Representative Kaiser Amends Legislation to Enhance Housing Supply

STATE CAPITOL, PHOENIX – State Representative Steve Kaiser announced today he will offer a strike-everything amendment to [HB 2674](#) during Monday's meeting of the House Appropriations Committee. The bipartisan legislation originally sponsored by Representatives Kaiser and César Chávez seeks to improve housing supply and address homelessness statewide.

"The amendment establishes a study committee to assess housing supply and access in our state, consider potential legislative solutions, and solicit ideas and opinions from the community," said Representative Kaiser. **"It reflects continuing conversations Representative Chávez and I have had with constituents and stakeholders. It's clear to us that more input is necessary and that's what we intend to achieve through this revised proposal. I want to thank my constituents for reaching out and I remain fully committed to the goal of increasing supply of housing for Arizona families."**

The study committee will be required to submit a final report by December 31, 2022, presenting findings and recommendations of legislative priorities that will foster a positive housing supply in the state. An independent third party will be commissioned by the Arizona Department of Housing to assess the state's housing supply and to help augment the study committee's recommendations.

Steve Kaiser is a small business owner, veteran, and a Republican member of the Arizona House of Representatives serving Legislative District 15, which includes the north Phoenix area.
