Reps. Biasiucci, Blackman, and Carroll Fight to Prevent Liberal Gun Control Efforts

STATE CAPITOL, PHOENIX – Representatives Leo Biasiucci (R-5), Walt Blackman (R-6), and Frank Carroll (R-22) have introduced [HB 2093](#), a bill that would nullify any act, law, treaty, order, rule or regulation that violates the Second Amendment of the United States Constitution.

“The Second Amendment guarantees vital liberties, just like the First Amendment protects the freedom of speech and the Fourth Amendment prevents unreasonable searches and seizures,” said Representative Biasiucci. **“We stand with law-abiding gun owners to ensure they are never disarmed in the name of political posturing.”**

“Progressive activists will stop at nothing to disarm the public,” said Representative Blackman. **“It is time we send a message that we as a state won’t put the safety of our families and communities in jeopardy by allowing unconstitutional overreaches.”**

“We see, in states like Virginia, a coordinated attack on the Second Amendment and law-abiding citizens,” said Representative Carroll. **“Here in Arizona, we want to make sure that radical politicians, nationally or locally, won’t encroach on our constitutional rights.”**
