SB 1159: teacher certification; leadership preparation programs

Sponsor: Senator Gray, LD 21

Transmitted to the Governor

Overview

Makes various changes to statute regarding teacher certification. Alters requirements for a classroom-based preparation program (classroom program). Establishes a process for a school district or charter school (school) to be a school leadership preparation program (leadership program).

History

Statute directs the State Board of Education (SBE) to adopt rules for the issuance of the following certificates: 1) standard teaching certificate; 2) alternative teaching certificate; 3) subject-matter expert standard teaching certificate (subject-matter certificate); 4) classroom-based standard teaching certificate; and 5) career and technical education teaching certificate ([A.R.S. § 15-501.01](#)).

A school may apply to SBE for authority to approve the certification of teachers as a classroom program provider. SBE must adopt rules, policies and procedures that are administered by the Arizona Department of Education (ADE). These rules must include requirements for applicants, specifications regarding when a teacher may receive a certificate and submission requirements for a school ([A.R.S. § 15-553](#)). Currently, three school districts offer classroom programs ([ADE](#)).
