

Bill Number: S.B. 1211

Boyer Floor Amendment

Reference to: EDUCATION Committee amendment

Amendment drafted by: Leg Council

FLOOR AMENDMENT EXPLANATION

1. Removes the requirements specifying the time periods when a public school must make learning materials and activities available at the school site or campus.
2. Replaces *nondiscrimination* with *discrimination* in the list of topics for which student instruction or teacher training materials and activities must be displayed at least 72 hours before first use as prescribed.
3. Requires the searchable or sortable learning material lists to be searchable or sortable within each separately-posted section or course.
4. Allows a party to file suit in superior court to ensure each material or activity identified in the complaint is posted as required, rather than to bring the school into compliance.
5. Prohibits a school district governing board or charter school governing body from being held liable for not posting or updating listings beyond what was previously posted if:
 - a) an individual's employment at the school has been discontinued; or
 - b) an internet address ceases to function.
6. Limits complaint submissions to one complaint per party in a 30-day period and allows a complaint to identify multiple materials within a single course that have not been posted in compliance with material-posting requirements.
7. Allows a party to escalate a complaint as outlined if the complaint is not resolved in a manner that ensures materials or activities identified in the complaint are posted with the required level of detail, rather than if the complaint is not resolved to the complainant's satisfaction.
8. Specifies that the parties authorized to submit a complaint for a violation of material and activity posting requirements are limited to the outlined parties authorized to initiate a suit in superior court.
9. Specifies that *service learning projects*, which must be posted 72 hours before first use as prescribed, includes both:
 - a) a requirement to participate in internships or other collaborations with outside organizations for course credit, class project or assignment; and
 - b) the specific internships or organizations students select if selected from a list of specific internships or organizations determined by the school or school staff.
