C. Each contract, except for dental services or optometric services, shall be so written that the corporation shall pay benefits for each of the following:
   1. Performance of any surgical service that is covered by the terms of such contract, regardless of the place of service.

   4. Any service performed in a hospital's outpatient department or in a freestanding surgical facility, if such service would have been covered if performed as an inpatient service.

D. Each contract for dental or optometric services shall be so written that the corporation shall pay benefits for contracted dental or optometric services provided by dentists or optometrists.

The coverage for newly born or adopted children or children placed for adoption shall include coverage of injury or sickness, including necessary care and treatment of medically diagnosed congenital defects and birth abnormalities. If payment of a specific premium is required to provide coverage for a child, the contract may require that notification of birth, adoption or adoption placement of the child and
payment of the required premium must be furnished to the insurer within thirty-one days after the date of birth, adoption or adoption placement in order to have the coverage continue beyond the thirty-one day period.

F. Each contract that is delivered or issued for delivery in this state after December 25, 1977 and that provides that coverage of a dependent child shall terminate on attainment of the limiting age for dependent children specified in the contract shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child while the child is and continues to be both incapable of self-sustaining employment by reason of intellectual disability or physical disability and chiefly dependent on the subscriber for support and maintenance. Proof of such incapacity and dependency shall be furnished to the corporation by the subscriber within thirty-one days of the child's attainment of the limiting age and subsequently as may be required by the corporation, but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

A corporation shall not issue or deliver any advertising matter or sales material to any person in this state until the corporation files the advertising matter or sales material with the director. This subsection does not require a corporation to have the prior approval of the director to issue or deliver the advertising matter or sales material. If the director finds that the advertising matter or sales material, in whole or in part, is false, deceptive or misleading, the director may issue an order disapproving the advertising matter or sales material, directing the corporation to cease and desist from issuing, circulating, displaying or using the advertising matter or sales material within a period of time specified by the director but not less than ten days and imposing any penalties prescribed in this title. At least five days before issuing an order pursuant to this subsection, the director shall provide the corporation with a written notice of the basis of the order to provide the corporation with an opportunity to cure the alleged deficiency in the advertising matter or sales material within a single five-day period for the particular advertising matter or sales material at issue. The corporation may appeal the director's order pursuant to title 41, chapter 6, article 10. Except as otherwise provided in this subsection, a corporation may obtain a stay of the effectiveness of the order as prescribed in section 20-162. If a religiously affiliated employer objects to providing coverage for specific items or services required under subsection Y of this section, a written affidavit shall be
filed with the corporation stating the objection. On receipt of the affidavit, the corporation shall issue to the religiously affiliated employer a contract that excludes coverage for specific items or services required under subsection Y of this section. This subsection shall not exclude coverage for prescription contraceptive methods ordered by a health care provider with prescriptive authority for medical indications other than for contraceptive, abortifacient, abortion or sterilization purposes. A religiously affiliated employer offering the plan may state religious beliefs in its affidavit and may require the subscriber to first pay for the prescription and then submit a claim to the hospital service corporation, medical service corporation or hospital, medical, dental and optometric service corporation along with evidence that the prescription is not for a purpose covered by the objection. A hospital service corporation, medical service corporation or hospital, medical, dental and optometric service corporation may charge an administrative fee for handling these claims.

to other members of the family. The coverage for newly born or adopted
children or children placed for adoption shall include coverage of injury

The notice shall include or be accompanied by a statement in writing of the reasons as stated in the contract for such action by the organization. Failure of the organization to comply with this subsection shall invalidate any cancellation or nonrenewal except a cancellation or nonrenewal for nonpayment of premium, for fraud or misrepresentation in the application or other enrollment documents or for loss of eligibility as defined in the evidence of coverage. A health care services organization shall not cancel an enrollee's evidence of coverage issued on a group basis because of the enrollee's or dependent's age, except for loss of eligibility as defined in the evidence of coverage, sex, health status-related factor, national origin or frequency of utilization of health care services of the enrollee. An evidence of coverage issued on a group basis shall clearly delineate all terms under which the health care services organization may cancel or refuse to renew an evidence of coverage for an enrollee or dependent. Nothing in this subsection prohibits the cancellation or nonrenewal of a health benefits plan contract issued on a group basis for any of the reasons allowed in section 20-2309. 5. O. A conversion plan may be modified if the modification complies with the notice and disclosure provisions for cancellation and nonrenewal under subsection H of this section. A modification of a conversion plan that has already been issued shall not result in the effective elimination of any benefit originally included in the conversion plan.

P. Any person who is a United States armed forces reservist, who is ordered to active military duty on or after August 22, 1990 and who was enrolled in a health care plan shall have the right to reinstate such coverage on release from active military duty subject to the following conditions:

The coverage required under this subsection includes covered medically necessary services associated with the administration of the prescription drug. This subsection does not:

U. Any blanket disability policy that provides coverage for:

1. Prescription drugs shall also provide coverage for any prescribed drug or device that is approved by the United States food and drug administration for use as a contraceptive. A blanket disability insurer may use a drug formulary, multitiered drug formulary or list but that formulary or list shall include oral, implant and injectable contraceptive drugs, intrauterine devices and prescription barrier methods. **The blanket disability insurer does not impose deductibles, coinsurance, copayments or other cost containment measures for contraceptive drugs that are greater than the deductibles, coinsurance, copayments or other cost containment measures for other drugs on the same level of the formulary or list.**
2. Outpatient health care services shall also provide coverage for outpatient contraceptive services. For the purposes of this paragraph, "outpatient contraceptive services" means consultations, examinations, procedures and medical services provided on an outpatient basis and related to the use of approved United States food and drug administration prescription contraceptive methods to prevent unintended pregnancies.

V. Notwithstanding subsection U of this section, a religiously affiliated employer may require that the insurer provide a blanket disability policy without coverage for specific items or services required under subsection U of this section because providing or paying for coverage of the specific items or services is contrary to the religious beliefs of the religiously affiliated employer offering the plan. If a religiously affiliated employer objects to providing coverage for specific items or services required under subsection U of this section, a written affidavit shall be filed with the insurer stating the objection. On receipt of the affidavit, the insurer shall issue to the religiously affiliated employer a blanket disability policy that excludes coverage for specific items or services required under subsection U of this section. The insurer shall retain the affidavit for the duration of the blanket disability policy and any renewals of the policy. This subsection shall not exclude coverage for prescription contraceptive methods ordered by a health care provider with prescriptive authority for medical indications other than for contraceptive, abortifacient, abortion or sterilization purposes. A religiously affiliated employer offering the policy may state religious beliefs in its affidavit and may require the insured to first pay for the prescription and then submit a claim to the insurer along with evidence that the prescription is not for a purpose covered by the objection. An insurer may charge an administrative fee for handling these claims under this subsection.

W. Subsection V of this section does not authorize a religiously affiliated employer to obtain an employee's protected health information or to violate the health insurance portability and accountability act of 1996 (P.L. 104-191; 110 Stat. 1936) or any federal regulations adopted pursuant to that act.

X. Subsection V of this section shall not be construed to restrict or limit any protections against employment discrimination that are prescribed in federal or state law.
