Arizonans Stand with Law Enforcement in Fight Against Radical Efforts to Defund Police

STATE CAPITOL, PHOENIX – Representative David Cook (R-8) today released the following statement opposing efforts in communities across America to defund law enforcement:

“These are dangerous and uncertain times, as we witness lawlessness and violence take hold in many American cities. These actions are further aided by liberal politicians and activists who are openly advocating for the defunding of law enforcement agencies.

“In the New York City last month, the city council and mayor cut the NYPD budget by a staggering \$1 billion dollars. Radical-left woke policies like these won’t be tolerated in the Grand Canyon State.

“The brave men and women who answer the call to serve in law enforcement deserve our respect and full support. They are the ones who protect our families and communities from criminals and mob rule. Let’s stand with them!”
