tabulation room in the counting center. The live video recording shall include date and time indicators and shall be linked to the secretary of state's website. The secretary of state shall post links to the video coverage for viewing by the public. The county recorder or officer in charge of elections shall record the video coverage of the ballots at the counting center and shall retain those recordings as a public record for at least as long as the challenge period for the general election. If the live video feed is disrupted or disabled, the recorder or officer in charge of elections is not liable for the disruption but shall attempt to reinstate video coverage as soon as is practicable. Any disruption in video coverage shall not affect or prevent the continued tabulation of ballots. This subsection is contingent on legislative appropriation.
E. C. The county recorder or other officer in charge of elections shall maintain records that record the chain of custody for all election equipment and ballots during early absentee voting through the completion of provisional voting tabulation.

Sec. 29. Title 16, chapter 4, article 11, Arizona Revised Statutes, is amended by adding section 16-641, to read:

16-641. Legislative session; review; legislative election audit

NOTWITHSTANDING ANY OTHER STATUTE:

1. THE LEGISLATURE SHALL CALL ITSELF INTO SESSION TO REVIEW THE BALLOT TABULATING PROCESS FOR THE REGULAR PRIMARY AND GENERAL ELECTIONS AND ON REVIEW SHALL ACCEPT OR REJECT THE ELECTION RESULTS. IF THE LEGISLATURE ACCEPTS THE ELECTION RESULTS, THE ELECTION CANVASS AND RELATED CERTIFICATIONS AND PROCLAMATIONS MAY PROCEED AS OTHERWISE PROVIDED BY LAW, AND THE LEGISLATURE MAY ADJOURN ITS SESSION. IF THE LEGISLATURE REJECTS THE ELECTION RESULTS, ANY QUALIFIED ELECTOR MAY FILE AN ACTION IN THE SUPERIOR COURT TO REQUEST THAT A NEW ELECTION BE HELD.

Sec. 30. Section 16-663, Arizona Revised Statutes, is amended to read:

16-663. Recount of votes

A. The superior court to which the facts requiring a recount are certified shall forthwith promptly make and enter an order requiring a recount of the votes cast for such office, measure or proposal. The recount shall be conducted in accordance with the laws pertaining to contests of elections.

B. When the court orders a recount of votes which were cast and tabulated on electronic voting equipment, such recount shall be pursuant to section 16-664. On completion of the recount, and for legislative, statewide and federal candidate races only, the county chairman of the political parties entitled to continued representation on the ballot or the chairman's designee shall select at random without the use of a computer five percent of the precincts for the recounted race for a hand count, and if the results of that hand count when compared to the electronic tabulation of that same race are less than the designated margins calculated pursuant to section 16-602, the recount is complete and the electronic tabulation is the official result. If the hand count results in a difference that is equal to or greater than the designated margin for that race, the procedure established in section 16-602, subsections C, D, E and F applies.

Sec. 31. Repeal
