

Fiscal Note

BILL # HB 2858

TITLE: social media protections; minors

SPONSOR: Blattman

STATUS: As Amended by House APPROP

PREPARED BY: Destin Moss

Description

The bill would outline requirements for online service providers and social media platforms relating to the privacy of minors.

Estimated Impact

The bill does not specify a state agency responsible for regulating privacy requirements, therefore, we do not anticipate the bill would impact state operating costs.

The bill could generate legal costs if the state acts against providers not in compliance with the bill's provisions. The Attorney General stated they are unable to quantify the potential fiscal impact due to the bill's complexity.

Local Government Impact

None
